Greetings from **QS I-GAUGE!**

I acknowledge receiving the data for the QS I-GAUGE rating evaluation, and I would like to thank you for your cooperative efforts.

The data submitted by the institution will be thoroughly evaluated by a research analyst, and it will take us approximately 6-8 weeks from data submission to revert with an additional evidence report, specifying if any additional documents or clarifications are required post the initial stage of data validation.

The release of results will approximately take 12 weeks. During this period, the data will be analysed, and evaluated for final review and sign-off.

Ratings Structure:

QS I-GAUGE consists of SEVEN Core criteria and SIX Advanced criteria (select any two). Every institution is thus evaluated based on total of nine criteria.

GREEN CAMPUS AUDIT REPORT 2022-23

Observations

- Fascinating characteristic of the Presidency University Campus is its lush green environment with rich floral and faunal diversity.
- Exotic species were observed
- Planted courtyards were observed along the campus
- Fully automated irrigation system for entire landscape is done

GREEN CAMPUS AUDIT REPORT 2022-23

Suggestions and Recommendations

- Geo tagging of all trees should be done.
- Students should be assigned plants to take care for.
- Each and every tree should be well documented.
- The ecosystem of the campus should be managed properly for a better environment.
- Proper landscape and long-term plan of the vegetational distribution/area is required for sustainable management of the trees and other vegetation in PU campus

ENVIRONMENT AUDIT REPORT 2022-23

Suggestions and Recommendations

- Rainwater Harvesting from the entire campus including open areas to be undertaken.
- Reject of Reverse Osmosis to be treated and recycled.
- All taps in the campus to be fitted with water conservation devices.
- Source segregation of waste to be practiced in the entire campus & IOT based waste data to be maintained.
- Biogas plant or compost plant to be installed for food waste generated from campus.
- No in-house treatment or recycling of waste practiced in the campus. The temporary storage of waste in the campus is poorly managed.

ENVIRONMENT AUDIT REPORT 2022-23

Suggestions and Recommendations

- Recycling of the treated water from STP for non-potable purpose within the campus to be undertaken.
- Utilization of Sludge from STP within the campus to be undertaken

ENERGY AUDIT REPORT 2022-23

Suggestions and Recommendations

- To install harmonic filter to use quality power supply as per requirement
- It is appreciated to use LED Lighting luminaries in different location of campus
- Install occupancy /Motion sensor in VC cabin, Professor cabin and Offices to save energy
- To install energy saving BLDC Fan
- To install digital telemetry enable water flow meter in bore well and other water supply pumps to monitor water abstraction and consumption in different application.
- There is a potential to install nearly 718 kWp of roof top grid connected Solar Power plant , which will generate about 2439 units every day or nearly 60997 kWh monthly and 731965 kWh per Year
- To install 488 kW solar plant and Payback Analysis for Net Zero Emission on University building roof area

BARRIER FREE ACCESS ASSESSMENT REPORT 2022-23

Suggestions and Recommendations

- To provide with adequate visual and tactile warning
- Slip-resistant surface; should be designed not to allow water accumulating on the walking surface
- Lifts should be marked with the symbol of accessibility and directional signs be provided to the lifts.
- The lift should have a voice announcement system along with a visual display to indicate the floor level and also the information that the door of the cage is open or closed for entrance or exit. The announcement system should be clearly audible i.e. the announcement should be 50 decibel.
- Presence of wide gratings that hinder wheelchair movement, absence of appropriate railings.

Transformation Reforms Proposed Now For India's HEI-Accreditation System Conforming To NEP 2020

Specifics of the Proposed Reforms

1. Amalgamate Programme-Accreditation and Institution-Accreditation, considering their inter-dependency; and evolve a Composite Assessment System (with due compliance to the accepted conditions of the Washington Accord).
2. Enable Choice-based Ranking System for Diverse Users
3. Transition from the present 8-point grading system of NAAC to an 'Adapted Binary Accreditation System'
4. Mentor the Institutions falling 'far below the standards for accreditation'.
5. Encourage accredited Institutions to raise their bar gradually to:
 - o 'Level 1' to 'Level 4' of Institutes of National Excellence, [moving up as they evolve 'in-depth in their disciplines' and/or in-breadth in disciplines]
 - o 'Level-5' for Multi-Disciplinary Research and Educational Institutions of global standing (as envisioned in NEP 2020)

Transformation Reforms Proposed Now For India's HEI-Accreditation System Conforming To NEP 2020

Specifics of the Proposed Reforms

6. Simplify the Accreditation process, especially for the first cycle. Periodicity for Re-accreditation may be brought down to three-year cycle (from five years as followed now).
7. Include all HEIs and every programme in the newly proposed assessment and accreditation system, with due regard for their statutory dispensations (e.g. IITs).
8. Consider the heterogeneity of HEIs in the country, categorise them based on their orientation/vision and heritage/legacy, and then seek information from the HEIs that are appropriate to their category (rather than a one-size-fits-all model in vogue currently).
9. Accredite with due consideration for Inputs, Processes, Outcomes and Impact across different attributes of HEI, encompassing (i) curricular aspects, (ii) selection of faculty, (iii) teaching, (iv) research and innovation, (v) community engagement, (vi) extra-curricular and co-curricular activities, (vii) green Initiatives, (viii) governance and administrative practices.

Transformation Reforms Proposed Now For India's HEI-Accreditation System Conforming To NEP 2020

Specifics of the Proposed Reforms

10. Develop a 'Unified Elicitation Tool' to collect the superset of data from HEIs for varied purposes (of approval, accreditation, scoring/ranking) with in-built design for collateral cross-checking to ensure authenticity of data, and, in conjunction with it
11. Trust Institutions (along with significant penalty for wrong submissions) and ensure public disclosure of relevant data by HEIs, to enhance the overall process-credibility
12. Initiate a robust outreach mechanism in tandem with effective methods of handholding the potential entrants (which is the large majority now), where the aim should be to facilitate all HEIs in the country towards joining the process of accreditation and ranking at the earliest.
