#### PART A - PROGRAM REGULATIONS

#### 1. Vision & Mission of the University and the School/Department

#### 1.1 Vision of the University

To be a Value-driven Global University, excelling beyond peers and creating professionals of integrity and character, having concern and care for society.

#### 1.2 Mission of the University

- Commit to be an innovative and inclusive institution by seeking excellence in teaching, research and knowledge-transfer.
- Pursue Research and Development and its dissemination to the community, at large.
- Create, sustain and apply learning in an interdisciplinary environment with consideration for ethical, ecological and economic aspects of nation building.
- Provide knowledge-based technological support and services to the industry in its growth and development.
- To impart globally-applicable skill-sets to students through flexible course offerings and support industry's requirement and inculcate a spirit of newventure creation.

#### 1.3. Vision Statement of Presidency School of Commerce and Economics

To become a value-based, business-based Commerce and Economics School dedicated to creating a positive impact on commerce, the economy and society.

#### 1.4 Mission Statement of Presidency School of Commerce and Economics

- Equip students with the knowledge, skills, and abilities to succeed in the world of commerce.
- Empower students to make proactive decisions in the face of economic and business-related challenges.
- Sensitize students to embrace lifelong learning in a technology-enabled environment.
- Foster strategic alliances with industry and academia for research and its practical application.
- Instil entrepreneurial and leadership skills to address social, environmental and community needs.

#### 2. Preamble to the Program Regulations and Curriculum

This is the subset of Academic Regulations, and it is to be followed as a requirement for the award of BBA (Aviation Management) degree.

The Curriculum is designed to take into the factors listed in the Choice Based Credit System (CBCS) with focus on Internship, Dissertation and Social Immersion project to enable the students to become eligible and fully equipped for employment in industries, choose higher studies or entrepreneurship.

In exercise of the powers conferred by and in discharge of duties assigned under the relevant provision(s) of the Act, Statutes and Academic Regulations of the University, the Academic Council hereby makes the following Regulations.

#### 3. Short Title and Applicability

- a. These Regulations shall be called the Bachelor of Business Administration (Aviation Management) Degree Program Regulations and Curriculum 2024-2027.
- b. These Regulations are subject to, and pursuant to the Academic Regulations.
- c. These Regulations shall be applicable to the ongoing Bachelor of Business Administration (Aviation Management) Degree Programs of the 2024-2027 batch, and to all other Bachelor of Business Administration (Aviation Management) Degree Programs which may be introduced in future.
- d. These Regulations shall supersede all the earlier Bachelor of Business Administration (Aviation Management) Degree Program Regulations and Curriculum, along with all the amendments thereto.
- e. These Regulations shall come into force from the Academic Year 2024-2025.

#### 4. Definitions

*In these Regulations, unless the context otherwise requires:* 

- a. "Academic Calendar" means the schedule of academic and miscellaneous events as approved by the Vice Chancellor;
- b. "Academic Council" means the Academic Council of the University;
- c. "Academic Regulations" means the Academic Regulations, of the University;
- d. "Academic Term" means a Semester or Summer Term;
- e. "Act" means the Presidency University Act, 2013;
- f. "AICTE" means All India Council for Technical Education;
- g. "Basket" means a group of courses bundled together based on the nature/type of the course;
- h. "BOE" means the Board of Examinations of the University;
- i. "BOG" means the Board of Governors of the University;
- j. "BOM" means the Board of Management of the University;
- k. "BOS" means the Board of Studies of a particular Department/Program of Study of the University;
- 1. "CGPA" means Cumulative Grade Point Average as defined in the Academic Regulations;
- m. "Clause" means the duly numbered Clause, with Sub-Clauses included, if any, of these Regulations;
- n. "COE" means the Controller of Examinations of the University;
- o. "Course In Charge" means the teacher/faculty member responsible for developing and organising the delivery of the Course;
- p. "Course Instructor" means the teacher/faculty member responsible for teaching and evaluation of a Course;
- q. "Course" means a specific subject usually identified by its Course-code and Course-title, with specified credits and syllabus/course-description, a set of references, taught by some teacher(s)/course-instructor(s) to a specific class (group of students) during a specific Academic Term;
- r. "Curriculum Structure" means the Curriculum governing a specific Degree Program offered by the University, and, includes the set of Baskets of Courses along with minimum credit requirements to be earned under each basket for a degree/degree with specialization/minor/honours in addition to the relevant details of the Courses and Course catalogues (which describes the Course content and other important information about the Course). Any specific requirements for a particular program may be brought into the Curriculum structure of the specific program and relevant approvals should be taken from the BOS and Academic Council at that time.
- s. "DAC" means the Departmental Academic Committee of a concerned Department/Program of Study of the University;

- t. "Dean" means the Dean / Director of the concerned School;
- u. "Degree Program" includes all Degree Programs;
- v. "Department" means the Department offering the degree Program(s) / Course(s) / School offering the concerned Degree Programs / other Administrative Offices;
- w. "Discipline" means specialization or branch of BBA Degree Program;
- x. "HOD" means the Head of the concerned Department;
- y. "L-T-P-C" means Lecture-Tutorial-Practical-Credit refers to the teaching learning periods and the credit associated;
- z. "MOOC" means Massive Open Online Courses;
- aa. "MOU" means the Memorandum of Understanding;
- bb. "NPTEL" means National Program on Technology Enhanced Learning;
- cc. "Parent Department" means the department that offers the Degree Program that a student undergoes;
- dd. "Program Head" means the administrative head of a particular Degree Program/s;
- ee. "Program Regulations" means the Bachelor of Business Administration (Aviation Management) Degree Program Regulations and Curriculum, 2023-2026;
- ff. "Program" means the Bachelor of Business Administration (Aviation Management)

  Degree Program;
- gg. "PSOC&E" means the Presidency School of Commerce and Economics;
- hh. "Registrar" means the Registrar of the University;
- ii. "School" means a constituent institution of the University established for monitoring, supervising and guiding, teaching, training and research activities in broadly related fields of studies;
- *ij.* "Section" means the duly numbered Section, with Clauses included in that Section, of these Regulations;
- kk. "SGPA" means the Semester Grade Point Average as defined in the Academic Regulations;
- ll. "Statutes" means the Statutes of Presidency University;
- mm. "Sub-Clause" means the duly numbered Sub-Clause of these Program Regulations;
- nn. "Summer Term" means an additional Academic Term conducted during the summer break (typically in June-July) for a duration of about eight (08) calendar weeks, with a minimum of thirty (30) University teaching days;
- oo. "SWAYAM" means Study Webs of Active Learning for Young Aspiring Minds.
- pp. "UGC" means University Grants Commission;
- qq. "University" means Presidency University, Bengaluru; and
- rr. "Vice Chancellor" means the Vice Chancellor of the University.

