PART A - PROGRAM REGULATIONS

1. Vision & Mission of the University and the School / Department

1.1 Vision of the University

To be a Value-driven Global University, excelling beyond peers and creating professionals of integrity and character, having concern and care for society.

1.2 Mission of the University

- Commit to be an innovative and inclusive institution by seeking excellence in teaching, research and knowledge-transfer.
- Pursue Research and Development and its dissemination to the community, at large.
- Create, sustain and apply learning in an interdisciplinary environment with consideration for ethical, ecological and economic aspects of nation building.
- Provide knowledge-based technological support and services to the industry in its growth and development.
- To impart globally-applicable skill-sets to students through flexible course offerings and support industry's requirement and inculcate a spirit of new-venture creation.

1.3. Vision Statement of Presidency School of Commerce and Economics

To become a value-based, business-based Commerce and Economics School dedicated to creating a positive impact on commerce, the economy and society.

1.4 Mission Statement of Presidency School of Commerce and Economics

- Equip students with the knowledge, skills, and abilities to succeed in the world of commerce.
- Empower students to make proactive decisions in the face of economic and business-related challenges.
- Sensitize students to embrace lifelong learning in a technology-enabled environment.
- Foster strategic alliances with industry and academia for research and its practical application.
- Instil entrepreneurial and leadership skills to address social, environmental and community needs.

2. Preamble to the Program Regulations and Curriculum

This is the subset of Academic Regulations, and it is to be followed as a requirement for the award of BBA (Business Analytics) degree.

The Curriculum is designed to take into the factors listed in the Choice Based Credit System (CBCS) with focus on Internship, Dissertation and Social Immersion project to enable the students to become eligible and fully equipped for employment in industries, choose higher studies or entrepreneurship.

In exercise of the powers conferred by and in discharge of duties assigned under the relevant provision(s) of the Act, Statutes and Academic Regulations of the University, the Academic Council hereby makes the following Regulations.

3. Short Title and Applicability

- a. These Regulations shall be called the Bachelor of Business Administration (Business Analytics) Degree Program Regulations and Curriculum 2024-2027.
- b. These Regulations are subject to, and pursuant to the Academic Regulations.
- c. These Regulations shall be applicable to the ongoing Bachelor of Business Administration (Business Analytics) Degree Programs of the 2024-2027 batch, and to all other Bachelor of Business Administration (Business Analytics) Degree Programs which may be introduced in future.
- d. These Regulations shall supersede all the earlier Bachelor of Business Administration (Business Analytics) Degree Program Regulations and Curriculum, along with all the amendments thereto.
- e. These Regulations shall come into force from the Academic Year 2024-2025.

4. Definitions

In these Regulations, unless the context otherwise requires:

- a. "Academic Calendar" means the schedule of academic and miscellaneous events as approved by the Vice Chancellor;
- b. "Academic Council" means the Academic Council of the University;
- c. "Academic Regulations" means the Academic Regulations, of the University;
- d. "Academic Term" means a Semester or Summer Term;
- e. "Act" means the Presidency University Act, 2013;
- f. "AICTE" means All India Council for Technical Education;
- g. "Basket" means a group of courses bundled together based on the nature/type of the course;
- h. "BOE" means the Board of Examinations of the University;
- i. "BOG" means the Board of Governors of the University;
- j. "BOM" means the Board of Management of the University;
- k. "BOS" means the Board of Studies of a particular Department/Program of Study of the University;
- 1. "CGPA" means Cumulative Grade Point Average as defined in the Academic Regulations;
- m. "Clause" means the duly numbered Clause, with Sub-Clauses included, if any, of these Regulations;
- n. "COE" means the Controller of Examinations of the University;
- o. "Course In Charge" means the teacher/faculty member responsible for developing and organising the delivery of the Course;
- p. "Course Instructor" means the teacher/faculty member responsible for teaching and evaluation of a Course;
- q. "Course" means a specific subject usually identified by its Course-code and Course-title, with specified credits and syllabus/course-description, a set of references, taught by some teacher(s)/course-instructor(s) to a specific class (group of students) during a specific Academic Term;
- r. "Curriculum Structure" means the Curriculum governing a specific Degree Program offered by the University, and, includes the set of Baskets of Courses along with minimum credit requirements to be earned under each basket for a degree/degree with specialization/minor/honours in addition to the relevant details of the Courses and Course catalogues (which describes the Course

content and other important information about the Course). Any specific requirements for a particular program may be brought into the Curriculum structure of the specific program and relevant approvals should be taken from the BOS and Academic Council at that time.

- s. "DAC" means the Departmental Academic Committee of a concerned Department/Program of Study of the University;
- t. "Dean" means the Dean / Director of the concerned School;
- u. "Degree Program" includes all Degree Programs;
- v. "Department" means the Department offering the degree Program(s) / Course(s) / School offering the concerned Degree Programs / other Administrative Offices;
- w. "Discipline" means specialization or branch of BBA Degree Program;
- *x.* "HOD" means the Head of the concerned Department;
- y. "L-T-P-C" means Lecture-Tutorial-Practical-Credit refers to the teaching learning periods and the credit associated;
- z. "MOOC" means Massive Open Online Courses;
- aa. "MOU" means the Memorandum of Understanding;
- bb. "NPTEL" means National Program on Technology Enhanced Learning;
- cc. "Parent Department" means the department that offers the Degree Program that a student undergoes;
- dd. "Program Head" means the administrative head of a particular Degree Program/s;
- ee. "Program Regulations" means the Bachelor of Business Administration (Business Analytics) Degree Program Regulations and Curriculum, 2024-2027;
- ff. "Program" means the Bachelor of Business Administration (Business Analytics.) Degree Program;
- gg. "PSOC&E" means the Presidency School of Commerce and Economics;
- hh. "Registrar" means the Registrar of the University;
- ii. "School" means a constituent institution of the University established for monitoring, supervising and guiding, teaching, training and research activities in broadly related fields of studies;
- jj. "Section" means the duly numbered Section, with Clauses included in that Section, of these Regulations;
- kk. "SGPA" means the Semester Grade Point Average as defined in the Academic Regulations;

- *Il.* "Statutes" means the Statutes of Presidency University;
- mm. "Sub-Clause" means the duly numbered Sub-Clause of these Program Regulations;
- nn. "Summer Term" means an additional Academic Term conducted during the summer break (typically in June-July) for a duration of about eight (08) calendar weeks, with a minimum of thirty (30) University teaching days;
- oo. "SWAYAM" means Study Webs of Active Learning for Young Aspiring Minds.
- pp. "UGC" means University Grants Commission;
- qq. "University" means Presidency University, Bengaluru; and
- rr. "Vice Chancellor" means the Vice Chancellor of the University.

5. Program Description

The Bachelor of Business Administration (Business Analytics) Program Regulations and Curriculum 2024-2027 are subject to, and, pursuant to the Academic Regulations. These Program Regulations shall be applicable to the ongoing Bachelor of Business Administration (Business Analytics) Degree Program, abbreviated as (BBA(Business Analytics)) of 2024-2027 offered by the Presidency School of Commerce and Economics (PSOC&E).

- 5.1 These Program Regulations shall be applicable to other similar programs, which may be introduced in future.
- 5.2 These Regulations may evolve and get amended or modified or changed through appropriate approvals from the Academic Council, from time to time, and shall be binding on all concerned.
- 5.3 The effect of periodic amendments or changes in the Program Regulations, on the students admitted in earlier years, shall be dealt with appropriately and carefully, so as to ensure that those students are not subjected to any unfair situation whatsoever, although they are required to conform to these revised Program Regulations, without any undue favour or considerations.

6. Minimum and Maximum Duration

- 6.1 Bachelor of Business Administration (Business Analytics) Degree Program is a Three-Year, Full-Time Semester based program. The minimum duration of the BBA(Business Analytics) Program is three (03) years and each year comprises of two academic Semesters (Odd and Even Semesters) and hence the duration of the BBA(Business Analytics) program is six (06) Semesters.
- 6.2 A student who for whatever reason is not able to complete the Program within the normal period or the minimum duration (number of years) prescribed for the Program, may be allowed a period of two years beyond the normal period to complete the mandatory minimum credits requirement as prescribed by the concerned Program Regulations and Curriculum. In general, the permissible maximum duration (number of years) for completion of Program is 'N' + 2 years, where 'N' stands for the normal or minimum duration (number of years) for completion of the concerned Program as prescribed by the concerned Program Regulations and Curriculum.
- 6.3 The time taken by the student to improve Grades/CGPA, and in case of temporary withdrawal/re-joining, shall be counted in the permissible maximum duration for completion of a Program.
- 6.4 In exceptional circumstances, such as temporary withdrawal for medical exigencies, where there is a prolonged hospitalization and/or treatment, as certified through hospital/medical records, female students requiring extended maternity break (certified by registered medical practitioner), and, outstanding sportspersons representing the University/State/India requiring extended time to participate in National/International sports events, a further extension of one (01) year may be granted on the approval of the Academic Council.
- 6.5 The enrolment of the student who fails to complete the mandatory requirements for the award of the concerned Degree in the prescribed maximum duration (Sub-Clauses 18.1 and 18.2 of Academic Regulations), shall stand terminated and no Degree shall be awarded.

7 Programme Educational Objectives (PEO)

After three years of successful completion of the program, the graduates shall be:

- PEO1. Demonstrate innovative skills, moral ethical values as successful business administrator.
- PEO2. Engage in lifelong learning through higher studies and professional development.
- PEO3. Serve the society as creative and effective entrepreneur.

8 Programme Outcomes (PO) and Programme Specific Outcomes (PSO)

8.1 Programme Outcomes (PO)

On successful completion of the Program, the students shall be able to:

- **PO1.** Integrate functional knowledge and apply managerial skills in improving business environment.
- **PO2.** Identify various management function problems in different management functions and solve through strategic planning, critical thinking and innovation.
- **PO3.** Effectively communicate with different stakeholders.
- **PO4.** Realize and follow professional and ethical principles.
- **PO5.** Demonstrate commitment to continuous learning.
- **PO6.** Function in multidisciplinary teams.
- **PO7.** Desire to go for higher education in business administration.

8.2 Program Specific Outcomes (PSOs):

On successful completion of the BBA (Business Analytics) program from Presidency University, the student shall possess:

- **PSO-1:** An ability to apply the managerial skills in the domain of Business Analytics.
- **PSO-2:** An ability to acquire employability skills in the field of Business Analytics Industry.
- **PSO-3:** An ability to develop technical programs for Business Analytics activities.

