Report on Mentoring for Success Workshop: Understanding the Process of Effective Mentoring

Introduction:

On the 29th of April, 2023, Student Mentorship in association with YourDost conducted a workshop on "Mentoring for Success" at Presidency University Auditorium from 10:30 a.m. to 12:00 p.m. The resource person of this workshop was Dr. Bhooma Krishnan, a renowned psychologist with more than 15 years of experience guiding hundreds of students at esteemed institutions. She is currently working as a student counselor at IIIT Bangalore and IIM Bangalore and is a professional Neuro-Linguistic Programmer and a Certified CBT Practitioner. The workshop aimed to help the participants reflect on what mentoring means to them, discover the process of mentoring, and practice two micro-skills essential for successful mentoring.

Objectives:

The workshop had the following objectives:

Reflect on what mentoring means to YOU:

The first objective of the workshop was to help the participants reflect on what mentoring means to them. Dr. Bhooma Krishna started the workshop by asking the participants to share their understanding of mentoring. This exercise helped the participants understand that mentoring is not just about giving advice, but it is a relationship built on trust, respect, and mutual learning.

Discover the process of mentoring:

The second objective of the workshop was to help the participants understand the process of mentoring. Dr. Bhooma Krishna explained that mentoring is a process that involves setting goals, establishing expectations, providing feedback, and evaluating progress. She emphasized that effective mentoring requires good communication skills, active listening, and empathy.

Practice two micro-skills essential for successful mentoring:

The third objective of the workshop was to help the participants practice two micro-skills essential for successful mentoring. Dr. Bhooma Krishna introduced the two micro-skills, active listening, and questioning, and provided examples of how they can be used in mentoring.

Active listening involves paying attention to the speaker, understanding the message, and responding appropriately. Dr. Bhooma Krishna explained that active listening helps the mentor understand the mentee's perspective and build trust.

Questioning involves asking open-ended questions that encourage the mentee to think deeply and reflect on their goals and aspirations. Dr. Bhooma Krishna explained that questioning helps the mentee clarify their goals and develop a plan of action. She demonstrated questioning by asking open-ended questions that encouraged the participants to reflect on their personal and professional goals.

Conclusion:

The workshop on "Mentoring for Success" conducted by Dr. Bhooma Krishna at Presidency University Auditorium was informative and engaging. The workshop helped the participants reflect on what mentoring means to them, understand the process of mentoring, and practice two micro-skills essential for successful mentoring. The participants left the workshop with a better understanding of the importance of mentoring and the skills required for successful mentoring. Overall, the workshop was a great success, and the participants appreciated Dr. Bhooma Krishna's insights and expertise.