#### 5. Program Description

The Bachelor of Business Administration (Aviation Management) Program Regulations and Curriculum 2023-2026 are subject to, and, pursuant to the Academic Regulations. These Program Regulations shall be applicable to the ongoing Bachelor of Business Administration (Aviation Management) Degree Program, abbreviated as (BBA(Aviation Management)) of 2023-2026 offered by the Presidency School of Commerce and Economics (PSOC&E).

- 5.1 These Program Regulations shall be applicable to other similar programs, which may be introduced in future.
- 5.2 These Regulations may evolve and get amended or modified or changed through appropriate approvals from the Academic Council, from time to time, and shall be binding on all concerned.
- 5.3 The effect of periodic amendments or changes in the Program Regulations, on the students admitted in earlier years, shall be dealt with appropriately and carefully, so as to ensure that those students are not subjected to any unfair situation whatsoever, although they are required to conform to these revised Program Regulations, without any undue favour or considerations

#### 6. Minimum and Maximum Duration

- 6.1 Bachelor of Business Administration (Aviation Management) Degree Program is a Three-Year, Full-Time Semester based program. The minimum duration of the BBA(Aviation Management) Program is three (03) years and each year comprises of two academic Semesters (Odd and Even Semesters) and hence the duration of the BBA(Aviation Management) program is six (06) Semesters.
- 6.2 A student who for whatever reason is not able to complete the Program within the normal period or the minimum duration (number of years) prescribed for the Program, may be allowed a period of two years beyond the normal period to complete the mandatory minimum credits requirement as prescribed by the concerned Program Regulations and Curriculum. In general, the permissible maximum duration (number of years) for completion of Program is 'N' + 2 years, where 'N' stands for the normal or minimum duration (number of years) for completion of the concerned Program as prescribed by the concerned Program Regulations and Curriculum.
- 6.3 The time taken by the student to improve Grades/CGPA, and in case of temporary withdrawal/re-joining, shall be counted in the permissible maximum duration for completion of a Program.

- 6.4 In exceptional circumstances, such as temporary withdrawal for medical exigencies, where there is a prolonged hospitalization and/or treatment, as certified through hospital/medical records, female students requiring extended maternity break (certified by registered medical practitioner), and, outstanding sportspersons representing the University/State/India requiring extended time to participate in National/International sports events, a further extension of one (01) year may be granted on the approval of the Academic Council.
- 6.5 The enrolment of the student who fails to complete the mandatory requirements for the award of the concerned Degree in the prescribed maximum duration (Sub-Clauses 18.1 and 18.2 of Academic Regulations), shall stand terminated and no Degree shall be awarded.

#### 7 Programme Educational Objectives (PEO)

After three years of successful completion of the program, the graduates shall be:

- PEO1. Demonstrate innovative skills, moral ethical values as successful business administrator.
- PEO2. Engage in lifelong learning through higher studies and professional development.
- PEO3. Serve the society as creative and effective entrepreneur.

#### 8 Programme Outcomes (PO) and Programme Specific Outcomes (PSO)

#### 8.1 Programme Outcomes (PO)

On successful completion of the Program, the students shall be able to:

- **PO1.** Integrate functional knowledge and apply managerial skills in improving business environment.
- **PO2.** Identify various management function problems in different management functions and solve through strategic planning, critical thinking and innovation.
- PO3. Effectively communicate with different stakeholders.
- **PO4.** Realize and follow professional and ethical principles.
- PO5. Demonstrate commitment to continuous learning.
- **PO6.** Function in multidisciplinary teams.
- **PO7.** Desire to go for higher education in business administration.

#### 8.2 Program Specific Outcomes (PSOs):

On successful completion of the BBA (Aviation Management) program from Presidency University, the student shall possess the ability to:

- **PSO-1:** Apply the concept of aviation management principles
- **PSO-2:** Understand the management skills through internship training.
- **PSO-3:** Demonstrate critical thinking skills in understanding managerial issues and problems related to the global economy and international business in aviation and allied industries.

#### 9 Admission Criteria

The University admissions shall be open to all persons irrespective of caste, class, creed, gender or nation. The admission criteria to the BBA (Aviation Management) Program is listed in the following Sub-Clauses:

- 9.1 An applicant who has successfully completed Pre-University course or Senior Secondary School course (+2) or equivalent such as (11+1), 'A' level in Senior School Leaving Certificate Course, with a minimum aggregate of 40% marks, from a recognized university of India or outside or from a Senior Secondary Board or equivalent, constituted or recognized by the Union or by the State Government of that Country, for the purpose of issue of qualifying certificate, on successful completion of the course, may apply for and be admitted into the Program.
- 9.2 Reservation for the SC / ST and other backward classes shall be made in accordance with the directives issued by the Government of Karnataka from time to time.
- 9.3 Admissions are offered to Foreign Nationals and Indians living abroad in accordance with the rules applicable for such admission, issued from time to time, by the Government of India.
- 9.4 Candidates must fulfil the medical standards required for admission as prescribed by the University.
- 9.5 If, at any time after admission, it is found that a candidate had not in fact fulfilled all the requirements stipulated in the offer of admission, in any form whatsoever, including possible misinformation and any other falsification, the Registrar shall report the matter to the Board of Management (BOM), recommending revoking the admission of the candidate.
- 9.6 The decision of the BOM regarding the admissions is final and binding.

## 10. Transfer of student(s) from another recognized University to the 2<sup>nd</sup> year (3<sup>rd</sup> Semester) of the BBA (Aviation Management) Program of the University

A student who has completed the 1<sup>st</sup> Year (i.e., passed in all the Courses / Subjects prescribed for the 1<sup>st</sup> Year) of the BBA (Aviation Management) Three-Year Degree Program from another recognized University, may be permitted to transfer to the 2<sup>nd</sup> Year (3<sup>rd</sup> Semester) of the BBA (Aviation Management) Program of the University as per the rules and guidelines prescribed in the following Sub-Clauses:

- 10.1 The student shall submit the Application for Transfer along with a non-refundable Application Fee (as prescribed by the University from time to time) to the University no later than July 10 of the concerned year for admission to the 2<sup>nd</sup> Year (3<sup>rd</sup> Semester) BBA (Aviation Management) Program commencing on August on the year concerned.
- 10.2 The student shall submit copies of the respective Marks Cards / Grade Sheets / Certificates along with the Application for Transfer.
- 10.3 The transfer may be provided on the condition that the Courses and Credits completed by the concerned student in the 1st Year of the BBA (Aviation Management) Three Degree Program from the concerned University, are declared equivalent and acceptable by the Equivalence Committee constituted by the Vice Chancellor for this purpose. Further, the Equivalence Committee may also prescribe the Courses and Credits the concerned students shall have to mandatorily complete, if admitted to the 2nd Year of the BBA (Aviation Management) Program of the University.
- 10.4 The Program allotted to the student concerned shall be the decision of the University and binding on the student.

#### 11. Change of Program

A student admitted to a particular BBA (Aviation Management) program will normally continue studying in that Program till the completion of the program. However, the University reserves the right to provide the option for a change of Program, or not to provide the option for a change of Program at the end of 1st semester of the degree to eligible students in accordance with the rules framed by the University from time to time.