9 Admission Criteria

The University admissions shall be open to all persons irrespective of caste, class, creed, gender or nation. The admission criteria to the BBA (Business Analytics) Program is listed in the following Sub-Clauses:

- 9.1 An applicant who has successfully completed Pre-University course or Senior Secondary School course (+2) or equivalent such as (11+1), 'A' level in Senior School Leaving Certificate Course, with a minimum aggregate of 40% marks, from a recognized university of India or outside or from a Senior Secondary Board or equivalent, constituted or recognized by the Union or by the State Government of that Country, for the purpose of issue of qualifying certificate, on successful completion of the course, may apply for and be admitted into the Program.
- 9.2 Reservation for the SC / ST and other backward classes shall be made in accordance with the directives issued by the Government of Karnataka from time to time.
- 9.3 Admissions are offered to Foreign Nationals and Indians living abroad in accordance with the rules applicable for such admission, issued from time to time, by the Government of India.
- 9.4 Candidates must fulfil the medical standards required for admission as prescribed by the University.
- 9.5 If, at any time after admission, it is found that a candidate had not in fact fulfilled all the requirements stipulated in the offer of admission, in any form whatsoever, including possible misinformation and any other falsification, the Registrar shall report the matter to the Board of Management (BOM), recommending revoking the admission of the candidate.
- 9.6 The decision of the BOM regarding the admissions is final and binding.

10. Transfer of student(s) from another recognized University to the 2nd year (3rd Semester) of the BBA (Business Analytics) Program of the University

A student who has completed the 1st Year (i.e., passed in all the Courses / Subjects prescribed for the 1st Year) of the BBA (Business Analytics) Three-Year Degree Program from another recognized University, may be permitted to transfer to the 2nd Year (3rd Semester) of the BBA (Business Analytics) Program of the University as per the rules and guidelines prescribed in the following Sub-Clauses:

- 10.1 The student shall submit the Application for Transfer along with a non-refundable Application Fee (as prescribed by the University from time to time) to the University no later than July 10 of the concerned year for admission to the 2nd Year (3rd Semester) BBA (Business Analytics) Program commencing on August on the year concerned.
- 10.2 The student shall submit copies of the respective Marks Cards / Grade Sheets / Certificates along with the Application for Transfer.
- 10.3 The transfer may be provided on the condition that the Courses and Credits completed by the concerned student in the 1st Year of the BBA (Business Analytics) Three Degree Program from the concerned University, are declared equivalent and acceptable by the Equivalence Committee constituted by the Vice Chancellor for this purpose. Further, the Equivalence Committee may also prescribe the Courses and Credits the concerned students shall have to mandatorily complete, if admitted to the 2nd Year of the BBA(Business Analytics) Program of the University.
- 10.4 The Program allotted to the student concerned shall be the decision of the University and binding on the student.

11. Change of Program

A student admitted to a particular BBA (Business Analytics) program will normally continue studying in that Program till the completion of the program. However, the University reserves the right to provide the option for a change of Program, or not to provide the option for a change of Program at the end of 1st semester of the degree to eligible students in accordance with the rules framed by the University from time to time.

- 11.1 Normally, only those students, who have passed all the Courses prescribed for the 1st Semester of the degree Program and obtained a CGPA of not less than 6.00 at the end of the first Semester, shall be eligible for consideration of a change of program.
- 11.2 Change of Program, if provided, shall be made effective from the commencement of the 2nd Semester of the Degree Program. There shall be no provision for change of Program thereafter under any circumstances whatsoever.
- 11.3 The student(s) provided with the change of program shall fully adhere to and comply with the Program Regulations and Curriculum of the concerned Program, the Fee Policy pertaining to that Program, and, all otherrules pertaining to the changed Program existing at the time.
- 11.4 Change of program once made shall be final and binding on the student. No student shall be permitted, under any circumstances, to refuse the change of program offered.
- 11.5 The eligible student may be allowed a change in Program, strictly in order of inter se merit, subject to the conditions given below:
 - 11.5.1 The actual number of students in the second semester in any particular program to which the transfer is to be made, should not exceed the sanctioned strength by more than 5%, and,
 - 11.5.2 The actual number of students in any program from which transfer is being sought does not fall below 75% of the total sanctioned intake.
 - 11.5.3 The process of change of program shall be completed on the first five (5) days of the Registration for the 2nd Semester.

- 12 Specific Regulations regarding Assessment and Evaluation (including the Assessment Details of NTCC Courses, Weightages of Continuous Assessment and End Term Examination for various Course Categories)
 - **12.1** The academic performance evaluation of a student in a Course shall be according to the University Letter Grading System based on the class performance distribution in the Course.
 - **12.2** Academic performance evaluation of every registered student in every Course registered by the student is carried out through various components of Assessments spread across the Semester. The nature of components of Continuous Assessments and the weightage given to each component of Continuous Assessments (refer Clause 12.5 of Academic Regulations) shall be clearly defined in the Course Plan for every Course, and approved by the DAC.
 - **12.3** Format of the End-Term examination shall be specified in the Course Plan.
 - **12.4** Grading is the process of rewarding the students for their overall performance in each Course. The University follows the system of Relative Grading with statistical approach to classify the students based on the relative performance of the students registered in the concerned Course except in the following cases:
 - Non-Teaching Credit Courses (NTCC)
 - Courses with a class strength less than 30

Absolute grading method may be adopted, where necessary with prior approval of concerned DAC.

Grading shall be done at the end of the Academic Term by considering the aggregate performance of the student in all components of Assessments prescribed for the Course. Letter Grades (refer Clause Error! Reference source not found. of Academic Regulations) shall be awarded to a student based on her/his overall performance relative to the class performance distribution in the concerned Course. These Letter Grades not only indicate a qualitative assessment of the student's performance but also carry a quantitative (numeric) equivalent called the Grade Point.

12.5 Assessment Components and Weightage

Table 1: Assessment Components and Weightage for different category of Courses					
Nature of Course and Structure	Evaluation Component	Weightage			
Lecture-based Course	Continuous Assessments	50%			
L component in the L-T-P Structure is					
predominant (more than 1)	End Term Examination	50%			
(Examples: 3-0-0; 3-0-2; 2-1-0; 2-0-2, 2-0-4 etc.)					
Lab-based Course	Continuous Assessments	75%			
P component in the L-T-P Structure is predominant (Examples: 0-0-4; 1-0-4; 1-0-2; etc.)	End Term Examination (Lab Only)	25%			
Practice- based Course L component in the L-T-P Structure is 0 (Example: 0-0-2 etc.)	Continuous Assessments	100%			
Skill based Courses like Internship, Dissertation / Social Engagement and such similar Non-Teaching Credit Courses, where the pedagogy does not lend itself to a typical L-T-P structure	Guidelines for the assessment comportive types of Courses, with recommended specified in the concerned Progra Curriculum / Course Plans, as applicable	weightages, shall be m Regulations and			

The exact weightages of Evaluation Components shall be clearly specified in the concerned PRC and respective Course Plan.

Normally, for Practice/Skill based Courses, without a defined credit structure (L–T–P) [NTCC], but with assigned Credits (as defined in Clause Error! Reference source not found. of the Academic Regulations), the method of evaluation shall be based only on Continuous Assessments. The various components of Continuous Assessments, the distribution of weightage among such components, and the method of evaluation/assessment, shall be as decided and indicated in the Course Plan/PRC. The same shall be approved by the respective DAC.

12.6 Minimum Performance Criteria:

12.6.1 Theory only Course and Lab/Practice Embedded Theory Course

A student shall satisfy the following minimum performance criteria to be eligible to earn the credits towards the concerned Course:

- a. A student must obtain a minimum of 30% of the total marks/weightage assigned to the End Term Examinations in the concerned Course.
- b. The student must obtain a minimum of 40% of the AGGREGATE of the marks/weightage of the components of Continuous Assessments, Mid Term Examinations and End Term Examinations in the concerned Course.

12.6.2 Lab/Practice only Course and Project Based Courses

The student must obtain a minimum of 40% of the AGGREGATE of the marks/weightage of all assessment components in the concerned Course.

12.6.3 A student who fails to meet the minimum performance criteria listed above in a Course shall be declared as "Fail" and given "F" Grade in the concerned Course. For theory Courses, the student shall have to re-appear in the "Make-Up Examinations" as scheduled by the University in any subsequent semester, or, re-appear in

the End Term Examinations of the same Course when it is scheduled at the end of the following Semester or Summer Term, if offered. The marks obtained in the Continuous Assessments (other than the End Term Examination) shall be carried forward and be included in computing the final grade, if the student secures the minimum requirements (as per Clause 12.6.1, 12.6.2 of Academic Regulations) in the "Make-Up Examinations" of the concerned Course. Further, the student has an option to re-register for the Course and clear the same in the summer term/ subsequent semester if he/she wishes to do so, provided the Course is offered.

13 Additional clarifications - Rules and Guidelines for Transfer of Credits from MOOC, etc. - Note: These are covered in Academic Regulations

The University allows students to acquire credits from other Indian or foreign institutions and/or Massive Open Online Course (MOOC) platforms, subject to prior approval. These credits may be transferred and counted toward fulfilling the minimum credit requirements for the award of a degree. The process of transfer of credits is governed by the following rules and guidelines:

- **13.1** The transfer of credits shall be examined and recommended by the Equivalence Committee (Refer Error! Reference source not found. of Academic Regulations) and approved by the Dean Academics.
- **13.2** Students may earn credits from other Indian or foreign Universities/Institutions with which the University has an MOU, and that MOU shall have specific provisions, rules and guidelines for transfer of credits. These transferred credits shall be counted towards the minimum credit requirements for the award of the degree.
- **13.3** Students may earn credits by registering for Online Courses offered by *Study Web of Active Learning by Young and Aspiring Minds* (SWAYAM) and *National Program on Technology Enhanced Learning* (NPTEL), or other such recognized Bodies/ Universities/Institutions as approved by the concerned BOS and Academic Council from time to time. The

concerned School/Parent Department shall publish/include the approved list of Courses and the rules and guidelines governing such transfer of credits of the concerned Program from time to time. The Rules and Guidelines for the transfer of credits specifically from the Online Courses conducted by SWAYAM/ NPTEL/ other approved MOOCs are as stated in the following Sub-Clauses:

- 13.3.1 A student may complete SWAYAM/NPTEL/other approved MOOCs as mentioned in Clause 13.3 of Academic Regulations and transfer equivalent credits to partially or fully complete the mandatory credit requirements of Discipline Elective Courses and/or the mandatory credit requirements of Open Elective Courses as prescribed in the concerned Curriculum Structure. However, it is the sole responsibility of the student to complete the mandatory credit requirements of the Discipline Elective Courses and the Open Elective Courses as prescribed by the Curriculum Structure of the concerned Program.
- **13.3.2** SWAYAM/NPTEL/ other approved MOOCs as mentioned in Clause 13.3 of Academic Regulations, shall be approved by the concerned Board of Studies.
- 13.3.3 Parent Departments may release a list of SWAYAM/NPTEL/other approved MOOCs for Pre-Registration as per schedule in the Academic Calendar or through University Notification to this effect.
- 13.3.4 Students may Pre-Register for the SWAYAM/NPTEL/other approved MOOCs in the respective Departments and register for the same Courses as per the schedule announced by respective Online Course Offering body/institute/ university.
- **13.3.5** A student shall request for transfer of credits only from such approved Courses as mentioned in Sub-Clause 13.3.2 above.
- 13.3.6 SWAYAM/NPTEL/other approved MOOCs Courses are considered for transfer of credits only if the concerned student has successfully completed the SWAYAM/NPTEL/other approved MOOCs and obtained a certificate of successful/satisfactory completion.

