Webinar on

"Cross Platform Mobile Application Development"

under the banner of Techtonic - CSE forum and the Club - SIG-MOBILE (Special Interest Group-MOBILE), for our department CSE

Overview

"Cross Platform app development" or "hybrid mobile app development" is an approach that allows developers to build a mobile solution that is simultaneously compatible with several operating systems and platforms (Android, iOS, Windows).

* Flutter & Dart
* React Native

Resource Person - 1

Mr. Renjith E Chacko

B.Tech. - CSE, Alumni of Presidency University
(Batch: 2015-2019)
Founding Member and Full Stack Developer,
DigiMoGo Inc. Bengaluru

Resource Person - 2

Mr. Manoj H M

B.Tech. - CSE, Alumni of Presidency University
(Batch: 2016-2020)
Full Stack Developer,
Geekonomy Technology, Pvt Ltd, MG Road, Bengaluru

Chief Patron

* Sri. Nissar Ahmed, Chancellor, Presidency University.

Patron

* Dr. D. Subhakar, Vice Chancellor, Presidency University
* Dr. A.M Surendra Kumar, Pro Vice-Chancellor, Presidency University
* Dr. Beeran Moidin B.M, Registrar, Presidency University

Chief Convener

* Dr. Abdul Sharief, Dean, School of Engineering, Presidency University, Bengaluru.

Convener

* Dr. Shankar Ramamoorthy, Associate Dean (CSE) – Academics
* Dr. C. Kalaiarasan, Associate Dean – Administration
* Dr. Jacob Augustine, Associate Dean (CSE)– Student Services

Organizing Committee

* Dr. Blessed Prince- Associate Professor, Dept. of CSE
* Mr. Zafar Ali Khan N- Assistant Professor, Dept. of CSE
* Ms. Sushmita Kumari- Assistant Professor, Dept. of CSE
* Ms. Pavithra N- Assistant Professor, Dept. of CSE

Date :03.07.2021 **Time : 10:00 AM - 04:00 PM**

A REPORT ON

"Cross Platform Mobile Application Development"

Webinar Held on 3rd July 2021

Technical Speakers

1. Mr. Renjith E Chacko B.Tech.
Founding Member and Full Stack Developer,
DigiMoGo Inc. Bengaluru.

Talk on: Flutter & Dart
Time: 10:00 am to 01:00 pm

2. Mr. Manoj H M B.Tech.
Full Stack Developer,
Geekonomy Technology, Pvt Ltd, MG Road, Bengaluru

Talk on: React Native
Time: 02:00 pm to 04:00 pm

Session: (For final, Third,Second ,PG M.Tech(AI&DS) students and Faculty)

Venue: Online Mode (MS Team)

Time: 10:00 am to 04:00 pm

The event **"Cross Platform Mobile Application Development",** webinar under the banner of Techtonic - CSE forum and the club - **SIG-MOBILE (Special Interest Group-MOBILE)** was held on (Saturday) 3rd July 2021.

The aim of the session was to familiarize the participants with the knowledge on hybrid Development of mobile applications, so that the participants can understand the current industry needs to focus on their career.

REGISTRAR

PRESIDENCY UNIVERSITY Registrar BANGALORE

Session: The event started with the prayer by three of our faculty, verses from Quran - Mr.Zafar Ali Khan, phrases from Bible - Dr.Blessed Prince and Devotional prayer - Ms.Sushmita Kumari, by seeking the blessing from GOD. Continuing to the prayer, introduction about the speakers and Master of Ceremony MC was done by -Mr.Zafar Ali Khan, and handed over the session to the first speaker, Mr. Renjith E Chacko. He shared his technical expertise, which enabled our students to understand the concept of creation of mobile application using flutter. He also shared about the details of recent research trends and problems in flutter.The session ended at 1:00pm.Then one hour break was taken after this again the session resumed at 2:00pm by Mr. Manoj H M.He shared his insight on how to create mobile application using react native.This session ended at 4:00pm.