- 11.1 Normally, only those students, who have passed all the Courses prescribed for the 1<sup>st</sup> Semester of the degree Program and obtained a CGPA of not less than 6.00 at the end of the first Semester, shall be eligible for consideration of a change of program.
- 11.2 Change of Program, if provided, shall be made effective from the commencement of the 2nd Semester of the Degree Program. There shall be no provision for change of Program thereafter under any circumstances whatsoever.
- 11.3 The student(s) provided with the change of program shall fully adhere to and comply with the Program Regulations and Curriculum of the concerned Program, the Fee Policy pertaining to that Program, and, all otherrules pertaining to the changed Program existing at the time.
- 11.4 Change of program once made shall be final and binding on the student. No student shall be permitted, under any circumstances, to refuse the change of program offered.
- 11.5 The eligible student may be allowed a change in Program, strictly in order of inter se merit, subject to the conditions given below:
  - 11.5.1 The actual number of students in the second semester in any particular program to which the transfer is to be made, should not exceed the sanctioned strength by more than 5%, and,
  - 11.5.2 The actual number of students in any program from which transfer is being sought does not fall below 75% of the total sanctioned intake.
  - 11.5.3 The process of change of program shall be completed on the first five (5) days of the Registration for the 2nd Semester.

- 12 Specific Regulations regarding Assessment and Evaluation (including the Assessment Details of NTCC Courses, Weightages of Continuous Assessment and End Term Examination for various Course Categories)
  - **12.1** The academic performance evaluation of a student in a Course shall be according to the University Letter Grading System based on the class performance distribution in the Course.
  - **12.2** Academic performance evaluation of every registered student in every Course registered by the student is carried out through various components of Assessments spread across the Semester. The nature of components of Continuous Assessments and the weightage given to each component of Continuous Assessments (refer Clause 12.5 of Academic Regulations) shall be clearly defined in the Course Plan for every Course, and approved by the DAC.
  - **12.3** Format of the End-Term examination shall be specified in the Course Plan.
  - 12.4 Grading is the process of rewarding the students for their overall performance in each Course. The University follows the system of Relative Grading with statistical approach to classify the students based on the relative performance of the students registered in the concerned Course except in the following cases:
    - Non-Teaching Credit Courses (NTCC)
    - Courses with a class strength less than 30

Absolute grading method may be adopted, where necessary with prior approval of concerned DAC.

Grading shall be done at the end of the Academic Term by considering the aggregate performance of the student in all components of Assessments prescribed for the Course. Letter Grades shall be awarded to a student based on her/his overall performance relative to the class performance distribution in the concerned Course. These Letter Grades not only indicate a qualitative assessment of the student's performance but also carry a quantitative (numeric) equivalent called the Grade Point.

#### 12.5 Assessment Components and Weightage

Table 1: Assessment Components and Weightage for different category of Courses

N	Evaluation			
Nature of Course and Structure	Component	Weightage		
Lecture-based Course	Continuous	50%		
L component in the L-T-P Structure is	Assessments	30 %		
predominant (more than 1) (Examples: 3-0-0; 3-0-2; 2-1-0; 2-0-2, 2-0-4 etc.)	End Term Examination	50%		
Lab-based Course	Continuous	75%		
P component in the L-T-P Structure is	Assessments	7570		
predominant	End Term			
(Examples: 0-0-4; 1-0-4; 1-0-2; etc.)	Examination (Lab	25%		
(Lxamples. 0-0-4, 1-0-4, 1-0-2, etc.)	Only)			
Practice- based Course L component in the L-T-P Structure is 0 (Example: 0-0-2 etc.)	Continuous Assessments	100%		
	Guidelines for the	assessment		
Skill based Courses like Internship,	components for the	various types		
Dissertation / Social Engagement and	of Courses, with r	ecommended		
such similar Non-Teaching Credit	weightages, shall be	e specified in		
Courses, where the pedagogy does not	the concerned	Program		
lend itself to a typical L-T-P structure	Regulations and Curriculum /			
	Course Plans, as app	licable.		

The exact weightages of Evaluation Components shall be clearly specified in the concerned PRC and respective Course Plan.

Normally, for Practice/Skill based Courses, without a defined credit structure (L-T-P) [NTCC], but with assigned Credits, the method of evaluation shall be based only on Continuous Assessments. The various components of Continuous Assessments, the distribution of weightage among such components, and the method of evaluation/assessment, shall be as decided and indicated in the Course Plan/PRC. The same shall be approved by the respective DAC.

#### **12.6** Minimum Performance Criteria:

#### 12.6.1 Theory only Course and Lab/Practice Embedded Theory Course

A student shall satisfy the following minimum performance criteria to be eligible to earn the credits towards the concerned Course:

- a. A student must obtain a minimum of 30% of the total marks/weightage assigned to the End Term Examinations in the concerned Course.
- b. The student must obtain a minimum of 40% of the AGGREGATE of the marks/weightage of the components of Continuous Assessments, Mid Term Examinations and End Term Examinations in the concerned Course.

#### 12.6.2 Lab/Practice only Course and Project Based Courses

The student must obtain a minimum of 40% of the AGGREGATE of the marks/weightage of all assessment components in the concerned Course.

12.6.3 A student who fails to meet the minimum performance criteria listed above in a Course shall be declared as "Fail" and given "F" Grade in the concerned Course. For theory Courses, the student shall have to re-appear in the "Make-Up Examinations" as scheduled by the University in any subsequent semester, or, re-appear in the End Term Examinations of the same Course when it is scheduled at the end of the following Semester or Summer Term, if offered. The marks obtained in the Continuous Assessments (other than the End Term Examination) shall be carried forward and be included in computing the final grade, if the student secures the minimum requirements (as per Clause 12.6.1, 12.6.2 of Academic Regulations) in the "Make-Up Examinations" of the concerned Course. Further, the student has an option to re-register for the Course and clear the same in the summer term/ subsequent semester if he/she wishes to do so, provided the Course is offered.

## 13 Additional clarifications - Rules and Guidelines for Transfer of Credits from MOOC, etc. - Note: These are covered in Academic Regulations

The University allows students to acquire credits from other Indian or foreign institutions and/or Massive Open Online Course (MOOC) platforms, subject to prior approval. These credits may be transferred and counted toward fulfilling the minimum credit requirements for the award of a degree. The process of transfer of credits is governed by the following rules and guidelines:

- **13.1** The transfer of credits shall be examined and recommended by the Equivalence Committee and approved by the Dean Academics.
- **13.2** Students may earn credits from other Indian or foreign Universities/Institutions with which the University has an MOU, and that MOU shall have specific provisions, rules and guidelines for transfer of credits. These transferred credits shall be counted towards the minimum credit requirements for the award of the degree.
- Web of Active Learning by Young and Aspiring Minds (SWAYAM) and National Program on Technology Enhanced Learning (NPTEL), or other such recognized Bodies/ Universities/Institutions as approved by the concerned BOS and Academic Council from time to time. The concerned School/Parent Department shall publish/include the approved list of Courses and the rules and guidelines governing such transfer of credits of the concerned Program from time to time. The Rules and Guidelines for the transfer of credits specifically from the Online Courses conducted by SWAYAM/ NPTEL/ other approved MOOCs are as stated in the following Sub-Clauses:
  - 13.3.1 A student may complete SWAYAM/NPTEL/other approved MOOCs as mentioned in Clause 13.3 of Academic Regulations and transfer equivalent credits to partially or fully complete the mandatory credit requirements of Discipline Elective Courses and/or the mandatory credit requirements of Open Elective Courses as prescribed in the concerned Curriculum Structure. However, it is the sole responsibility of the student to complete the mandatory credit requirements of the Discipline Elective Courses and the Open Elective Courses as prescribed by the Curriculum Structure of the concerned Program.