- 13.3.7 A student who has successfully completed the approved SWAYAM/NPTEL/ other approved MOOCs and wants to avail the provision of transfer of equivalent credits, must submit the original Certificate of Completion, or such similar authorized documents to the Dean/ Director/ HOD concerned, with a written request for the transfer of the equivalent credits. On verification of the Certificates/Documents and approval by the Dean/Director/HOD concerned, the Course(s) and equivalent Credits shall be forwarded to the COE for processing of results of the concerned Academic Term.
- 13.3.8 The credit equivalence of the SWAYAM/NPTEL/other approved MOOCs are based on Course durations and/or as recommended by the Course offering body/institute/university. The Credit Equivalence mapped to SWAYAM/ NPTEL approved Courses based on Course durations for transfer of credits is summarised in Table shown below. The Grade will be calculated from the marks received by the Absolute Grading Table Error! Reference source not found. of Academic Regulations.

	Table 2: Durations and Credit Equivalence for Transfer of Credits					
from	from SWAYAM-NPTEL/ other approved MOOC Courses					
S1.	Course Duration Credit Equivalence					
No.	Course Duration	Credit Equivalence				
1	4 Weeks	1 Credit				
2	8 Weeks	2 Credits				
3	12 Weeks	3 Credits				

13.3.9 The maximum permissible number of credits that a student may request for credit transfer from MOOCs shall not exceed 20% of the mandatory minimum credit requirements specified by the concerned Program Regulations and Curriculum for the award of the concerned Degree.

- **13.3.10** The University shall not reimburse any fees/expense; a student may incur for the SWAYAM/NPTEL/other approved MOOCs.
- **13.4** The maximum number of credits that can be transferred by a student shall be limited to forty percent (40%) of the mandatory minimum credit requirements specified by the concerned Program Regulations and Curriculum for the award of the concerned Degree. However, the grades obtained in the Courses transferred from other Institutions/MOOCs, as mentioned in this Section (13.**Error! Reference source not found.**), shall not be included in the calculation of the CGPA.

14. Structure / Component with Credit Requirements Course Baskets & Minimum Basket wise Credit Requirements

The BBA (Business Analytics) Program Structure (2024-2027) has a total of 125 credits. Table 3 summarizes the type of baskets, number of courses under each basket and the associated credits that are mandatorily required for the completion of the Degree.

	Table 3: BBA (Business Analytics) 2024-2027: Summary of Mandatory Courses and Minimum Credit Contribution from various Baskets			
Sl. No.	Baskets	Credit Contribution		
1	Core Courses	63		
2	Ability Enhancement Courses (AEC)	8		
3	Skill Enhancement Courses (SEC)	7		
	a) Internship	2		
	b) Dissertation	6		
4	Value Added Courses (VAC)	6		
5	Discipline Elective Courses	24		
6	Multidisciplinary Open Electives	9

15. Minimum Total Credit Requirements of Award of Degree

A minimum of 125 credits is required to be eligible for the award of BBA(Business Analytics) degree.

16. Other Specific Requirements for Award of Degree, if any, as prescribed by the Statutory Bodies

- 16.1 The award of the Degree shall be recommended by the Board of Examinations and approved by the Academic Council and Board of Management of the University.
- 16.2 A student shall be declared to be eligible for the award of the concerned Degree if she/he:
 - a. Fulfilled the Minimum Credit Requirements and the Minimum Credits requirements under various baskets.
 - b. Secure a minimum CGPA of 4.50 in the concerned Program at the end of the Semester/Academic Term in which she/he completes all the requirements for the award of the Degree as specified in Sub-Clause a of Academic Regulations;
 - c. No dues to the University, Departments, Hostels, Library, and any other such Centres/ Departments of the University; and
 - d. No disciplinary action is pending against her/him.

18. Practical / Skill based Courses - Internships / Dissertation / Project Work

Practical / Skill based Courses like internship, dissertation, Social immersion project, and such similar courses, where the pedagogy does not lend itself to a typical L-T-P-C Structure as defined in Clause 5.1 of the Academic Regulations, are simply assigned the number of Credits based on the quantum of work / effort required to fulfil the learning objectives and outcomes prescribed for the concerned Courses. Such courses are referred to as Non-Teaching Credit Courses (NTCC). These Courses are designed to provide students with hands-on experience and skills essential for their professional development. These courses aim to equip students with abilities in problem identification, root cause analysis, problem-solving, innovation, and design thinking through industry exposure and project-based learning. The expected outcomes are first level proficiency in problem solving and design thinking skills to better equip BBA graduates for their professional careers. The method of evaluation and grading for the Practical / Skill based Courses shall be prescribed and approved by the concerned Departmental Academic Committee (refer Annexure A of the Academic Regulations). The same shall be prescribed in the Course Handout.

Internship

A student may undergo an internship for a period of 6 to 8 weeks in a company or organization during the Semester Break between 4th and 5th semester subject to the following conditions:

- **18.1.1** The Internship shall be in conducted in accordance with the Internship Policy prescribed by the School from time to time.
- 18.1.2 A student may opt for Internship in an Industry / Company/ Organization or academic / research institution of her / his choice, subject to the condition that the concerned student takes the responsibility to arrange the Internship on her / his own. Provided further, that the Industry / Company / Organization or academic / research institution offering such Internship confirms to the University that the Internship shall be conducted in accordance with the Program Regulations and Internship Policy of the School.
- **18.1.3** A student selected for an Internship in an industry / company or academic / research institution shall adhere to all the rules and guidelines prescribed in the Internship Policy of the School.
- **18.1.4** As per the Academic Regulations, 'S' grade is awarded for "satisfactory completion" of the Internship and 'NC'

grade is awarded for "non-completion" of the Internship. The student who receives the "NC" grade shall repeat the Internship, until the concerned student secures the "S" grade in the Internship . The "S" and "NC" grades is subject to fulfilling the requirements as stated in the course plan and do not carry grade points. Hence not included in the SGPA, CGPA computations.

18.2 Dissertation

Every student shall, carryout dissertation under the overall supervision of the supervisor(s) during the VI semester of the program.

- 18.2.1 The dissertation offers an opportunity to the student(s) to explore a topic in depth. The dissertation would entail an investigation, together with the written report and interpretation thereof. The dissertation could either be of an exploratory type or a prescriptive type with a focus on its applicability to management situations. It may be a case study, a study of a policy problem, a historical study, development of a new method, comparison of two or more methods, formulation and testing a hypothesis relevant to some areas of management. The dissertation can also be field/library-based study or both. Normally, only a faculty member of the school concerned shall be allowed to supervise a dissertation. If the topic of a dissertation warrants, at the most two faculty members of the same School may be allowed to supervise a dissertation/project work. Considering the interdisciplinary nature of the work involved a faculty from other School and/or from industry/corporate organization active in the area in which the work is being carried may be allowed, to be associated as a co-supervisor.
- 18.2.2 The Faculty Coordinator(s) shall, in consultation with the Dean concerned, finalize the topic for dissertation along with the name(s) of the supervisor(s) at the beginning of Semester VI. For this purpose, the Coordinator shall take into account the relevance of the topic on which the candidate proposes to work. However, the Coordinator may, ifhe considers it necessary or expedient, ask a student to carry out dissertation on a topic other than the topic proposed by the student and/or under a supervisor other than the one under whom the student proposed to carryout his/her dissertation.
- 18.2.3 Midcourse alteration/ modification in the scope of dissertation would need explicit approval from the Dean

- of the School. The Coordinator shall prepare a list comprising the names of the students, topic allotted to each of the manner of the supervisor(s) and submit it to the Dean.
- 18.2.4 A certificate in the prescribed format to the effect that the dissertation carried out by the student independently or in collaboration with other student(s) issued by the Supervisor(s) concerned and endorsed by the Faculty Coordinator concerned, shall form the part of the submission for evaluation.
- 18.2.5 Every student who spends a specified period of time in an industry/organization/institute for reasons of work related to his/her dissertation, with prior permission from the Faculty Coordinator concerned will explicitly acknowledge working in the relevant industry/organization/institute.
- 18.2.6 The dissertation should typically be between 30 to 50 pages. Students are required to submit their dissertation in the VI Semester within the specified timeframe. If a student fails to submit the dissertation by the deadline, they will be assigned a placeholder grade 'I' in cases of exceptional circumstances, such as medical emergencies or the death of an immediate family member. In all other cases, a grade of 'F' will be awarded. The student will be required to repeat the dissertation in the appropriate semester of the following academic session, provided that other regulations allow for the continuation of their studies at the University...
- 18.2.7 The student shall submit to Program Coordinator one printed soft bound copy of his/her dissertation.
- 18.2.8 An Assessment Committee constituted by the Dean / Director/ HOD of the School comprising internal and external membersshall conduct Viva-Voce on dissertation.
- 18.2.9 The Evaluation components for dissertation and the respective weightages are detailed in Table 5:

Table - 5							
Dissertation Evaluation Components and Weightage							
Evaluation Components	Weightage (of the total marks)						
Dissertation Report	50 %						
Supervisor Evaluation and	20%						
Feedback							
Viva-Voce	30 %						

18.3 Social Immersion Project

The objective of a Social Immersion Project is to sensitize and inculcate commitment to social and environmental issues and make a contribution through service and experiential learning. The outcome is to produce graduates who are sensitized and committed to serving the social and environmental needs of society. The Social Immersion Project is a 1-credit course involving 15 hours of engagement, which may be completed either in one continuous session or through periodic intervals with one or more organizations. The student is required to complete this during the 6th Semester of the Program. The nature and details of the Social Immersion Project shall be approved by the concerned Departmental Academic Committee (DAC). As per the Academic Regulations, the 'S' grade is awarded for "satisfactory completion" of the Course and 'NC' grade is awarded for "non-completion" of the Course. The student who receives the "NC" grade shall repeat the Social Immersion Project (it may be another type of Project as approved by the concerned DAC) until the concerned student secures the "S" grade in the Social Immersion Project. The "S" and "NC" grades is subject to fulfilling the requirements as stated in the course plan and do not carry grade points. Hence this is not included in the SGPA, CGPA computations.