In the questioner session, student asked question on carrier point of view, our guest gave clarity to our students. Overall, it's a great eye opener for our students, which enabled them to focus on their interested development methodology .

Valedictory ceremony was preceded by our student - Mr.Zafar Ali Khan and the function came to an end with a thanks message by the Program Coordinator Dr.Blessed Prince.

Program Coordinator
ZAFAR ALI KHAN N
Program Chair – CSE,
Assistant Professor,
CSE, SoE,
Presidency University.

About The Webinar

- Learning Objective

  Objective of the webinar is to create the awareness for the students the importance of Cloud services and platform.

- Learning Outcome

  Students are able to understand the importance of Data security: Hardware failures do not result in data loss because of networked backups. Savings on equipment: Cloud computing uses remote resources, saving organizations the cost of servers and other equipment. Pay structure: A “utility” pay structure means users only pay for the resources they use.Resource person explained about the importance of ethical hacking with cybersecurity and why it is important in security

Report on Webinar Series

"How to become Entrepreneur"

Date: 29.01.2021

OBJECTIVE OF THE WEBINAR:

The main objective of this webinar was to create awareness among professionals and students regarding options and opportunities to start up their own venture and motivate young individuals from various sections of society to take up self-employment or entrepreneurship as one of their career options.

REPORT:

The webinar on "Entrepreneurship Skill Development" for academicians and students was designed and aimed to provide ideas to become an entrepreneur. The Session started with Keynote address speech by Dr. C S Ramesh, Dean, Research & Innovations followed by Welcome and Introduction of the speaker by Dr.Mohamadi Begum Y, Associate Dean-CSE . The Speaker of the Session Mr. Rahul B R presented the session on Entrepreneurship Development.

He started her talk with the conceptual background of entrepreneurship and moved towards the different entrepreneurial model and discussed how idea generation is the root cause for any entrepreneurial venture. In this webinar, Speaker explores the journey of an entrepreneur. She discussed how to take Idea to action, start a company, pivot if the idea is not working, and also drop the idea if it is not working out. The Speaker shared an estimate of an idea and mapped it with the company for entrepreneurial purposes. She also covered How to build a company to raise funds, evaluate a company, finance, schedule, etc.

The event ended with the very brainstorming session of question-answer and the speaker left the audience with a quest to ponder over. The webinar came to end with the vote of thanks proposed by Dr.Anandraj SP, Associate Professor-Program Chair, and CSE. Finally the feedback about the session was collected from all the participants.

Report

The Department of CSE organized the webinar on "Emerging Technologies in Computer Science" for the students on 29.01.2022.

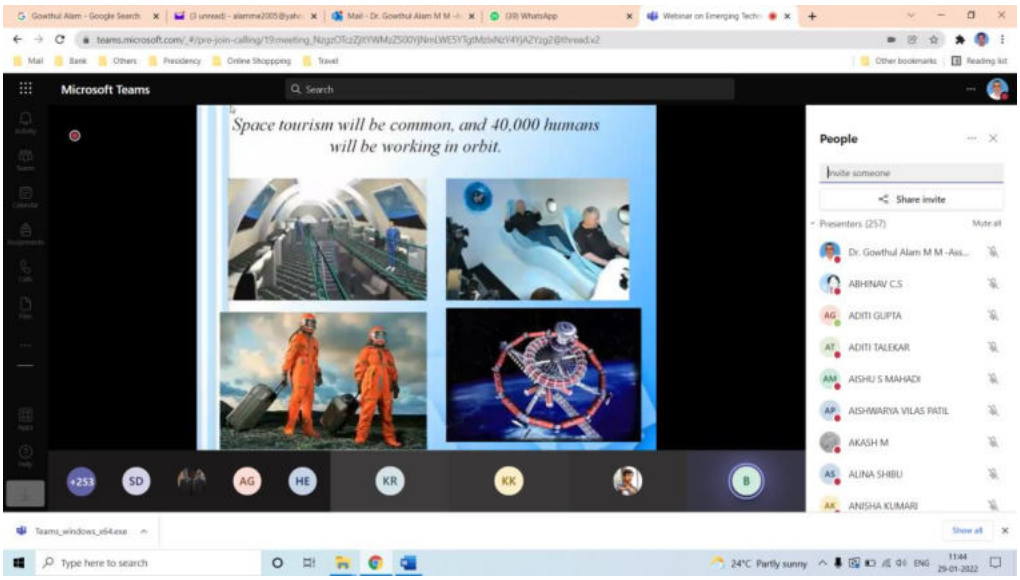
The course content delivered in the webinar is as follows:

The Speaker of the Session Dr. N. Balaji delivered a session on "Emerging Technologies in Computer Science". The speaker discusses the most recent gadgets introduced to the market that use Advanced Technologies such as Artificial Intelligence, Nanotechnology, Biotechnology, Cognitive Science, Psych technology, Robotics, and Artificial Intelligence, as well as other Emerging Technologies such as Virtual and Augmented Reality, UI / UX Design, and Quantum Computing, with best-fit real-life examples that are essential for understanding the technology. He has addressed the advancements made in the last few decades, particularly from 2010 to 2020.

The first and Second-year students are the primary targeted participants for this webinar and totally of 254 participants were attended the webinar, and the QA session was very interactive with students. The overall arrangements and deliverance of the webinar was helpful and satisfied to the participants. From the feedback received from the participants that they wanted to have similar kind of programs in future.

REGISTRAR

PRESIDENCY UNIVERSITY Registrar BANGALORE



The objective of the webinar was achieved. The overall session discussion benefitted to the Students. This webinar would help the participants to learn the many technologies released in the market using Big Data Analytics, Virtual and Augmented Reality, 5G, Block Chain Technology, Cyber Physical Systems, Robotic Process Automation and 3D Printing.

About the Workshop

- Learning Objective

  Objective of the workshop will advance your career as a MEAN stack developer. You'll learn top skills such as MongoDB, Express.js, Angular, and Node.js ("MEAN"), plus GIT, HTML, CSS, and JavaScript to build and deploy interactive applications and services throughout this Full Stack MEAN Developer program.

- Learning Outcome

  Students are able to understand the importance of Full Stack Development can help in lot of ways like it strengthens of software industry by Develop a fully functioning website and deploy on a web server. Find and use code packages based on their documentation to produce working results in a project. Create webpages that function using external data. Architect solutions to programming problems by combining visual components and classes Resource person explained about the importance of recent era in full stack development.

About The Webinar

- Learning Objective

  Objective of the webinar is to create the awareness for the students the importance of Cloud services and platform.

- Learning Outcome

  Students are able to understand the importance of Data security: Hardware failures do not result in data loss because of networked backups. Savings on equipment: Cloud computing uses remote resources, saving organizations the cost of servers and other equipment. Pay structure: A “utility” pay structure means users only pay for the resources they use.Resource person explained about the importance of ethical hacking with cybersecurity and why it is important in security

About The Webinar

- Learning Objective

  Objective of the webinar is to create the awareness for the students the importance of Ethical hacking.

- Learning Outcome

  Students are able to understand the importance of Ethical hacking,which can help in lot of ways like it strengthens computer and network security by performing penetration testing, it enables one to take preventive measures to avoid any security breach situations Description about the activity Conducted.

Resource person explained about the importance of ethical hacking with cybersecurity and why it is important in security

About the Workshop

- Learning Objective
- Objective of the workshop will advance in traditional machine learning, a central ML model is built using all available training data in a centralized environment. This works without any issues when a central server can serve the predictions.
- Learning Outcome

  Students are able to understand the importance to identify Federated learning (FL) is a method used for training artificial intelligence models with data from multiple sources while maintaining data anonymity, thus removing many barriers to data sharing. Resource person explained about the importance of recent era in Federated Technologies.

