

Event No.	BJG02	Event Category	Alumni Interaction
Event Date	17-05-2024 (1 Day)	Event Type	Webinar (Online)
Event Venue	FSL-02, FSL-03, FSL-04	Expected Participants	Petroleum Students
Event Time	10:30 AM – 11:30 AM	No. of Participants	57
Event Objective	<p>The main objectives of the event are to:</p> <ol style="list-style-type: none"> Educate Participants: Provide participants with a comprehensive understanding of the key concepts, technologies, and processes relevant to the oil and gas industry, enhancing their technical knowledge and proficiency. Enhance Interview Readiness: Equip participants with the necessary skills, strategies, and resources to effectively prepare for and excel in interviews for various roles within the oil and gas sector. Foster Industry Connections: Facilitate networking opportunities for participants to connect with industry professionals, recruiters, and peers, expanding their professional network and access to career opportunities. Provide Insights into Industry Trends: Inform participants about the latest trends, challenges, and innovations shaping the oil and gas industry, helping them stay informed and adapt to evolving industry dynamics. Offer Career Guidance and Pathways: Assist participants in exploring various career paths, job opportunities, and growth prospects within the oil and gas sector, guiding them toward fulfilling and sustainable career trajectories.

Event Summary

The alumni interaction event for Petroleum Engineering students saw active participation from 57 individuals, including alumni from the 2018-2022 batches and current students. The event commenced with a brief introduction of the alumni, setting a warm and collegial tone for the session. Following the introductions, the alumni delved into a discussion about the current demands of the petroleum industry. They highlighted the evolving landscape of the sector, emphasizing the critical skills that students need to develop to stay competitive. This included both technical skills and industry-specific knowledge that are highly sought after by employers. A significant part of the discussion focused on the software tools that are essential for modern Petroleum Engineers. The alumni shared insights on various software applications, detailing how proficiency in these tools can enhance job prospects and efficiency in the field. This segment was particularly valuable for the students as it provided clear guidance on where to focus their learning efforts.

Additionally, the alumni shared their personal experiences, particularly focusing on the challenges and nuances of job hunting in the petroleum sector. One alumnus recounted an interview process that extended over a month, providing a detailed narrative that included the stages of the interview, the types of questions asked, and strategies for success. This real-world example offered the students a glimpse into the complexities of securing a job and the persistence required.

The event concluded with an interactive Q&A session. Students seized the opportunity to ask a wide range of questions, from specific technical queries to broader career advice. The alumni responded enthusiastically, offering tailored advice and encouraging the students to stay committed to their studies and professional development.

Overall, the event was a rich exchange of knowledge and experiences, bridging the gap between past graduates and current students. It provided valuable insights into the petroleum engineering industry and equipped the students with practical advice and inspiration to navigate their future careers.

To,
MOHAMMED ZAIN

Oil & Gas Business Analyst at ENVERUS (Formerly known as DrillingInfo)

Dear Zain,

On behalf of the Petroleum Engineering Department and the entire student body, I am writing to express our heartfelt gratitude for your recent webinar titled "**Unlocking Success in the Petroleum Industry: Alumni Mentorship on Job Interviews & Industry Insights.**"

Your session was incredibly informative and inspiring. The comprehensive overview you provided on the current industry demands, the essential skills required for job success, and the critical software tools was invaluable to our students. Your personal experiences, particularly the detailed account of your month-long interview process, offered a realistic and encouraging perspective that deeply resonated with the attendees.

The interactive Q&A segment was a highlight for many students. Your willingness to address their diverse queries with patience and clarity significantly enhanced their understanding and provided them with actionable advice. Your insights have undoubtedly equipped them with the knowledge and confidence needed to navigate their future careers in the petroleum industry.

We are immensely grateful for your time and effort in preparing and delivering such a compelling webinar. Your dedication to mentoring and supporting the next generation of petroleum engineers is truly commendable. We are confident that your contributions will have a lasting impact on our students' professional journeys.

Once again, thank you for your invaluable contribution. We look forward to staying connected and hope to have the pleasure of welcoming you back for future events.