19. List of MOOC (NPTEL) Courses

The MOOC Courses list will be announced by the school at the time of Pre-Registration for the respective Semester post approval from DAC and BOS.

Module 1	Introduction	Group discussion	Group discu	ussi	on		11 Sessions		
Meaning, Definition and Scope of Statistics; Collection of data: Primary and Secondary; Methods of collecting primary data; Classification and tabulation; Presentation of data: Graphs and diagrams -Histograms and Ogives, Pie diagram and Bar diagrams.									
Module 2	Measuresof Central TendencyGroup discussion discussion8 Sessions								
	Central Tenden ic Mean; Quarti	cy: Arithmetic N les.	Iean, Mediar	ı, M	ode,	Geome	tric Mean,		
Module 3	Measures Dispersion	of Case study analysis	Case study	ana]	lysis	3	8 Sessions		

Measures of Dispersion: Range, Quartile Deviation, Mean Deviation and Standard Deviation with coefficients, Coefficients of Variation. Skewness: Bowley's and Karl Pearson's method

Modul	Measures	of	Case	Case study analysis	8
e 4	Association	and	study		Sessions
	Regression		analysis		

Correlation: Meaning, Karl Pearson's coefficient of correlation (raw data only), Spearman's Rank Correlation; Regression and Estimation

Module 5	Index Numbers	Case	Case study analysis	8
		study		Sessions
		analysis		

Index Numbers: Meaning, Uses, Steps involved in Computing Index Numbers; Methods: Simple, Weighted: Laspeyre's Index Number, Paasche's Index Number, Fisher's Ideal Index Number including Time Reversal Test (TRT) and Factor Reversal Test (FRT); Consumer Price Index under family budget method

DELIVERY PROCEDURE (PEDAGOGY):

Lecture and Solving Numerical Problems- All Modules 1,2,3,4 & 5

Participative learning: All Modules 1,2,3,4 & 5

Self-learning: Module-1

Assignment 1: Tabular and Graphical reporting of the primary data (Collected by primary survey on any topic – by student groups)

Assignment 2: Assignment 2: Write a report of the any Swayam & NPTEL Video Lecture Sessions watched (links given below)

Presentation 1: Descriptive statistical analysis of secondary data (secondary data collected from the report of any firm/industry/institution by each student)

Course Code: BBB3022	Course Title: Application of Business Analytics L- T- P- C
Version No.	1.0
Course Pre-requisites	 Knowledge proficiency in excel to develop graphs Understanding the basic concepts of descriptive statistics Awareness on about story telling through data Knowledge on Essentials of Business Analytics
Anti- requisites	
Course Description	Business Analytics is a combination of concepts relating to Data Analytics and Business Intelligence. Business Analytics is the science of analyzing data to find out patterns that will be helpful in developing strategies. The course is designed in such a way that it provides the candidates with holistic training to understand, study, extract, analyze, manipulate, and comprehend data to make conclusions and achieve specified data goals with the help of different software or specialized systems. The course emphasizes that business analytics is not a theoretical discipline: these techniques are only interesting and important to the extent that they can be used to provide real insights and improve the speed, reliability, and quality of decisions. The concepts learned in this class should help you identify opportunities in which business analytics can be used to improve performance and support important decisions.
Course Out Comes	CO 1: Illustrate data management to execute descriptive analytics (Application) CO 2: Compute various data visualization methods used in business practices. (Application) CO 3: Predict business trends based on predictive analytics used
	in business decision making. (Application) CO 4: Illustrate the business stakeholders to optimize and achieve business objectives using data (Application) CO 5: Construct the methodology for data processing, results generation, interpretation and presentation. (Application)

Course	The objective of the course is to familiarize the learners with the				
Objective	concepts of Application of Business Analytics and attain Skill				
	Development through	gh <mark>Experiential Lea</mark>	arning technique	S.	
Course					
Content:					
Module 1	DESCRIPTIVE			12	
	ANALYTICS			Sessions	

Data Management, Big Data Management, Sources of data, Importance of data quality - Pivot Table - Organizing and dealing with missing or incomplete data, Data Cleaning, coding and Manipulation, Data Classification - Data consolidation with time series data.

Modulo	DATA		12
Module 2	VISUALIZATION		Sessions
		 11	

Data Visualization-Definition, Visualization Techniques – Tables, Cross Tabulations, charts, Data Dashboards using Ms-Excel and Tableau.

Module 3 PREDICTIVE 10 sessions

Quality Predictions - Health Care Analytics; Quality Predictions - Financial Analytics; Predictions and skill Versus luck - Sports Analytics

Module 4	PRESCRIPTIVE		10
	ANALYTICS		sessions

Testing – Retail Analytics; Simulating the future – Stock Pricing; Optimizing Complex Decisions – Salesforce analytics; Optimizing with multiple objectives – Portfolio Analytics.

Module 5	RESULTS		10
	GENERATION		sessions
	AND		
	PRESENTATION		

Choosing appropriate tools and techniques - Results generation - Interpretation of Results - Presentation - Decision Support Systems from concept to deployment.

Targeted Application & Tools that can be used: The course uses a variety of sessions and work methods so that students can acquire the knowledge outlined in the program. The sessions are divided into lecture and discussion methods. Classroom discussion on all the topics will be primarily through academic writing. Class presentations and class participation will make lectures more interactive. Course objectives and the evaluation process also motivates the methodology adopted. Students are expected to read the circulated material and cases before the topic is discussed in the classroom.

Teaching Pedagogy:

The course uses a variety of sessions and work methods so that students can acquire the knowledge outlined in the program. The sessions are divided into lecture and discussion methods. Classroom discussion on all the topics will be primarily through academic writing. Class presentations and class participation will make lectures more interactive. Course objectives and the evaluation process also motivates the methodology adopted. Students are expected to read the circulated material and cases before the topic is discussed in the classroom.

Teaching and Learning Methods: Lecture, Discussion, Focus Groups, Socratic, Inquiry Based, Cooperative, Demonstration, Hands on Training Sessions, Laboratory Practicals and Self Learning.

Evaluation Methods: Open Book Tests, Assignments, Peer Evaluation, Closed Book Examination.

Teaching and learning aides: Students should have access to the following resources

Necessary - Laptop with MS excel installed Data Analysis tool, Statistical Software, R-Studio, Tableau

Additional Resources - IBM SPSS

E resources:.

Content in this section should be mentioned as per the program grid.

Topics relevant to development of "ENTREPRENEURSHIP SKILLS": Students shall be able to start their own business in rural India.

Topics relevant to development of "EMPLOYABILITY SKILL": Students shall be able to understand the pulse of rural customer and match their need accordingly.

Course Code: BBA2041	Course Title: Research L-Methodology T-Type of Course: Major Core P-C	3	0	0	3		
Version No.	1.0						
Course Pre-	 Knowledge of research 						
requisites	Basic Concepts of Statistics and N	Mathe	ematics				
Anti-requisites	Nil						
Course Description	the importance of research in creati knowledge base of one's subject area to	COURSE DESCRIPTION: Introduction to research provides the importance of research in creating and extending the knowledge base of one's subject area to distinguish between the strengths and limitations of different research approaches regarding one's subject/research area.					
Course Out Comes	On successful completion of the course to:	he stu	udents sh	all be	able		
	CO1: Explain the research process. (UN	DER	STAND)				
	CO2: Differentiate between (UNDERSTAND)	rese	earch	varia	ables		
	CO3: Summarize Scaling Techniques (U	INDE	ERSTANI	D)			
	CO4: Differentiate between sampling a (UNDERSTAND)	CO4: Differentiate between sampling and non-sampling errors (UNDERSTAND)					
	CO5: Determine the relationship between	en vai	riables (A	PPLY	()		
	CO6: Examine the steps involved in drafting a research report (APPLY)						
Course Objective	This course is designed for SKILL I learner by using Experiential Learnin Presentation and Case Study.		_	_			
Course Content:							
Module 1	Introduction to research		11 Se	ssion	s		
Research: Meaning, Objectives, Types, Approaches- Qualitative and Quantitative, Significance, Research Process, Criteria of good research; Challenges faced by Researchers.							
Research problem	, selecting the problem.						
Module 2	Research design and scaling		10 Se	ssion	s		

Research Design: Meaning, need, features. Dependent variables, independent variables, moderator variables, mediating variables, extraneous variables, categorical variables.

Classification of measurement scales: nominal, ordinal, interval and ratio scales; Goodness of measurement scales: validity, reliability, practicality and accuracy; Sources of error in measurement. Scaling techniques.

Module 3	Data	Collection	and		10 Sessions
Module 5	Samplir	ıg			10 Sessions

Sources of data- primary and secondary data, methods of primary data collection, sources of secondary data.

Sampling design, sample size, determining optimal sample size, sampling techniques, probability Vs. non-probability sampling methods, sampling and non-sampling errors.

Module 4	Questionnaire Designing	10 Sessions
Wioduic 4	and Data Analysis	10 Sessions

Questionnaire, Types of questionnaires, Questionnaire design procedure, type of questions: open-ended, closed ended; criteria for designing questions; questionnaire structure. Questionnaire Vs. Schedule. Pilot testing, administering.

Data Analysis: Univariate Analysis: Mean Comparisons, t-test and One-way ANOVA; Bi-variate analysis: Cross tabulations, Chi-square test, correlation and regression.

Module 5	Research	Reporting	and		10 Sessions
	Modern	Practices	in		
	Research				

Research Report Writing: Importance, Essentials, Structure/ layout, Types. References and Citation Methods: APA (American Psychological Association), CMS (Chicago Manual Style), MLA (Modern Language Association), Footnotes and Bibliography. Modern Practices: Ethical Norms in Research, Plagiarism, Role of Computers in Research.