About the Workshop

- Learning Objective
- Objective of the workshop will advance in deep learning and computer vision has made rapid progress over a short period. Some of the applications where deep learning is used in computer vision include face recognition systems, self-driving cars, etc.
- Learning Outcome

  Students are able to understand the scientific discipline, computer vision is concerned with the theory behind artificial systems that extract information from images. As a technological discipline, computer vision seeks to apply its theories in the development of practical computer vision systems. The overall goal of computer vision is to develop systems that can automatically recognize, process, and interpret visual content to solve tasks in a variety of areas. Computer vision is used for video surveillance, public safety, and, more recently, for driver assistance in cars, and the automation of processes such as manufacturing and logistics. Resource person explained about the importance of recent era in Computer Vision.

Learning Objective

- Objective of the workshop is to apply statistical analysis and technologies on data to find trends and solve problems. Data analytics has become increasingly important in the enterprise as a means for analyzing and shaping business processes and improving decision-making and business results.

Learning Outcome

- Participants will be able to understand and use python data science libraries as a tool for data analytics
- Participants will be able to create Python codes for the above techniques
- Participants will be create visualizations using python

.

About The Webinar

- **Learning Objective**

  Objective of the webinar is to create the awareness for the students the working of quantum computers and the technology behind that.

  Learning Outcome

  Students are able to understand the importance of quantum computers in performing the task in quantum speed.

  Description about the activity Conducted

  Resource person Mr.Rahul explained The basic unit of information in quantum computing is the qubit, similar to the bit in traditional digital electronics. Unlike a classical bit, a qubit can exist in a superposition of its two "basis" states, which loosely means that it is in both states simultaneously. When measuring a qubit, the result is a probabilistic output of a classical bit. If a quantum computer manipulates the qubit in a particular way, wave interference effects can amplify the desired measurement results. The design of quantum algorithms involves creating procedures that allow a quantum computer to perform calculations efficiently and quickly.

About The Webinar

- **Learning Objective**

  Objective of the webinar is to create the awareness for the students the use of excel tool in data analysis.

  Learning Outcome

  Students are able to use the excel tool for calculations and doing data analysis.

  Description about the activity Conducted

  Resource person Joshika M explained Excel is a popular choice for data analysis due to its ease of use and learning, with a familiar interface and a variety of functions and features. It can handle large amounts of data, up to 1 million rows and 16,000 columns per worksheet, and can perform basic and advanced calculations, such as arithmetic, statistics, logic, and financial functions. Additionally, Excel can create and customize charts, graphs, tables, and pivot tables to visualize and summarize data, and can integrate with other Microsoft products, such as Word, PowerPoint, and Outlook, as well as import and export data from various sources and formats.

  Students are able to use the hardware components and implement mini projects.

- **Description about the activity Conducted.**

  Arduino and Raspberry Pi. Arduino is based on the ATmega family and has a relatively simple design and software structure. Raspberry Pi, basically is a single-board computer. Both of them have a CPU which executes the instructions, timers, memory and I/O pins.

Participants List:

Sl NO	Names	Attendance
1	Rahul a	P
2	M venkata ashok	P
3	Katipally yashwanth reddy	P
4	Sakshi kulshreshtha	P
5	Muhammed muzammil k m	P
6	Vasudha. N	P
7	Sayyid kaamil	P
8	Manugunta harsha vardhan reddy	P
9	Ayush tiwari	A
10	Rahul s	P
11	Vikas sharma	P
12	Karanam pocharaju lakshmi sharanya	P
13	Raghavendra n	P
14	Monica malyadri s	P
15	Nimmala pavan kumar	P
16	Hemanth kumar k	P
17	Archana n	A
18	Dr. Nagaraja s r-asso.prof.-cse	P
19	Lenin e	P