- **13.3.2** SWAYAM/NPTEL/ other approved MOOCs as mentioned in Clause 13.3 of Academic Regulations, shall be approved by the concerned Board of Studies.
- 13.3.3 Parent Departments may release a list of SWAYAM/NPTEL/other approved MOOCs for Pre-Registration as per schedule in the Academic Calendar or through University Notification to this effect.
- 13.3.4 Students may Pre-Register for the SWAYAM/NPTEL/other approved MOOCs in the respective Departments and register for the same Courses as per the schedule announced by respective Online Course Offering body/institute/ university.
- **13.3.5** A student shall request for transfer of credits only from such approved Courses as mentioned in Sub-Clause 13.3.2 above.
- 13.3.6 SWAYAM/NPTEL/other approved MOOCs Courses are considered for transfer of credits only if the concerned student has successfully completed the SWAYAM/NPTEL/other approved MOOCs and obtained a certificate of successful/satisfactory completion.
- 13.3.7 A student who has successfully completed the approved SWAYAM/NPTEL/ other approved MOOCs and wants to avail the provision of transfer of equivalent credits, must submit the original Certificate of Completion, or such similar authorized documents to the Dean/ Director/ HOD concerned, with a written request for the transfer of the equivalent credits. On verification of the Certificates/Documents and approval by the Dean/Director/HOD concerned, the Course(s) and equivalent Credits shall be forwarded to the COE for processing of results of the concerned Academic Term.
- 13.3.8 The credit equivalence of the SWAYAM/NPTEL/other approved MOOCs are based on Course durations and/or as recommended by the Course offering body/institute/university. The Credit Equivalence mapped to SWAYAM/ NPTEL approved Courses based on Course durations for transfer of credits is summarised in Table shown below. The Grade will be calculated from the marks received by the Absolute Grading.

Table	Table 2: Durations and Credit Equivalence for Transfer of Credits							
from SWAYAM-NPTEL/ other approved MOOC Courses								
S1.	S1. Course Duration Credit Equivalence							
No.	Course Duration	Credit Equivalence						
1	4 Weeks	1 Credit						
2	8 Weeks	2 Credits						
3	12 Weeks	3 Credits						

- 13.3.9 The maximum permissible number of credits that a student may request for credit transfer from MOOCs shall not exceed 20% of the mandatory minimum credit requirements specified by the concerned Program Regulations and Curriculum for the award of the concerned Degree.
- **13.3.10** The University shall not reimburse any fees/expense; a student may incur for the SWAYAM/NPTEL/other approved MOOCs.
- 13.4 The maximum number of credits that can be transferred by a student shall be limited to forty percent (40%) of the mandatory minimum credit requirements specified by the concerned Program Regulations and Curriculum for the award of the concerned Degree. However, the grades obtained in the Courses transferred from other Institutions/MOOCs, as mentioned in this Section, shall not be included in the calculation of the CGPA.

## 14 Structure / Component with Credit Requirements Course Baskets & Minimum Basket wise Credit Requirements

The BBA (Aviation Management) Program Structure (2023-2026) has a total of 122 credits. Table 3 summarizes the type of baskets, number of courses under each basket and the associated credits that are mandatorily required for the completion of the Degree.

Table 3: BBA (Aviation Management) 2023-2026: Summary of Mandatory Courses and Minimum Credit Contribution from various Baskets

S1. No.	Baskets	Credit Contribution
1	SCHOOL CORE	35
2	PROGRAM CORE	54
3	DISCIPLINE ELECTIVE	24
	OPEN ELECTIVE	9
	Total Credits	122 (Minimum)

#### 14. Minimum Total Credit Requirements of Award of Degree

A minimum of 122 credits is required to be eligible for the award of BBA (Aviation Management) degree.

## 15. Other Specific Requirements for Award of Degree, if any, as prescribed by the Statutory Bodies

- 16.1 The award of the Degree shall be recommended by the Board of Examinations and approved by the Academic Council and Board of Management of the University.
- 16.2 A student shall be declared to be eligible for the award of the concerned Degree if she/he:
  - a. Fulfilled the Minimum Credit Requirements and the Minimum Credits requirements under various baskets.
  - b. Secure a minimum CGPA of 4.50 in the concerned Program at the end of the Semester/Academic Term in which she/he completes all the requirements for the award of the Degree as specified in Sub-Clause a of Academic Regulations;
  - c. No dues to the University, Departments, Hostels, Library, and any other such Centres/ Departments of the University; and
  - d. No disciplinary action is pending against her/him.

#### 17. Practical / Skill based Courses - Internships / Dissertation / Project Work

Practical / Skill based Courses like internship, dissertation, Social immersion project , and such similar courses, where the pedagogy does not lend itself to a typical L-T-P-C Structure as defined in Clause 5.1 of the Academic Regulations, are simply assigned the number of Credits based on the quantum of work / effort required to fulfil the learning objectives and outcomes prescribed for the concerned Courses. Such courses are referred to as Non-Teaching Credit Courses (NTCC). These Courses are designed to provide students with hands-on experience and skills essential for their professional development. These courses aim to equip students with abilities in problem identification, root cause analysis, problem-solving, innovation, and design thinking through industry exposure and project-based learning. The expected outcomes are first level proficiency in problem solving and design thinking skills to better equip BBA (Aviation Management) graduates for their professional careers. The method of evaluation and grading for the Practical / Skill based Courses shall be prescribed and approved by the concerned Departmental Academic Committee (refer Annexure A of the Academic Regulations). The same shall be prescribed in the Course Handout.