Lecture: All Modules

Discussion: All Modules

Self-learning: Philosophy of Social Science Research

Assignments: Case study: Implication of Qualitative Research Methods https://presiuniv.knimbus.com/user#/viewDetail?searchResultType=ECATALOGUE_BASED&unique_id=DOAB_1_06082022_20245

Course Code:	Course Title: Predictive L-T-P-C 2					
BBB3031	Analytics 0 2 3					
Version No.	1.0					
Course Pre-	Basic Communication					
requisites	General Knowledge about Descriptive Analytics					
Anti-	Nil					
requisites						
Course	COURSE DESCRIPTION: Predictive Analytics subject is					
Description	conceptual in nature. The students will be benefited in this course					
	to know about modern data analytic concepts and develop the					
	skills for analysing and synthesizing data sets for decision making					
	in the firms.					
Course	The objective of the course is to familiarize the learners with the					
Objective	concepts of Predictive Analytics and attain Skill Development					
	through Experiential Learning techniques.					
Course Out	On successful completion of the course the students shall be able					
Comes	to:					
	CO 1. Define the material of the latest the control of the latest t					
	CO 1: Define the nature of analytics and its applications					
	(Knowledge)					
	CO 2: Discuss the concepts of predictive analytics and data mining					
	(Comprehension)					
	CO 3: Describe the analytical tools in business scenarios to achieve					
	competitive advantage (Application)					
	CO 4: Explain the real-world data insights in decision trees and					
	time series analysis methods in dynamic business environment					
	(Application)					
	CO 5: Outline the importance of big data in predictive analytics					
	(Comprehension)					
Course						
Content:						
Module 1	Introductio n to 12 Sessions					

	Predictive			
	Analytics			
Analytics- Def	inition, impor	tance, Analy	tics in decis	ion making, Applications,
Challenges, Ex	perts percepti	ion on analyt	ics; Populari	ty in Analytics; Predictive
analytics in bus	siness Scenario	s- case studie	3	
dule 2	Predictive Analytics & Data Mining			12 Sessions
Predictive Ana	lytics- Definiti	on, Importan	ce and applic	cation; Predictive Analytics
- Marketing, H	ealth care & ot	her industries	; Skills and re	oles in Predictive Analytics;
O				ions, kinds of pattern data
mining can disc		O		•
Module 3	Data, Methods & Algorithms for Predictive Analytics			11 Sessions
Nature: Pre-pr		l ata for analyt	ice: Data M	ining methods; Prediction;
=	_	-		ans clustering, Association;
			-	e Bays, nearest neighbour;
	•	- 0		S method, Multiple linear
_	=	-		res (OLS) method - Auto
_		•	=	ies (OLS) metriou - Auto
correlation, He	teroscedasticit	y , municomm	earity	
Module 4	Business Forecasting & Decisions Trees			10 Sessions
Business Foreca	asting; Time Se	eries Data and	Time Series <i>A</i>	Analysis-based Forecasting,
Forecasting Ac	curacy, Auto-r	egressive and	Moving ave	rage model; Decision Trees
: Introduction t	o decision tree	es; Analysis – 1	unstructured	data
Module 5	Big Data in Predictive Analytics			10 Sessions
	ies; Big data &		~	olems in data analytics; Big iews on analytics;

Data preparation, cleaning, and exploratory analysis using data visualization and descriptive statistics; applications of multiple regression for numeric prediction

Targeted Application & Tools that can be used: Statistical tools, documentary review, case analysis and Simulation help students to understand the data driven decisions for firms

Project work/Assignment: Mention the Type of Project/Assignment proposed for this course:

Project: By developing the questionnaire for specific objective of the brands, primary data collection and do the sales forecasting by using predictive analysis using SPSS software and develop report on data storytelling from the data analysis.

Assignment: 1. Review the article on Organisational capabilities in PA using PU link https://www-emerald-com-

presiuniv.knimbus.com/insight/content/doi/10.1108/MD-03-2018-0324/full/html

2. Develop a podcast of 5 mins of each group discussions on Darkside of data mining. Each group consist of 5 members in the team

Lecture: All Modules

Case study: Module 2 & 3: Introduction to Predictive analytics, Predictive analytics in HR

Discussion: Module 2: Industry case, Predictive Analytics employee attrition case

Documentary Review : Module 1 & 2: The Great Hack, AI coded Bias

Self-learning: Module 1: Applications of analytics

Presentation: Module 1,2,5: Application of analytics, Darkside of data mining, Challenges and problems in data analytics

Simulation: A/B testing

External Environment Analysis : PESTLE Analysis, Environmental Threat and Opportunity Profile (ETOP); SWOT Analysis

Module 3 Levels of Strategies 11 Sessions

Topics: Corporate-Level Strategy: Balanced Score Card: A Balanced Approach, Grand Strategies: Strategic Alternatives, Growth/Expansion Strategy, Diversification Strategy, Stability Strategy, Retrenchment Strategy, Turnaround Strategies, Merger Strategies- Vertical, Horizontal, Integration, Outsourcing Strategies- Alliances & Partnerships.

Business Level Strategy: Competitive Advantage-Factors, Core Competence, Low Cost Strategies, Differentiation Strategies, Focus Strategies

Functional Level Strategy: Structural Design & Strategy Gap.

Module 4	Strategy		11 Sessions
Wiodule 4	Implementation		11 368810118

Topics: Strategy Implementation, Strategy-Structure Relationship, Divisionalisation: Product and Geographic Forms, Diversification, Strategic Business Units (SBUs), Project Organization, Matrix Organization Structure, New Design Options, Factors Influencing Organisation Structure, Structure and Strategy Implementation, Issues

Module 5	Strategy Evaluation & Control			11 Sessions
----------	-------------------------------	--	--	-------------

Topics: Evaluation of strategy and strategic control, criteria, process, strategic control process, and types of external controls

Targeted Application

https://nptel.ac.in/courses/110/108/110108047/

https://puniversity.informaticsglobal.com/login

Tools that can be used: ERP, Alison.com (online Course)

Project work/Assignment:

• Self-learning:

Topics: Porter's 5 Forces , Mckinsey's model, Pestel & Swot Analysis, Factors Influencing Organization Structure

• Participative learning:

Topics: Strategic Management - Process, Vision, Mission, Objectives and Business Definition. (assignment submission)

• Experiential/Project Based Learning:

Topics: Strategic Plan (Achieved through Group Project)

• Flip Class:

Topics: Product and Geographic Forms, Diversification, Strategic Business Units (SBUs), Project Organisation, Matrix Organization Structure

• Problem Based Learning:

Topics: case study for analyzing the strategic issues and solving it.

	Managers		T			
Version No.	1.0				'	
Course Pre-	1. Basics concepts	of accounting				
requisites	2. Basic Mathemat	tics calculation	ns.			
Anti-requisites	NIL					
Course	The course offers bala	O		-		
Description	and computation of					-
	Individuals which h	-			erstand	l the
	importance of Tax mar	nagement and	Planning	5.		
Course Out	On successful complet	ion of this cou	rse the st	udents	shall b	e
Comes	able to:					
	1. Describe the basics of	of Indian Inco	ne Tax Sy	stem.		
	(Knowledge)					
	2. Discuss the different	: Components	of Salary	. (Com	prehen	sion)
	3. Discuss the diff	ferent Compo	onents of	f hous	e Prop	perty.
	(Comprehension)					
	4. Explain the computation of Business Income					
	(Comprehension)					
	5. Explain the co	mputation o	of Total	taxal	ole in	come
	(Comprehension)					

Course	The objective of the course is to familiarize the learners with the				
Objectives	concepts of Income Tax for Managers and attain Skill				
	Development through Problem Solving Methodologies.				
Course					
Content:					
Madula 1	Introduction to				
Module 1	Income Tax.				

Income Tax: Brief History - Legal Frame Work - Types of Taxes - Cannons of Taxation - Important Definitions - Assessment - Assessment Year - Previous Year - Exceptions to the general rule of Previous Year - Assessee - Person - Income - Casual Income - Gross Total Income - Agricultural Income.

Residential Status: Residential Status of an Individual – Resident – Not Ordinarily Resident – Non-resident – Determination of Residential Status – Incidence of Tax – Problems on Scope of Total Income.

Exempted Incomes: Introduction – Exempted Incomes U/S 10 (Restricted to Individual Assessee) – Only theory

Module 2	INCOME FROM		
Module 2	SALARY		

Meaning – Basis of Charge – Advance Salary – Arrears of Salary - Definitions – Salary Allowances – Fully Taxable Allowances – Partly Taxable Allowances – Fully Exempted Allowances – Perquisites – Tax Free Perquisites – Taxable Perquisites – Perquisites Taxable in all Cases – Perquisites Taxable in Specified Cases – Profits in Lieu of Salary – Provident Fund – Transferred Balance – Deductions from Salary U/S 16 – Problems on Income from Salary (excluding retirement benefits).

	INCOME FROM		
Module 3	HOUSE		
	PROPERTY		

Basis of Charge - Deemed Owners - Exempted Incomes from House Property - Treatment of Composite Rent - Annual Value - Determination of Annual Value - Treatment of Unrealized Rent - Loss due to Vacancy - Deductions from Annual Value - Problems on Income from House Property (Excluding Pre-Construction interest)

	PROFITS AND		
Module 4	GAINS FROM		
Wiodule 4	BUSINESS AND		
	PROFESSION		

Meaning and Definition of Business, Profession – Expenses Expressly Allowed – Allowable Losses – Expenses Expressly Disallowed – Expenses Allowed on Payment Basis - Problems on Business relating to Sole Trader only and Problems on Profession relating to Chartered Accountant, Advocate and Doctor

Module 5	COMPUTATATI ON OF TOTAL INCOME	Case Study	Data Collection on Various Rental Aspects.	08 Classes
----------	--------------------------------------	------------	--	------------

Income from Capital Gains, Other Sources (Theory only) and Deductions U/S 80C, D, E, G. Simple problems on Computation of Total income of an Individual.

Targeted Application & Tools that can be used:

- Advanced Excel.
- Central Government E filing portal.

Project work/Assignment:

- 1. Preparation of List of Exempted incomes under Income Tax Act 1961.
- 2. Computation of Income from Salaries.
- 3. Computation of Income from House property.

	CO5: Compute the data from descriptive analytics to address the					
	queries of vario	ous domains (A	application)			
Course						
Content:	Introduction					
Module 1	to Data			12 Sessions		
	Visualization					
				s Tableau is a BI tool -		
	sualization and analysis; Tableau flavors- Tableau Reader- Tableau Public - bleau Server (on premise) - Tableau Online (tableau cloud solution)-Tableau					
1	` 1		`	data sources- Lesser		
	visualization an		11116 10 20	add bources Eesser		
	Exploring					
Module 2	basic			12 Sessions		
	Tableau					

Creating Workbook- Playing around with tableau - Connecting to an existing Excel workbook.

