About the Alumni Meet:

The Presidency University School of Commerce Alumni Meet held on 12th January 2023 with Mr. Vittapu Dundi Ganapathi Raghunandan at the campus was a memorable and heartwarming occasion, uniting former students to relive their academic journey and celebrate their shared history. The event featured an insightful session on "The Future of E-Vehicles in India," where a distinguished expert emphasized the significance of electric mobility in shaping a sustainable transportation ecosystem. Alumni actively engaged in discussions and networking opportunities, exchanging valuable insights and experiences from diverse professional backgrounds. The celebration of alumni achievements and captivating cultural performances added to the festive ambiance, showcasing the talent and accomplishments of the university's esteemed community. Guided campus tours invoked nostalgic memories, while the closing ceremony emphasized the value of staying connected and supporting the university's progress. The Alumni Meet left everyone inspired and motivated to contribute to a greener future and continue fostering a strong bond with their alma mater. In conclusion, he shared his resounding success, evoking a sense of pride and unity among the attendees.

Report of Guest lecture “Career Opportunities in Shipping and Freight Forwarding Industry” –Alumni meet

Event No:	02	Date:	20/03/2023
Event Category:	Alumni Meet	Event Type:	Guest Lecture
Mode of Event & Venue: HS04	Offline mode	No. of Participants:	47
Event Organizer:	School of Commerce		
Event Convenors	Dr. Mounica Vallabhaneni Associate Professor School of Commerce Presidency University – Bengaluru		

Hosted by- Ilyaz Ahamed, Junior Logistics Manager, P K Vaduvammal Group,

Chennai

Sanne
REGISTRAR
PRESIDENCY UNIVERSITY
BANGALORE

Mr. Illyaz Ahamed started his talk recalling his memories at Presidency University during his tenure later started to speak on concept of Career Opportunities in the Shipping and Freight Forwarding Industry.

The shipping and freight forwarding industry plays a crucial role in global trade and commerce, facilitating the movement of goods across borders efficiently and securely. This guest lecture aimed to enlighten students about the diverse career opportunities available in this dynamic sector. The lecture explored the industry's significance, key functions, and the skill sets required to thrive in various roles.

Overview of the Shipping and Freight Forwarding Industry:

The lecture began with an overview of the shipping and freight forwarding industry, emphasizing its vital role in international trade. The speaker highlighted the complexities involved in transporting goods across oceans and borders, underscoring the need for competent professionals to ensure the smooth flow of goods.

Core Functions of the Industry:

The lecture delved into the core functions of the industry, which include shipping operations, cargo handling, customs clearance, documentation, logistics coordination, and risk management. Students gained insights into the end-to-end processes involved in shipping and freight forwarding, from sourcing and packaging to final delivery.

Career Paths in the Industry:

A major focus of the lecture was on the diverse career paths available in the shipping and freight forwarding sector. The speaker highlighted the following key roles:

- a. Freight Forwarder: Explained the responsibilities of a freight forwarder, who acts as an intermediary between shippers and carriers, ensuring efficient transportation and customs clearance.

b. Logistics Manager: Discussed the role of logistics managers in overseeing the movement of goods, optimizing supply chains, and managing warehouse operations.

c. Customs Broker: Introduced the important role of customs brokers in handling legal documentation and ensuring compliance with customs regulations.

d. Shipping Agent: Discussed the functions of shipping agents, who represent shipping lines and manage port-related operations.

e. Supply Chain Analyst: Explored the role of supply chain analysts in analyzing data, identifying trends, and improving operational efficiency.

f. Marine Surveyor: Highlighted the responsibilities of marine surveyors, who inspect and assess vessels, cargoes, and shipping equipment for safety and compliance.

Skill Sets Required:

To succeed in the shipping and freight forwarding industry, the lecture emphasized the significance of certain key skill sets:

a. Strong Communication: Effective communication is essential for dealing with clients, carriers, and various stakeholders in the supply chain.

b. Problem-Solving: Professionals in the industry must possess strong problem-solving skills to address unforeseen challenges and delays.

c. Adaptability: The shipping industry operates in a dynamic global environment, requiring professionals to adapt to changing regulations and market conditions.

d. Time Management: Timely and efficient cargo handling is crucial; hence, time management skills are highly valued.

e. Multilingual Abilities: Given the international nature of the industry, proficiency in multiple languages can be advantageous.

Emerging Trends in the Industry:

The lecture also touched on emerging trends in the shipping and freight forwarding industry, such as the integration of block chain for transparent documentation and real-time tracking of cargo, the adoption of green logistics to promote sustainability, and the increasing use of automation and AI in logistics operations.