#### Internship

A student may undergo an internship for a period of 6 to 8 weeks in a company or organization during the Semester Break between 4<sup>th</sup> and 5<sup>th</sup> semester subject to the following conditions:

- **18.1.1** The Internship shall be in conducted in accordance with the Internship Policy prescribed by the school from time to time.
- 18.1.2 A student may opt for Internship in an Industry / Company/ Organization or academic / research institution of her / his choice, subject to the condition that the concerned student takes the responsibility to arrange the Internship on her / his own. Provided further, that the Industry / Company / Organization or academic / research institution offering such Internship confirms to the University that the Internship shall be conducted in accordance with the Program Regulations and Internship Policy of the School.
- **18.1.3** A student selected for an Internship in an industry / company or academic / research institution shall adhere to all the rules and guidelines prescribed in the Internship Policy of the School.
- **18.1.4** As per the Academic Regulations, 'S' grade is awarded for "satisfactory completion" of the Internship and 'NC' grade is awarded for "non-completion" of the Internship. The student who receives the "NC" grade shall repeat the Internship, until the

concerned student secures the "S" grade in the Internship. The "S" and "NC" grades is subject to fulfilling the requirements as stated in the course plan and do not carry grade points. Hence not included in the SGPA, CGPA computations.

#### 18.2 Dissertation

Every student shall, carryout dissertation under the overall supervision of the supervisor(s) during the VI semester of the program.

- 18.2.1 The dissertation offers an opportunity to the student(s) to explore a topic in depth. The dissertation would entail an investigation, together with the written report and interpretation thereof. The dissertation could either be of an exploratory type or a prescriptive type with a focus on its applicability to management situations. It may be a case study, a study of a policy problem, a historical study, development of a new method, comparison of two or more methods, formulation and testing a hypothesis relevant to some areas of management. The dissertation can also be field/library-based study or both. Normally, only a faculty member of the school concerned shall be allowed to supervise a dissertation. If the topic of a dissertation warrants, at the most two faculty members of the same School may be allowed to supervise a dissertation/project work. Considering the interdisciplinary nature of the work involved a faculty from other School and/or from industry/corporate organization active in the area in which the work is being carried may be allowed, to be associated as a co-supervisor.
- 18.2.2 The Faculty Coordinator(s) shall, in consultation with the Dean concerned, finalize the topic for dissertation along with the name(s) of the supervisor(s) at the beginning of Semester VI. For this purpose, the coordinator shall take into account the relevance of the topic on which the candidate proposes to work. However, the Coordinator may, ifhe considers it necessary or expedient, ask a student to carry out dissertation on a topic other than the topic proposed by the student and/or under a supervisor other than the one under whom the student proposed to carry out his/her dissertation.
- 18.2.3 Midcourse alteration/ modification in the scope of dissertation would need explicit approval from the Dean of the School. The coordinator shall prepare a list comprising the names of the students, topic allotted to each of them along with the name of the supervisor(s) and submit it to the Dean.

- 18.2.4 A certificate in the prescribed format to the effect that the dissertation carried out by the student independently or in collaboration with other student(s) issued by the Supervisor(s) concerned and endorsed by the Faculty Coordinator concerned, shall form the part of the submission for evaluation.
- 18.2.5 Every student who spends a specified period in an industry/organization/institute for reasons of work related to his/her dissertation, with prior permission from the Faculty Coordinator concerned will explicitly acknowledge working in the relevant industry/organization/institute.
- 18.2.6 The dissertation should typically be between 30 to 50 pages. Students are required to submit their dissertation in the VI Semester within the specified timeframe. If a student fails to submit the dissertation by the deadline, they will be assigned a placeholder grade 'I' in cases of exceptional circumstances, such as medical emergencies or the death of an immediate family member. In all other cases, a grade of 'F' will be awarded. The student will be required to repeat the dissertation in the appropriate semester of the following academic session, provided that other regulations allow for the continuation of their studies at the University.
- 18.2.7 The student shall submit to Program Coordinator one printed soft bound copy of his/her dissertation.
- 18.2.8 An Assessment Committee constituted by the Dean / Director/ HOD of the School comprising internal and external membersshall conduct Viva-Voce on dissertation.
- 18.2.9 The Evaluation components for dissertation and the respective weightages are detailed in Table 5:

Table - 5						
Dissertation Evaluation Components and Weightage						
Evaluation	Weightage (of the total marks)					
Components						
Dissertation Report	50 %					
Supervisor	20%					
Evaluation and						
Feedback						
Viva-Voce	30 %					

#### 18.3 Social Immersion Project

The objective of a Social Immersion Project is to sensitize and inculcate commitment to social and environmental issues and make a contribution through service and experiential learning. The outcome is to produce graduates who are sensitized and committed to serving the social and environmental needs of society. The Social Immersion Project is a 1-credit course involving 15 hours of engagement, which may be completed either in one continuous session or through periodic intervals with one or more organizations. The student is required to complete this during the 6th Semester of the Program. The nature and details of the Social Immersion Project shall be approved by the concerned Departmental Academic Committee (DAC). As per the Academic Regulations, the 'S' grade is awarded for "satisfactory completion" of the Course and 'NC' grade is awarded for "non-completion" of the Course. The student who receives the "NC" grade shall repeat the Social Immersion Project (it may be another type of Project as approved by the concerned DAC) until the concerned student secures the "S" grade in the Social Immersion Project. The "S" and "NC" grades is subject to fulfilling the requirements as stated in the course plan and do not carry grade points. Hence this is not included in the SGPA, CGPA computations.

#### 18. List of MOOC (NPTEL) Courses

The MOOC Courses list will be announced by the school at the time of Pre-Registration for the respective Semester post approval from DAC and BOS.

This would enable the students are treater understanding of the type of job roles they can	apron, detailed ailed process of at and cargo, and udents also gain and a detailed w from pre-flight derstanding how a division or as a ents in gaining a			
	greater understanding of the type of job roles they could apply for in				
	the future.	1 11 1 1 1 .			
Course Out Comes	<u> </u>				
	CO1: Identify the operational areas, processes, constraints in airside and landside (Knowledge) CO2: Discuss the process of cargo operations with documentation (Comprehension) CO3: Review the security and screening process in the entire airport at Different levels of operations (Comprehension) CO4: Recall the Airline flight operations (Knowledge)				
	CO5: State the different baggage handling procedure				
Course objective	The objective of the course is to familiarize the leconcepts of <b>Airport Operations - Advance a:</b> Development through Participative Learning technic	<b>nd</b> attain <mark>Skill</mark>			
Course					
Content:					
Module 1	Operation al Readiness	12 Sessions			
Introduction	, Aerodrome Certification, Operating constraints, O	perational areas,			
Airfield insp	ections, Maintaining readiness.				
Module 2	Cargo Operation s	12 Sessions			

The cargo market, Expediting the movement, Flow through the terminal, Unit load devices (IATA 1992,2010), Handling within the terminal, Cargo Apron Operation, Examples of modern cargo terminal design and operation, Cargo operations by integrated carriers, AWB Features and validity, Documentation

Module 3	Security and		11 sessions
Wioduic 5	and		11 303310113
	Screening		

Introduction, ICAO framework of International Regulations, Annex 17 standards, Airport security program, Passenger screening, carryon baggage search and screening, Check-in baggage search and screening, Freight and cargo search and screening, Access control within and throughout airport buildings, Access Control of Entire Airport