Check the excel tabs- Connecting to various data sources in Tableau; Live vs extract; Concept of joins (Same data source v/s different data source)- Create Tabular report- Explore the concept of Dashboards

Module 3	Creating		11 sessions
Widule 3	basic reports		11 565510115

Connect to data sources - Ex. MS Excel, SQL server; Live / Extracts data - Drag and drop function - Tabular v/graphs-Marks' section; Changing metadata (rename columns, create Hierarchy, create folders, change aggregation, calculated columns etc.); Tableau Extracts- Publishing your extracts - Report creation with published data source.

Module 4	Distribution Charts and Blending		10 Sessions
	Data		

Connecting to Excel/ SQL Server-data sources and connections (Left join, right join, Full Join etc.); Basic Tabular reports and graphs-Basic Calculations; Building Distributions -Stacked bar chart; Visual Design – colour - labels; Blending data – Unions; Data interpreter basics- massage data-split data

Data			0 1		
Module 5 Visualization using 10 Sessions Maps application	Module 5	Visualization Ising Tableau Maps		1	10 Sessions

Tableau Maps – Storing Map Information - Latitude and longitudes- geospatial data- combination of Cities - States, Country- postal codes; Geographic Data Types to plot - Marks & Shapes- Map Layering- Search and Zoom- Custom geocode; Advance Data Visualizations-Preparing Dashboard- Storytelling - Descriptive analytics

Targeted Application & Tools that can be used: Data visualization tools and dashboards help students to understand the data driven decisions for firms

Project work/Assignment: Mention the Type of Project/Assignment proposed for this course:

Project: Develop the dashboard of Marketing and HR related data and narrate the story telling to create a case let

Assignment: 1. Review the article on Organisational capabilities in PA using PU link https://www-emerald-com-

presiuniv.knimbus.com/insight/content/doi/10.1108/MD-07-2018-0835/full/html

Lecture & Practical session: All Modules

Self-learning: Module 1: Data visualisation concepts

Presentation: Module 2 & 4: Article Review and creating dasboards

Course Course Outcomes	This course utilizes an experiential learning approach for gaining enhanced knowledge about the HR process and how to align as per the organizational goals and strategies. The course utilizes an experiential learning approach to know about the foundation of strategic human resource management. It will help to understand strategic human resource management from global context as well as from change context. It includes topic related to strategic human resource development, talent management, employee engagement, new forms of strategic management. On completion of this course, the student will be able to: Describe the importance of strategic human resource management for competitive advantage (Knowledge)						
	Discuss the HR processes like talent management, human resource development from the perspective of strategic human resource management. [Comprehension] Explain how HR strategies are used to achieve organization goals [Comprehension] Discuss memorable strategies used in HR processes. [Comprehension]						
Course	The objective of the course is to fa						
Objective:	concepts of Strategic Human Reso Employability through Participat					ıttain	
Module 1	Introduction to strategic human resource management				10 Ses	sions	
Topics: Meaning of strategic human resource management. Different approaches of strategic human resource management. Development of strategic human resource management. Significance of strategic HR policies.							
Module 2	Human resource strategy				10 Ses	sions	

Topics: Meaning of human resource strategy. Human resource strategy: content issues, Human resource strategy: process issues. Implementing issues related to HR strategy. The power and politics in organization, Challenges of the HR professional.

	SHRM and	10
Module 3	competitive	Sessions
	advantage	Sessions

Strategy, strategic management and competitive advantage. The classical versus alternative perspectives on strategy, Linking HRM to organisational strategy, Approaches to strategic alignment

Strategic options and HR decisions - Downsizing and restructuring - Domestic and International labour market - Mergers and Acquisitions - Outsourcing and off shoring

Module 4	Global		10
	SHRM		Sessions

Strategic Responses of Organisations to Changing Environment – Portfolio process and structure related strategic responses, Strategic HR, Globalisation. The drivers of globalisation. Globalisation and SHRM. Changing character of the workforce. Changing nature of the work. Workplace flexibility. Change in management practices.

Targeted Application & Tools that can be used:

Research Paper, Case Study, Data Analysis,

Project work/Assignment:

Project/ Assignment:

Assignment: 1] Refer to the research paper assigned from the PU library and analyse the critical factors responsible for the issues mentioned in the paper. (Kindly note: Student should visit PU library and access the online resources for the same and incorporate the assignment as well as attach the photo of log in and log out in person in the end of the assignment file.)

Assignment: 2] Review HBR Article bringing out and analysing the core principles around which the article revolves. Respond to the questions cited at the end of case study.

Experiential Learning Activity: Demonstrate learning by holding a live event focused on giving experiences to people.

Course Pre-	Basic knowledge of Business Analytics							
requisites	Understanding about foundation concepts of Human resources Knowledge about MS excel Subjective knowledge of HR analytics							
Anti-	Nil	owieuge of rik alialyt	ics					
requisites	NII							
Course	This course pr	ovides an insight tow	zarde havi	no ar	anal	vtical		
Description	This course provides an insight towards having an analytical perspective knowledge, skills, and competencies to address human capital. It introduces the central concepts of people orientated analytics and via hands-on exercises, builds skills and competencies around the management, analysis and representation of data. The subject explores how analytics helps managers to address both tactical and strategic level human capital issues.							
Course	The objective	of the course is to far	niliarize t	he le	arner	s with	n the	
objective	concepts of	HR Analytics	and atta	ain	Emp	loyab	<mark>ility</mark>	
	through Partic	cipative Learning tec	<mark>hniques.</mark>					
Course Out Comes	CO1: Discuss the foundations of analytics and its relatedness with HR process (Knowledge) CO2: Demonstrate HR analytics and visualization using MS excel (Comprehension) CO3: Demonstrate predictive and prescriptive analytics (Application) CO4: Interpret the data to draw inferences for decision making in Human resources (Application)							
Course Content:								
	Introduction					10		
Module 1	to business						sions	
	analytics							
Topics: Business analytics, Meaning and scope, understanding business analytics, History and growth of business analytics, advantages and challenges, Application of analytics in different domains of management, levels of Business analytics.HR analytics – evolution, scope, application and challenges, Ethics in HR analytics, future of HR analytics. HR metrics – types, application and exercises – HR planning, Training and development, Staffing, Payroll, Performance Appraisal								
Module 2	Descriptive analytics in HR					10 Sess	sions	

Topics: Key excel functions – VLOOKUP, INDEX, SUMIF, AVERAGEIF, COUNTIF, etc. Creation of HR dashboards, story boarding. Pivot table, charts and tables, slicers.

Module 3 Predictive and prescriptive analytics in	10 Sessions

HR data visualization – Data mapping, Scatter chart, bar charts, data merging and blending, use of Big data in data visualization

	Advanced		10
Module 4	HR analytics		Sessions

Correlation analysis, regression analysis, Multiple regression analysis Paired Ttest, Factor analysis, HR modelling, decision tree, learning curve, sensitivity analysis, Cluster analysis (VOS viewer)

Targeted Application & Tools that can be used: Data analysis using MS Excel, SPSS

Project work/Assignment:

Assignment I : interact with people from industry to understand the benefits and challenges of using HR analytics . write a report based on research reviews of HR analytics – Refer E resources.

Experiential learning : Solve problems of HR metrics using MS Excel, PSPP, SPSS, Power Bi

Teaching Pedagogy:

The course uses a variety of sessions and work methods so that students can acquire the knowledge outlined in the program. The sessions are divided into lecture and discussion methods. Classroom discussion on all the topics will be primarily through academic writing. Class presentations and class participation will make lectures more interactive. Course objectives and the evaluation process also motivates the methodology adopted. Students are expected to read the circulated material and cases before the topic is discussed in the classroom.

Teaching and Learning Methods: Lecture, Discussion, Focus Groups, Socratic, Inquiry Based, Cooperative, Demonstration, Hands on Training Sessions, Laboratory Practicals and Self Learning.

Evaluation Methods: Open Book Tests, Assignments, Peer Evaluation, Closed Book Examination.

Targeted Application and Tools: IBM SPSS, Tableau.

Course	Course Title: Business Valuation					
Code: BBA3003		L-T-P- C	3	0	3	
Version No.	1.0	I				
Course Pre- requisites	Studying business valuation typically requires a foundational understanding of various disciplines related to finance, accounting, economics, and business.					
Anti- requisites	Capital Budgeting Techniques					
Course	This course is intended to familia	rize the	stude	ents with	business	
Description	valuation concepts. A business valuation provides the management					
	of business with numerous facts and	d figures	perta	ining to	the actual	
	worth or value of the company in te	rms of m	arket	competi	tion, asset	
	values and income values. The key benefits of business valuation					
	are: Better Knowledge of Company Assets; Understanding of					
	Company Resale Value; Assistance during Merger & Acquisitions;					
	Obtain a True Company Value and Access to More Investors. With					
	the surge in business activities, valuations have occupied the centre					
	stage. Whether it is a start-up or a big corporate house, valuations is					
	pervasive. Right from the setting up of the business entity, during					
	its merger and acquisitions, for ob-	otaining l	long-	term fina	ance from	
	banks / financial institutions, wir	nding-up	and	for vari	ous other	
	business purposes, valuation is an	integral (comp	onent. T	he subject	
	provides the students with know	vledge o	of nu	merous	facts and	
	figures pertaining to the actual wo				- ,	
	terms of market competition, asset	values a	and ir	ncome va	alues. The	
	key benefits of business valuati				Ü	
	Company Assets; understanding	of Co	mpar	ny Resa	le Value;	
	Assistance during Merger & Acqui		obtair	a True	Company	
	Value and Access to More Investors	S.				

Course Out	On successful completion of the course, the student shall be able				
Comes	to				
	 Explain situations where valuation is crucial, such as mergers, acquisitions, financial reporting, and investment decisions Describe M&A transactions, including due diligence, valuation, and integration strategies. Apply the knowledge of relative valuation to benchmark and assess a business's value in relation to peers. Examine the results and understanding the implications of various valuation approaches on the overall assessment. 				
Course Objective:	This course is designed to develop a reservoir of knowledge on valuation which can assist the student in undertaking valuation assignments under Companies Act, 2013 including for mergers and Acquisitions based on valuation model understanding.