The guest lecture provided valuable insights into the shipping and freight forwarding industry, showcasing its significance and the abundance of career opportunities it offers. Students gained a comprehensive understanding of the various roles available and the essential skill sets required to thrive in this dynamic and global sector. With continuous advancements and changing market dynamics, the industry promises exciting prospects for aspiring professionals. **List of Students:**

About the Alumni Meet:

The Presidency University Alumni Meet held with Rohith Kumar on 23rd January 2023 delved session on the promising "Prospects in EduTech Industry," providing a platform for graduates to explore the future of learning in a technology-driven world. Distinguished experts on the panel shared insights into the ever-evolving landscape of education technology, emphasizing the significance of digital learning platforms, personalized education approaches, and immersive learning experiences. Alumni actively participated in interactive discussions, expressing their thoughts on harnessing technology to enhance

education accessibility and effectiveness. The event offered valuable networking opportunities, connecting graduates with accomplished professionals in the EduTech industry, inspiring them to consider exciting career prospects and entrepreneurial ventures in this rapidly expanding sector. Cultural performances and artistic showcases further enriched the experience, celebrating the diverse talents within the Presidency University alumni community. The Alumni Meet concluded on a high note, leaving graduates feeling inspired and empowered to make a meaningful impact in the transformative EduTech space, while continuing to support their beloved alma mater's progress.

In conclusion, the Alumni Meet on "Prospects in EduTech Industry" at Presidency University was a resounding success, combining nostalgia and optimism. It rekindled fond memories of academic life while propelling alumni into a forward-thinking realm of education technology. Graduates left the event with a renewed sense of purpose, eager to embrace the opportunities and challenges presented by EduTech and contribute to the advancement of learning in an increasingly digital world. As they continue to stand behind their alma mater's growth and success, Presidency University alumni are poised to play a significant role in shaping the future of education and innovation.

About the Alumni Meet:

The Alumni Meet at Presidency University on 08 December 2022 delved into the exciting and rapidly evolving topic of "Future Prospects of FINTECH," providing graduates with invaluable insights into the transformative potential of financial technology. Esteemed experts from the FINTECH industry shared their perspectives on the current landscape and the promising opportunities that lie ahead. The event commenced with a warm welcome, bringing together alumni from various batches and fostering a sense of unity within the alumni community. The session on Future Prospects of FINTECH featured engaging discussions and presentations, exploring cutting-edge technologies such as blockchain, artificial intelligence, and digital payments that are reshaping the financial services landscape.

Alumni actively participated in discussions, exchanging ideas on how FINTECH innovations can drive financial inclusion, enhance customer experiences, and revolutionize traditional financial systems. The event also provided valuable networking sessions, allowing graduates to connect with accomplished professionals and pioneers in the FINTECH field. These connections facilitated knowledge exchange and inspired alumni to explore diverse career opportunities and entrepreneurial ventures in the rapidly expanding world of FINTECH.

About the Alumni Meet:

The Alumni Meet at Presidency University on April 12, 2023 explored the dynamic realm of "Digital Marketing Strategies," offering valuable insights into modern approaches for success in the digital landscape. Esteemed marketing experts led engaging discussions on social media marketing, SEO, content marketing, and data-driven decision-making. Interactive workshops provided hands-on learning experiences, empowering alumni to craft compelling content, develop targeted campaigns, and measure performance metrics effectively. Networking sessions facilitated connections with industry leaders and fellow professionals, inspiring graduates to explore diverse career opportunities and entrepreneurial ventures. Cultural performances highlighted the significance of creativity and storytelling in successful digital marketing campaigns. Overall, the event left alumni equipped with valuable skills and ready to make a significant impact in the competitive digital marketing industry, while continuing to support their beloved alma mater's progress.

In conclusion, the Alumni Meet on "Digital Marketing Strategies" at Presidency University was a resounding success, empowering graduates with the latest marketing trends and strategies. Equipped with valuable skills and networking connections, alumni are poised to drive

innovation and excellence in the ever-evolving field of digital marketing. As they continue to support their alma mater's growth and success, Presidency University alumni will play a crucial role in shaping the future of marketing in the digital era.

About the Alumni Meet:

The Alumni Meet at Presidency University explored the promising "Eagle Eye on Growth Potentials in the Pharmaceuticals Industry in India." Esteemed experts from the pharmaceutical industry discussed the current landscape and potential growth opportunities in India, highlighting factors driving the industry's expansion, such as research and development advancements, increasing healthcare demands, and government support. The event took place on 3rd January 2023, and alumni actively engaged in discussions, sharing their perspectives on the challenges and prospects within the pharmaceuticals sector.