Module 4 Airline flight operation s	essions

Flight crew scheduling, Flight crew Sign-in, Operations/ Planning, Pre-flight, Pre-departure, Gate departure, Taxi-out, Takeoff, Terminal Area Departure, Climb, Cruise, Descent, Terminal area arrival, Final approach, Landing and Rollout, Taxi in, Parking, Post-flight, Sky Marshal Briefing

Module 5	Baggage Handling			10 Sessions
----------	---------------------	--	--	-------------

Introduction, History and trends in baggage handling, Bag drop, Flight build and aircraft loading, Arrivals Reclaim, Interterminal Transfers

**Targeted Application & Tools that can be used:** PPT, Videos and board & Chalk Method

# Project work/Assignment: Mention the Type of Project/Assignment proposed for this course:

- 5. Refer to the research paper assigned from the PU library and analyse the critical factors responsible for the issues mentioned in the paper. (Kindly note: Student should visit PU library and access the online resources for the same and incorporate the assignment as well as attach the photo of log in and log out in person in the end of the assignment file.)
- 6. Experiential learning: Visit to Bangalore Airport/Jakkur Aerodrome

	the concepts of Basics of Excel and attain Skill							
	Development through Experiential Learning.							
Course Content:								
	Basic					45		
Module 1	<b>Function</b> of					15		
	Excel					Sessi	uns	
	Excel							

Topics: Excel Introduction - An overview of the screen, navigation and basic spreadsheet concepts , Various selection techniques , Shortcut Keys. Customizing Excel , Customizing the Ribbon , Using and Customizing AutoCorrect , Changing Excel's Default Option. Using Basic Functions , Using Functions - Sum, Average, Max,Min, Count, Counta , Absolute, Mixed and Relative Referencing. Formatting and Proofing , Currency Format , Format Painter , Formatting Dates , Custom and

Special Formats, Formatting Cells with Number formats, Font formats, Alignment, Borders, etc., Basic conditional formatting.

	Mathematical		15
Module 2	functions in		Sessions
	Excel		363310113

Mathematical Functions - SumIf, SumIfs CountIf, CountIfs AverageIf, AverageIfs, Nested IF, IFERROR Statement, AND, OR, NOT Protecting Excel , File Level Protection , Workbook, Worksheet Protection Text Functions , Upper, Lower, Proper , Left, Mid, Right , Trim, Len, Exact , Concatenate , Find, Substitute. Date and Time Functions , Today, Now ,Day, Month, Year , Date, Date if, DateAdd , EOMonth, Weekday

Advanced Paste Special Techniques , Paste Formulas, Paste Formats , Paste Validations , Transpose Tables

N. 4. 1. 1. 0	<b>Excel</b> chart		25
Module 3	and functions		Sessions

Excel charts and functions - New Charts, Auto complete a data range and list, Quick Analysis Tool , Smart Lookup and manage Store. Sorting and Filtering, Filtering on Text, Numbers & Colors , Sorting Options. Printing Workbooks , Setting Up Print Area , Customizing Headers & Footers , Designing the structure of a template, Print Titles -Repeat Rows / Columns.

Topics: Project on mathematical functions using excel.

**Targeted Application & Tools that can be used:** PPT, Videos and board & Chalk Method

Project work/Assignment: Mention the Type of Project/Assignment proposed for this course:

Course Code: BAV3008	Course Title: Aviation Maintenance Management	L-T - P- C	3	0	0	3
Version No.	1.0	ı				
Course Pre- requisites	Basic Communica Basics of Aviation					
Anti- requisites	Nil					
Course Descriptio n	The course provides detailed and in-depth information about how aviation maintenance works. Students would learn about types of maintenance planning, how to plan to forecast, and how phased checks must be planned. This course emphasizes maintenance and production planning control in aviation, which is one of the key areas to explore for students who wish to have a successful career in the aviation sector.					
Course Out Comes	On successful completion of the course the students shall be able to: CO1: Discuss the Definitions, Goals, and Objectives of Maintenance (Comprehension) CO2: List out the various documentation process (Knowledge) CO3: Illustrate the various process involved in Production Planning and Control (Application) CO4: Demonstrate the Line Maintenance Operation (Application) CO5: Discuss the process of Quality Assurance & Quality Control (Comprehension)					
Course objective	The objective of concepts of <b>Avia</b> Development thr	tion Maint	enance	Manage	ement and	attain <mark>Skill</mark>

Course				
Content:				
Module 1	Definitio ns, Goals, and Objective s			9 Sessions
Definitions	of Importar	nt Terms	in Maintenance,	Inherent Reliability, MCC
	-		nal Checks with Or	•

Course Pre- requisites	<ul><li>Knowledge of research</li><li>Basic Concepts of Statistics</li></ul>	and M	⁄Iathe	ematics		
Anti-requisites	Nil					
Course Description	COURSE DESCRIPTION: Introduction to research provides the importance of research in creating and extending the knowledge base of one's subject area to distinguish between the strengths and limitations of different research approaches regarding one's subject/research area.					
Course Out Comes	On successful completion of the course the students shall be able to:					
	CO1: Explain the research process. (UNDERSTAND)					
	CO2: Differentiate between research variables (UNDERSTAND)					
	CO3: Summarize Scaling Techniques (UNDERSTAND)					
	CO4: Differentiate between sampling and non-sampling errors (UNDERSTAND)					
	CO5: Determine the relationship between variables (APPLY)					
	CO6: Examine the steps involved (APPLY)	in dr	aftin	g a rese	arch re	port

Course	This course is designed for <b>SKILL DEVELOPMENT</b> of the						
Objective	learner by using Experiential Learning Techniques of Class						
	Presentation and Case Study.						
<b>Course Content:</b>							
Module 1	Introduction to research		11 Sessions				

Research: Meaning, Objectives, Types, Approaches- Qualitative and Quantitative, Significance, Research Process, Criteria of good research; Challenges faced by Researchers.

Research problem, selecting the problem.

# Module 2 Research design and scaling 10 Sessions

Research Design: Meaning, need, features. Dependent variables, independent variables, moderator variables, mediating variables, extraneous variables, categorical variables.

Classification of measurement scales: nominal, ordinal, interval and ratio scales; Goodness of measurement scales: validity, reliability, practicality and accuracy; Sources of error in measurement. Scaling techniques.

Module 3	Data	Collection	and	10 Sessions
Module 3	Samplin	ng		10 568810118

Sources of data- primary and secondary data, methods of primary data collection, sources of secondary data.

Sampling design, sample size, determining optimal sample size, sampling techniques, probability Vs. non-probability sampling methods, sampling and non-sampling errors.

Module 4	Questionnaire	Designing		10 Sessions
1VIOGGIC I	and Data Analy	ysis		10 Sessions

Questionnaire, Types of questionnaires, Questionnaire design procedure, type of questions: open-ended, closed ended; criteria for designing questions; questionnaire structure. Questionnaire Vs. Schedule. Pilot testing, administering.