Course Pre-	Basic Communication						
requisites	Basic knowledge in MS-Excel						
	Familiarity with graphs and charts						
	General Knowledge in business projects and stock market.						
Anti- requisites	Nil						
Course	COURSE DESCRIPTION: This course is intended to provide a						
Description	nuanced understanding of Excel's capabilities and the theories						
	shaping financial models, this course offers profound insights into						
	corporate decision-making, project selections by business firms,						
	and the investment choices made by individuals.						
Course Out	CO1: Describe financial modelling concepts, characteristics, and						
Comes	goals for creating effective models. (Understand)						
	CO2: Interpret financial statements, recognizing the importance of financial statements in evaluating a company's financial well-being. (Apply)						
	CO3: Examine businesses via ratios, reports, and valuation, showcasing financial analysis in decisions. (Analyse)						
	CO4: Apply Excel for modelling, using formatting, formulas, and advanced techniques to make practical financial models from theory. (Apply)						
Course objective	The objective of the course is to familiarize the learners with the concepts of Financial Modelling and attain Employability through Problem Solving techniques.						

Course		
Content:		
Module 1	Introduction to Financial Modelling:	10 Sessions

Introduction, Basics of Financial Modelling, Meaning & Definition, Characteristics, Objectives, Functions, Nature of Financial Modelling, Reasons for Financial Modelling, Applications of Financial Modelling, Who Builds Financial Modelling, how to build Financial Modelling, Uses of Financial Models, Financial Modelling and Strategic Analysts, Skills required to do Financial Modelling to Business.

	Financial		10
Module 2	Statement		
	Analysis		Sessions

Accounting Cycle: Introduction to Financial Statement Analysis, Financial Reporting Mechanics, Understanding Income Statement, Balance Sheet, Cash Flow Statement, Financial Analysis Techniques, Inventories, Long Lived Assets, Non-Current Liabilities, Financial Statement Application.

Module 3	Modelling		10
Wiodule 3	Techniques		Sessions

Ratio analysis of industries, Du point Analysis, Peer to peer analysis, Preparation of Financial Analysis report on an industry, Valuation-Discounted Cash Flow Method (DCF), Valuation – Relative Valuation (Football Field Chart),

	Excel For		10
Module 4	Financial		10
	Analysis		Sessions

Formatting of Excel Sheets, Use of Excel Formula Function, Advanced Modeling Techniques-Extrapolation, Histogram, Data Filter and Sort, Charts and Graphs, Table formula and Scenario building, Lookups: VLOOKUP Match & offset, pivot tables.

Course objective	This course is designed to improve the learner's EMPLOYABILITY SKILLS by using EXPERIENTIAL LEARNING Techniques of Class Presentation and Case Study.					
Course Content:						
Module 1	Fundamentals of Management				10 Ses	sions
	Control					

Topics: Nature of Management Control Systems – Basic concepts – Boundaries of Management Control – Impact of the Internet on Management Control – Management control environment- Goal congruence – Informal factors that influence goal congruence – Formal control systems- types of organizations – Functions of the controller – Performance measurement – Difficulties in implementing performance measurement systems – interactive control.

Module 2	Strategic Planning and		10
Module 2	Management		Sessions
	Control		

Topics: Responsibility centers - Revenue centers - Expenses centers-Administrative and support centers - Research and Development centers - Marketing centers- Profit centers- General considerations- - Business units as profit centers - Other profit centers- Measuring profitability - Transfer pricing - Objectives of transfer prices - Transfer pricing methods Pricing corporate services - Administration of transfer prices

Module 3	Management		10
	control process:		Sessions

Topics: Strategic planning - Nature of strategic planning - Analyzing proposed new programs Analyzing ongoing programs - strategic planning process - Understanding strategies - Concept of strategies - Corporate level strategies - Business unit strategies. Budget preparation - Nature of a budget- Other budgets - Budget preparation process - Behavioral aspects- Quantitative techniques- Calculating variances - Variations in practice- Limitations on variance analysis

Module 4	Variations in		10
	Managana		10
	Management		Cassians
	control		Sessions
1	control		1

Topics: Controls for differentiated strategies – Top management style- Service organizations – Service organizations in general, professional service organizations, Financial service organizations, Health care organizations, Non-profit organizations, Multinational organizations – Cultural differences

Targeted Application: PPT, Videos

Project work/Assignment: Mention the Type of Project/Assignment proposed for this course:

Assignment 1: Experiential Learning: Case study analysis difficulties in implementing performance measurement systems

Assignment 2: Group discussion on Cultural differences in Multinational organizations

Delivery procedure (pedagogy):

Lecture: All Modules

Self-learning: Module 1: Impact of the Internet on Management

Control

Participative learning: Module 4: Group discussion on Variations in

Management control

Description	basic Lean principles that helps the	professi	ona	als in	prov	iding
	error free work atmosphere and will always strive to eliminate the					
	wastages in the production. The ultimate goal of this course is to					
	make the student to understand and demonstrate the application					
	of basic lean concepts over organization's supply chain process. It					
	also describes about lean leadership principles of the lean supply					
	chain strategies, tactics in order to enhance the operational					
	efficiency of the organization.				•	

	T			1					
Course Out	On successful	completion of the c	course the students sha	all be able					
Comes	to:

	Strategy			10					
Module 2	Tactics and			sessions					
				Sessions					
	Operational								
Tanian I and Co	Plans		:	16 6					
			ip advice from Lean C						
			nain Management - Le						
_			onal Plans – Significan						
1		auctions, technique	s to reduce lead time	s, 5sLittle					
Law, OEE, Six S	igma & MSA.								
•	T 0 1		Γ	1					
	Lean Supply			10					
Module 3	Chain E-			sessions					
	Commerce			303310113					

Topics: E-Commerce and Supply Chain Management – E-Commerce interaction with Supply Chain Management – E-Business Software supports Lean Supply Chain Principles – Integrating Supply Chain Management in E-Commerce Environments – Maximizing B2C Supply Chains.

Module 4	Lean Supply Chain		10 sessions
	Outsourcing		565510115

Topics: Benefits of Outsourcing for Lean Supply Chain – Moving Suppliers to be Lean with an outsourcing strategy – Balancing In-house and Outsourcing production – Trends in Outsourcing Sourcing and Procurement and Distribution Management – Lean Paradoxes.

Module 5	Sustainable Lean Supply	10 session
	Chains	

Topics Implementing a Sustainable Lean Program – Model for Sustainability – Green Supply Chain Strategy – Strategies for Building a Sustainable Lean Program – Measuring Sustainability – Agile and Flexible Supply Chains – Agile Lean Supply Chains – Agility and Global Business.

	Enabling		
Module 6	Lean Supply		10
Module 6	Chain		sessions
	Planning		

Topics: Consideration of capacity for Lean supply chain process -Functional integration in planning – APS Lean supply chain integration – Lean supply Chain Optimization issues in planning – Market Demand Planning – Production planning – actual consumption based – Floor Design to enable lean planning – Case Study on AstraZeneca's Lean Planning – PCI Lean Production initiative.

	IT Landscape		10
Module 7	in Lean		sessions
	Supply Chain		

Topics: Master Data Management – Market Demand Planning – Detailed Planning and Scheduling – Configuring and renewing tactical lean supply chain parameters – planning and adjusting production based on actual consumption – building holistic lean IT architecture.

Targeted Application & Tools that can be used: Nil

Project work/Assignment: Mention the Type of Project/Assignment proposed for this course

Case study analysis as per the requirement of modules prescribed above.

Ford Motor Company

Toyota Production System

AstraZeneca

Course Description	This course intends to provide students about the purchasing supply chain management conce bring awareness and make them	and inv pts and p	ent oroc	ory o	perati	ons in
Course Out Comes On successful completion of the cou able to: CO 1: Highlights the overview of						
	SCM.					
	CO 2: Explain the modern conten	nporary p	our	chasin	g prac	tices.
	CO 3: Highlight the introduction	to inven	tory	man	ageme	nt and
	how demand analysis is					
	performed in SCM.					
	CO 4: Explain how the inventor	y plannir	ng a	nd fo	recasti	ng are
	performed in SCM.					
	CO 5: Analyze the recent trends management.	s in purc	has	ing aı	nd inv	entory

Course objective	The objective of the course is to familiarize the learners with the concepts of Purchase and Inventory Management and attain Employability through Participative Learning techniques.				
Course					
Content: Module 1	Overview of purchase and inventory Management			10 sessions	
or Buy or outsou - Global tender	Overview - Purchasing Organizations - Ethical and Professional standards - Make or Buy or outsourcing - Pricing impact - Purchasing Cycle - Vendor Analysis - Global tenders - Negotiations - Contracts / Purchase Orders - Purchasing practice by class of materials - Contract Management				
Module 2	Purchasing Strategies			10 sessions	
performance mea - Purchase Strate	Blanket purchase orders - Vendor performance measurement - Purchasing performance measurement - Public Buying - Purchasing & Forecasting Techniques - Purchase Strategies - Evaluation of Purchasing Function - Modern Purchase Practices - Decisions Support Tools.				
Module 3	Inventory Management			10 sessions	
	Inventory - Typ		Objectives - (Concept of	
Effects of excess	Inventory - Need for holding stock - Planning and controlling stock levels - Effects of excess inventory on business - Product Classification - Demand analysis - ABC analysis - Product Coding - Product Handling Groups				
Module 4	Module title			10 sessions	
Costs associated with inventories - Forecasting - Inventory Control - Replenishment of Inventory - Inventory Management Systems - Materials Requirement Planning (MRP) - Works in Process Inventories - Finished goods Inventories - Inventories with Suppliers - Spare Parts Inventories - Warehouse and Inventory Operations - Accounting for Inventories					
Module 5	Recent trends in purchase and inventory management			10 sessions	

Warehouse Information, Decision Making Using Warehouse Information, ICT Applications in a Warehouse - Technology Aids in Retail Warehouse Management: Introduction, Objectives, Bar Code Scanners, Wireless LAN, Mobile Computers, Radio Frequency Identification (RFID) - Cloud based Technologies for Purchasing and Inventory Planning.

Targeted Application & Tools that can be used: PPT, Videos and board & Chalk Method

Project work/Assignment: Mention the Type of Project/Assignment proposed for this course:

- 10. Case study analysis on purchase and inventory management practices of the company
- 11. Class presentation on best practices in purchase and inventory management

Course Code: BBE3009	Course Title: Quality Management L-T - 3 0 3			
Version No.	1.0			
Course Pre-	Knowledge of Management			
requisites	Understand the importance of quality as a part of			
	Management domain			
Anti-requisites	Nil			
Course Description	This course emphasizes the importance of Quality management in all areas or segments of business and organizations. Students develop and specialize on various approaches to Quality and problem-solving methodology using Quality tools and also learn current practices in the field of Quality management systems.			
Course Out Comes	On successful completion of the course, the student shall be able to: CO 1. Describe the concept of quality and best practices (Knowledge) CO 2. Explain the factors leading to cost of quality (Comprehension) CO 3. Discuss various quality management tools (Comprehension) CO 4. Relate the advancement in technology with Quality Management (Application)			
Course objective	The objective of the course is to familiarize the learners with the concepts of Quality Management and attain Employability through Participative Learning techniques.			
Course Content:				
Module 1	Introduction 10 sessions			

Topics: Importance & relevance of Quality in management – History – Dimensions of quality – Evolution of Total quality principles. Quality practices: KAIZEN, KANBAN, JIT.