The Alumni Meet also facilitated networking sessions, enabling graduates to connect with industry leaders and professionals, fostering potential collaborations, and inspiring them to explore promising career advancements and entrepreneurial ventures in the pharmaceutical domain. In conclusion, the Alumni Meet at Presidency University was a resounding success, equipping alumni with comprehensive insights and networking opportunities. The

About the Alumni Meet:

The Alumni Meet at Presidency University on 10th November 2022 delved into the exciting topic of "Career Opportunities in Asset Management," providing an enlightening platform for graduates to explore the prospects in this dynamic field. Esteemed experts from the asset management industry shared valuable insights into the current landscape and potential career paths in the sector. The event commenced with a warm welcome, reuniting graduates from different batches and fostering a sense of camaraderie among the alumni community. The session on Career Opportunities in Asset Management featured interactive discussions and presentations that shed light on the diverse roles and responsibilities within the industry. Alumni actively engaged in discussions, expressing their thoughts on the evolving trends and challenges in asset management.

The Alumni Meet also provided valuable networking sessions, enabling graduates to connect with accomplished professionals and leaders in the asset management field. These connections facilitated knowledge exchange and fostered potential collaborations, inspiring alumni to explore exciting career advancements and entrepreneurial ventures in the realm of asset management.

Mr. Ameer Haideer started his talk recalling his memories at Presidency University during his tenure later started to speak on concept of block chain technology, Block chain technology has emerged as a disruptive force with transformative potential across various industries. Beyond its applications in crypto currencies, block chain presents a plethora of earning opportunities for individuals and businesses alike. This report explores the diverse ways in which block chain can generate revenue and highlights key areas where individuals can capitalize on this technology-driven ecosystem.

Blockchain, a decentralized and immutable distributed ledger system, has revolutionized how transactions and data are managed. Its inherent transparency, security, and trustworthiness have given rise to a wide range of earning opportunities that capitalize on its unique features.

Our guest speaker also concentrated on few key features, they are:

- **Crypto currency Investments:**

While Bitcoin and other crypto currencies have been the primary focus of block chain-based investments, they are just one aspect of the block chain ecosystem. Investors can explore a variety of bit coins and initial coin offerings (ICOs) to diversify their portfolios and potentially reap substantial returns.

- **Decentralized Finance (DeFi):** DeFi is a rapidly growing sector within block chain that offers various earning opportunities. Participants can lend or borrow digital assets, provide liquidity to decentralized exchanges (DEXs), stake tokens in yield farming protocols, and earn rewards in the form of interest or fees.
- **Non-Fungible Tokens (NFTs):** NFTs have gained immense popularity, enabling artists, creators, and developers to monetize their digital content. Individuals can create, sell, or trade NFTs representing art, music, virtual real estate, and more, earning commissions with every transaction.

- **Block chain Development:** The demand for skilled block chain developers continues to rise. Individuals with expertise in smart contract development, decentralized application (dApp) creation, and block chain integration can offer their services to companies or freelance, commanding competitive rates.
- **Supply Chain Management:** Blockchain's transparent and traceable nature has found applications in supply chain management. By providing solutions for product authentication, provenance tracking, and inventory management, entrepreneurs can establish profitable ventures that leverage blockchain's efficiency and security.
- **Tokenization of Assets:** Traditional assets like real estate, stocks, and commodities can be tokenized on the block chain. Tokenization allows fractional ownership, liquidity, and access to a global investor base, thereby enabling new earning opportunities for asset owners and investors.
- **Gaming and Virtual Economies:** Block chain-based gaming platforms allow players to earn in-game assets and tokens that hold real-world value. Gamers can trade these assets in secondary markets, creating novel earning opportunities within virtual economies.
- **Content Monetization:** Block chain-based platforms empower content creators to directly monetize their work without intermediaries. They can receive micropayments for their articles, videos, or other digital content, enabling sustainable revenue streams.
- **Decentralized Autonomous Organizations (DAOs):** DAOs are community-driven organizations that operate on the block chain. By participating in governance processes and contributing to the community, individuals can earn rewards and influence the direction of the organization.
- **Block chain-Based Freelancing:** Freelancers skilled in block chain-related tasks can offer their services on specialized platforms. These tasks may include auditing smart contracts, conducting security assessments, or providing block chain consultancy.
- **Energy Trading and Renewable Energy:** Block chain facilitates peer-to-peer energy trading, where individuals can buy and sell excess renewable energy directly with other users, promoting sustainability while creating earning opportunities for green energy producers.

Overall it was a wonderful session on block chain – block chain ecosystem offers a vast array of earning opportunities beyond the traditional financial sectors. From crypto currencies and DeFi to NFTs and block chain development, individuals can capitalize on the technology's features to create sustainable income streams. However, it is essential to stay informed, cautious, and discerning while exploring these opportunities, as the block chain space can be volatile and subject to regulatory changes.