Data Analysis: Univariate Analysis: Mean Comparisons, t-test and One-way ANOVA; Bi-variate analysis: Cross tabulations, Chi-square test, correlation and regression.

Module 5	Research	Reporting	and		10 Sessions
	Modern	<b>Practices</b>	in		
	Research				

Research Report Writing: Importance, Essentials, Structure/ layout, Types. References and Citation Methods: APA (American Psychological Association), CMS (Chicago Manual Style), MLA (Modern Language Association), Footnotes and

Bibliography. Modern Practices: Ethical Norms in Research, Plagiarism, Role of Computers in Research.

Lecture: All Modules

**Discussion:** All Modules

**Self-learning:** Philosophy of Social Science Research

**Assignments:** Case study: Implication of Qualitative Research Methods <a href="https://presiuniv.knimbus.com/user#/viewDetail?searchResultType=ECATALOGUE\_BASED&unique\_id=DOAB\_1\_06082022\_20245">https://presiuniv.knimbus.com/user#/viewDetail?searchResultType=ECATALOGUE\_BASED&unique\_id=DOAB\_1\_06082022\_20245</a>

The course uses a variety of sessions and work methods so that students can acquire the knowledge outlined in the program. The sessions are divided into lecture and discussion methods. Classroom discussion on all the topics will be primarily through academic writing. Class presentations and class participation will make lectures more interactive. Course objectives and the evaluation process also motivates the methodology adopted. Students are expected to read the circulated material and cases before the topic is discussed in the classroom.

*Teaching and Learning Methods:* Lecture, Discussion, Focus Groups, Socratic, Inquiry Based, Cooperative, Demonstration, Hands on Training Sessions, Laboratory Practicals and Self Learning.

Evaluation Methods: Open Book Tests, Assignments, Peer Evaluation, Closed Book Examination.

Course Code: BSE1020	Course Title: Data Analysis using software	L-T- P-C	2	0	2	3	
Version No.	1.0	1		'			
Course Pre- requisites	Knowledge of Statistical Technique	Knowledge of Statistical Techniques					
Anti-requisites	NA						
Course Description	students to generate and process data rel	Statistical programming with E views and SPSS will enable the students to generate and process data related to their study and visualize and analyze impact and interrelationships of variables considered.					
Course Objective	CO1. Understanding with the toolbox of statistical software. CO2. Capacitating students in analyzing complex information with the help of statistical software – Statistical Package for Social Sciences (SPSS) CO3. A strong theoretical and empirical foundation in statistical analysis. CO4: Understand the procedure for analysing the data The objective of the course is to familiarize the learners with the concepts of Fundamentals of Business Analytics and attain Skill Development through Experiential Learning techniques.						
<b>Course Content:</b>							
Module 1	Introduction to SPSS			15 Sess	ions	3	
SPSS Environment: data editor, output viewer, syntax editor – Data view window – SPSS Syntax – Data creation – Importing data – Variable types in SPSS and Defining variables – Creating a Codebook in SPSS.							

Module 2	<b>Working with Data</b>		15
			Sessions

Computing Variables - Recoding (Transforming) Variables: Recoding Categorical String Variables using Automatic Recode - Rank Cases - Sorting Data - Grouping or Splitting Data.

Module 3 Exploring Data 15 Sessions

Descriptive Statistics for Continuous Variables - The Explore procedure - Frequencies Procedure - Descriptives - Compare Means - Frequencies for Categorical Data.

Module 4 Analysing Data 10 Sessions

Inferential Statistics for Association: Pearson Correlation, Chi-square Test of Independence – Inferential Statistics for Comparing Means: One Sample t Test, Paired-Samples T Test, Independent Samples T Test, One-Way ANOVA.

## **DELIVERY PROCEDURE (PEDAGOGY):**

Lecture - All Modules 1,2,3,4 & 5

Participative learning: All Modules 1,2,3,4 & 5

Course Pre- requisites	Basic Comm Basic Knowl	unication edge of cabin cr	ew depart	men	t		
Anti-	Nil						
requisites							
Course Description	Airline industrial planning. The revenue mar maintain a h	The course provides detailed and in-depth information about the Airline industry concerning fleet management, scheduling, and route planning. This course emphasizes how staff management affects revenue management in airlines and practices followed by airlines to maintain a healthy balance in income and revenue management. It provides in-depth information about supply and demand in air transportation					
Course Out Comes	On successful completion of the course the students shall be able to: CO1: Recognize the importance of Supply and Demand for Air Transport (Comprehension) CO2: Interpret various types of Airline Industries. (Comprehension) CO3: Illustrate Flight Schedule and Crew management. (Application)						
	CO4: Analyze Pricing and Revenue Management. (Knowledge) CO5: Demonstrate excellent Route Planning. (Application)						
Course objective	The objective of the course is to familiarize the learners with the concepts of Airline and cabin crew management and attain Skill Development through Participative Learning techniques.						
Course							
Content:		T					
Module 1	Supply and demand of air transport.					12 5	Sessions

Passenger Segmentation, Operational Requirement of Trained Cabin Crew Force, Route & Fleet Expansion, Increased Air Foot Fall, Fleet Assignment.

Module 2	The airline		12 Sessions
Wiodule 2	industry		12 365510115

Birth of Aviation, Types of Aviation, Evolution of the Airline Industry, Airline Planning Process, Necessity & Importance of Flight Attendants in the Airline Industry for the Safety & Security of the Civilians.

	Flight		
	Schedule		
Module 3	and Crew		11 sessions
	Managem		
	ent		

Flight Schedule Development, Crew Rostering, Flight Duty Time Limitations, Crew Pairing, Standby Crew Requirements, Aircraft Swapping during IROP Scenario with the limitation of Crew Certifications.

	Pricing		
	and		
Module 4	Revenue		10 sessions
	Managem		
	ent		

Revenue management components, Revenue Management Product Characteristics, Revenue Management in Air Freight, Regulation & De-Regulation of Prices, Network Inventory & Allocation, Future of Revenue Management.

Generic Route Structures, Point to Point, Linear, Hub and Spoke, Hub and Spoke Variation, Hub Airport Requisites.

**Targeted Application & Tools that can be used:** PPT, Videos and board & Chalk Method

## Project work/Assignment: Mention the Type of Project/Assignment proposed for this course:

- 23. Refer to the research paper assigned from the PU library and analyze the critical factors responsible for the issues mentioned in the paper. (Kindly note: Student should visit PU library and access the online resources for the same and incorporate the assignment as well as attach the photo of log in and log out in person in the end of the assignment file.)
- 24. Review Scholar article analyzing the factors affecting revenue management in aviation.