	Quality	
Module 2	practices	10
	1	
	and cost of	sessions
	quality	

Topics: Quality standards – ISO, Indian standards, Quality Audit, KAIZEN, KANBAN, JIT, –Cost of quality – Discretionary cost: Prevention – Appraisal – Consequential cost: Internal failure – External failure. Quality differentiation strategies, Quality strategic planning. COPQ- Cost of poor quality

	Quality		10
Module 3	control		sessions
	systems		565510115

Topics: Management tools for quality, tools for quality planning. Process Design & control., Fishbone diagram, Pareto chart, Lean quality manufacturing and Six sigma (DPMO).

	Quality			
Module 4	teams and			10
	recent trends			
	in quality			sessions
	management			

Topics: Importance of teams in TQM – Types of teams – Principles of empowerment – role of quality leader. Ethical values in quality. Implementing TQM – culture change required. Establishment of effective quality communication system. Introduction to e-QMS - Meaning & Steps in implementation of e-QMS. Remote Audits, Shared supplier audits. Quality management software – Types, Features, Benefits & Challenges.

Targeted Application: Application of quality practices Tools that can be used: MS office, MS excel, PowerPoint

Project work/Assignment: Presentation on Fish bone analysis

Present based on interaction with a corporate employee about quality management practices in the company

Course Code: BBE3010	Course Title: Warehouse Management	L-T - P-C	3	0	0	3	
Version No.	1.0						
Course Pre- requisites	Knowledge of Supply chain Manage	ement					
Anti-requisites	Nil						
Course Description	This is a theory course that aims at providing insights to the students about practices of warehouse management, role of warehouse in managing a business and impact of technological advancement on practices of warehouse management. Post completion of the course students will be able to gain conceptual insights of warehouse management.						
Course Out Comes	On successful completion of the course the students shall be able to: CO 1: Describe the relatedness between warehouse and Supply chain management. (Remember) CO2: Explain the role of warehousing in Retail. (Understand) CO3: Summarize the practices of warehousing operations (Understand) CO 4: Illustrate the impact of technological advancement on warehouse management (Apply)						

Course objective	The objective of the co	urse is to familiari	ize the learners wi	th the concepts
	of warehouse manager	<mark>nent</mark> and attain <mark>Er</mark>	<mark>nployability</mark> throug	gh <mark>Participative</mark>
	Learning techniques.			
Course Content:				
	Supply Chain			
Module 1	and			10 sessions
	Warehousing			
Topics: Introduction	on, Objectives, Supply (Chain Impact on	Stores and Warel	nousing, Retail
T. C. D. C. T.		1		

Logistics, Retail transportation, Issues in retail logistics.

	Role of		
Module 2	Warehousing		10 sessions
	in Retail		

Topics: Introduction, Objectives, Retailing and Warehousing, Challenges in retail warehousing, Warehousing in fashion retail, Setting up a warehouse, Retail product tracking in warehouse using RFID, Types of warehouses, Benefits of warehousing, Role of government in warehousing, Characteristics of an ideal warehouse, Storing products in a warehouse, Warehousing — the way forward, Warehousing and Supply Chain.

	Strategic	
	Aspects of	
M- 11- 2	Warehousing,	10
Module 3	Warehouse	10 sessions
	and its	
	Operations	

Topics: Introduction, Objectives, Different Types of Customers in Warehousing, Importance of Warehouse in a Value Chain, Warehouse Location, Modern Warehouse Operations, Worldclass Warehousing. Introduction, Objectives, Warehouse Structure, Warehouse Operations, Receiving inventory, Picking inventory, Locating inventory, Organising inventory, Despatching inventory, Equipment Used for a Warehouse.

Madula 4	Warehouse		10
Module 4	information		10 sessions

Introduction, Objectives, Importance of Warehouse Information, Decision Making Using Warehouse Information, ICT Applications in a Warehouse Technology Aids in Retail warehouse Management Introduction, Objectives, Bar Code Scanners, Wireless LAN, Mobile Computers, Radio Frequency Identification (RFID)

Targeted Application: Application of quality practices Tools that can be used: MS office, MS excel, PowerPoint

Business, E - Bus	siness Technology	: Different Types of	Networkin	g fo	or E-Bus	iness,
Internet, Intranet	Internet, Intranet, EDI Systems					
Module 2	E-business Markets and Models			í	10 sessio	ons

E-business Markets and Models: Introduction, E-business Environment, E – Marketplaces, Types of E – Business Models: Model based on Transaction Type, Model based on Transaction Party – B2B, B2C, C2B, C2C, E-commerce Sales Life Cycle (ESLC) Model, E – Marketing: Key Issues, Introduction, The Scope of E – Marketing, Internet Marketing Techniques, The Marketing Mix, Branding, Online Advertising, Targeting Online Customers, One-to-One Marketing, E – Governance

Module 3	The		10 sessions
	Management		
	of E -		
	Business		

Managing Knowledge, Managing Applications Systems for E – Business, Management Skills for E – Business, Comparison between Conventional Design and E – Organization, Supply Chain Management (SCM), Customer Relationship Management, E – Payment Mechanism: Payment through Card System, E – Cheque, E – Cash, E – Payment Threats & Protections

Module 4	E -Business		10 sessions
	Strategy		
	Formulation		

E -Business Strategy Formulation: Issues and Challenges, Strategic Management and Objective Setting, The Strategic Management Process in E - Business, Internal Analysis, External Analysis, Competitive Strategies for E - Business, Organizational Learning, Organizational Culture and E - Business, Organizational Structure and E - Business, Organizational Control and Evaluation

Targeted Application & Tools that can be used: Microsoft PowerPoint Presentation

Project work/Assignment: Mention the Type of Project/Assignment proposed for this course:

Assignment 1: Participative learning: E-Business Market Research and Competitive Analysis: Research on a specific e-commerce market segment, analyzing competitors, trends, and identifying potential opportunities.

Assignment 2: Experiential learning: Students will do research on a specific e-commerce market segment and analyze the trends and challenges. Followed by a group discussion.

Delivery procedure (pedagogy):

Lecture: All Modules

Participative learning: Module 2: Affiliate marketing through Blogging or Content Creation

Experiential learning: Module 3: Survey: Research on a specific e-commerce market segment and analyze the trends and challenges. Followed by a group discussion.

Description	will provide detailed insight about basic and advanced SQL.				
	After the completion of the course students will be able to				
	identify the functions of SQL and its applicability.				

Course Out	On successful completion of the course the students shall be			
Comes	able to:			
	CO1: Describe t	the concepts of R	DBMS	
	CO2: Summariz	ze the basic funct	ions of SQL	
	CO3: Illustrate	the functionalities	es of Advance SQL	
	CO4: Apply SQL programming			
Course	The objective of the course is to familiarize the learners with the			
objective	concepts of Bus	siness Accountin	ı g and attain <mark>Skill D</mark> e	<mark>evelopment</mark>
	through Problem Solving.			
Course Content:				
Module 1	Introduction	Discussing	Discussing data	11
Module 1	to RDBMS	data set	set	Sessions

Topics: Overview of Databases and DBMS- Database Models - RDBMS Architecture - Entity-Relationship (ER) Model: Entities, attributes, relationships, ER diagrams - Normalization: 1NF, 2NF, 3NF, BCNF - Keys in RDBMS: Primary key, foreign key, candidate key, composite key - Database Design: Conceptual, logical, and physical design - Integrity Constraints - Transaction - Database Security.

Module 2	SQL Basics	Discussing	Discussing data	10
Middule 2	SQL Dasies	data set	set	Sessions

Topics: Introduction to SQL: SQL standards, types of SQL commands (DML, DDL, DCL, TCL) - Data Definition Language (DDL): CREATE, ALTER, DROP, TRUNCATE - Data Manipulation Language (DML): INSERT, UPDATE, DELETE, SELECT commands - Basic Queries: SELECT statement, WHERE clause, filtering data - SQL Operators: Arithmetic, comparison, logical, and set operators - SQL Functions: Aggregate functions (SUM, AVG, COUNT), scalar functions - Joins in SQL: Inner join, outer join, cross join, self-join - Subqueries: Single-row and multirow subqueries, correlated subqueries - Grouping and Aggregation: GROUP BY, HAVING clauses, and their usage - Indexing in SQL: Types of indexes, creating and dropping indexes, benefits of indexing.

Module 3	Advanced	Discussing	Discussing data	10
Wiodule 3	SQL	data set	set	Sessions

Topics: Advanced Queries: Complex joins, nested queries - Views in SQL: Creating, modifying, and dropping views, materialized views - Stored Procedures and Functions: Creating, executing, and managing stored procedures and functions - Triggers: Definition, types of triggers, creating, and managing triggers - Transactions and Locks: Transaction control, locking mechanisms, and deadlock prevention - Error Handling in SQL: TRY...CATCH, error codes, and custom error messages - Dynamic SQL: Introduction, use cases, and execution of dynamic SQL - Optimization Techniques: Query optimization, indexing strategies, and execution plans - SQL Injection: Understanding SQL injection, prevention techniques, and best practices - Database Backup and Recovery: Types of backups, restoration techniques, and recovery models.

Module 4	PL/SQL Programming	Discussing data set	Discussing data set	10 Sessions
----------	-----------------------	---------------------	---------------------	----------------

Topics: Introduction to PL/SQL: Basics of PL/SQL, advantages, PL/SQL block structure- Data Types and Variables: Scalar data types, composite data types, declaring variables - Control Structures: Conditional statements (IF, CASE), loops (LOOP, WHILE, FOR) - Cursors in PL/SQL: Implicit and explicit cursors, cursor attributes, and cursor FOR loops - Exception Handling: Predefined exceptions, user-defined exceptions, RAISE and PRAGMA EXCEPTION_INIT - Procedures and Functions: Creating, executing, parameters (IN, OUT, IN OUT), and overloading - Packages in PL/SQL: Creating and using packages, package specification, and body - Triggers in PL/SQL: Creating row-level and statement-level triggers, INSTEAD OF triggers - Collections in PL/SQL: Associative arrays, nested tables, VARRAYs, and their usage - PL/SQL Best Practices: Code optimization, reusability, debugging, and maintenance.

Targeted Application & Tools that can be used: PPT, Videos and board & Chalk Method