## HR SPECIALIZATION COURSES

Course Code: BBA3011	Course Title: Industrial Relation and Labor LawsL-T-P-C3003				
Version No.	2.0				
Course Pre-	Knowledge of Human Resource Management				
requisites	Knowledge of Industrial relation as a function of HRM				
Anti-requisites	Nil				

Course Description	The course will enable the students to understand the provisions and practices of Industrial relations in line with significance of industrial relations from an organization perspective. Course is conceptual in nature and will give an overview of various industrial relations laws, importance of adherence to these laws and benefits of practicing the same for better industrial relations. Students can gain knowledge about various policies introduced by the government for improved industrial relations and various amendments in the act in light of changing trends in the industry					
Course Out Comes						
Course objective	of <b>Industria</b>		o familiarize the learn  Labor Laws and a  ng techniques.	_		
Course Content:	tinough two					
Module 1	Industrial Relation			10 Sessions		
System/Principles	s of a good Major Stakeh	IR/Essentials of olders of IR, Issue	stics of a good l good IR, Scope, Sig es and Challenges of i	nificance/Need and		
Module 2	Wage code			10 Sessions		
		948, Trade Union	s Act, 1926, Industria			
Topics: The Factories Act 1948, Trade Unions Act, 1926, Industrial Disputes Act 1947–Meaning of Industrial Dispute, Causes, Forms/Types, Consequences/Effects, Methods of Settling Industrial Disputes (Arbitration, Joint Consultations, Works Committee, Conciliation, Adjudication etc), Concepts Related to Industrial Disputes (Relevant Examples): Strike, Layoff, Lockout, Retrenchment, Meaning of Grievances, Causes of Grievances, Guidelines for Grievance Handling, Grievance Redressal Procedure in India., trends in industrial code.						
Module 3	Code on social security			10 Sessions		
	_		num Wages Act, 1948,	, Payment of Bonus		
Module 4	Industrial relation code	Luiation, recent tr	ends in wage system	10 Sessions		

## **Topics**

Employees' Provident Funds and Miscellaneous Provisions Act, 1952, Employees' State Insurance Act, 1948, Maternity benefit act 1961, , Paternity benefit act, Payment of gratuity 1972, provisions for gig workers, latest trends in social security code

Targeted Application: HR manual

Tools that can be used: MS office, MS excel

## Project work/Assignment:

Prepare report on collective bargaining - refer E resources

Experiential learning: Present based on interaction with a corporate employee about industrial relation practices in the company

Course Pre-	Knowledge of Human Resource Management				
requisites	Knowledge of compensation as a part of Human Resource				
1	Management				
Anti-	Nil				
requisites					
Course	Course will enable the students to understand the concepts of				
Description	compensation and its relevance from business perspective. The				
	course is conceptual in nature and will enhance students'				
	knowledge about various traditional and modern practices of				
	compensation methods in adherence to the government policies on				
	compensation. Students will be able to have a better understanding				
	about designing a compensation policy in line with skills sets of				
	employees and marketed standards in various business operate.				
Course Out	On successful completion of the course, the student shall be able to:				
Comes	CO1: Describe the basic concepts of compensation management				
	(Knowledge)				
	CO2: Outline the traditional and modern methods of compensation				
	management (Comprehension)				
	CO3: Discuss the framework compensation decisions				
	(Comprehension) CO4: Discuss the trends employee compensation				
	(Comprehension)				
	Completioning				
Course	The objective of the course is to familiarize the learners with the				
objective	concepts of <b>Compensation Management and</b> attain				
	Employability through Participative Learning techniques.				
Course					
Content:					
	Introduction				
	to 10				
Module 1	compensatio				
	n Sections				
	management				
Topics:	Compensation meaning, nature of compensation,				
	ensations, features of effective compensation policy, compensation				
approaches,	compensation- base to pay, individual Vs team				
1	ptions of pay Fairness, legal aspects of compensation management,				
recent trends ir	n compensation management .				
M. 1.1.0	Techniques 10				
Module 2	of Sessions				
	compensatio				

		n			
		management			
Topics:	Bases	for Traditional	Pay System and M	Iodern Pay System - Est	tablishing

Topics: Bases for Traditional Pay System and Modern Pay System - Establishing Pay Plans - Aligning Compensation Strategy with HR Strategy and Business Strategy - Seniority and Longevity Pay - Linking Merit Pay with Competitive Strategy - Incentive Pay - Person Focus to Pay - Team Based Pay.

Module 3	Framework		/	
	for			10
	compensatio			Sessions
	n			Sessions
	management			

Topics: Variable Pay and Executive Compensation: Strategic reasons for Incentive plans, administering incentive plans, Individual incentive plans-Piecework, Standard hour plan, Bonus, Merit Pay, Group incentive plans- Team compensation, Gain sharing incentive Plans

.

Module 4	Trends in	
	compensatio	10
	n	Sessions
	management	

Topics: Trends in compensation management : **Employee Benefits Management:** Components – Legally Required Benefits – Benefits Administration –
Employee Benefits and Employee Services – Funding Benefits Through VEBA –
Costing the Benefits – Components of Discretionary Core Fringe Compensation –
Designing and Planning Benefit Program – ESOP, Totally Integrated Employee
Benefit Program

Targeted Application: Preparation of pay slip, salary structure

Tools that can be used: MS office, MS excel

Project work/Assignment:

Preparation of salary slip, designing compensation policy

Refer to the research paper assigned from the PU library and analyse the critical factors responsible for the issues mentioned in the paper. (Kindly note: Student should visit PU library and access the online resources for the same and incorporate the assignment as well as attach the photo of log in and log out in person in the end of the assignment file.)

Experiential learning: Presentation on Compensation planning

Course Pre-	Basic knowledge of Business Analytics						
requisites	Understandin Knowledge ab	g about foundation co	oncepts of	Hun	nan re	esourc	ces
Anti-	Nil	J					
requisites							
Course Description	This course provides an insight towards having an analytical perspective knowledge, skills, and competencies to address human capital. It introduces the central concepts of people orientated analytics and via hands-on exercises, builds skills and competencies around the management, analysis and representation of data. The subject explores how analytics helps managers to address both tactical and strategic level human capital issues.						
Course	The objective	of the course is to far	miliarize t	he le	arner	s with	n the
objective	,			ain		loyab	
	through <b>Partic</b>	cipative Learning tec	<mark>hniques.</mark>				
Course Out Comes	CO1: Discuss the foundations of analytics and its relatedness with HR process (Knowledge) CO2: Demonstrate HR analytics and visualization using MS excel (Comprehension) CO3: Demonstrate predictive and prescriptive analytics (Application) CO4: Interpret the data to draw inferences for decision making in Human resources (Application)						
Course Content:							
	Introduction					10	
Module 1	to business						sions
	analytics					Sess	510115
Topics: Business analytics, Meaning and scope, understanding business analytics, History and growth of business analytics, advantages and challenges, Application of analytics in different domains of management, levels of Business analytics.HR analytics – evolution, scope, application and challenges, Ethics in HR analytics, future of HR analytics. HR metrics – types, application and exercises – HR planning, Training and development, Staffing, Payroll, Performance Appraisal							
Module 2	Descriptive analytics in HR					10 Sess	sions

Topics: Key excel functions – VLOOKUP, INDEX, SUMIF, AVERAGEIF, COUNTIF, etc. Creation of HR dashboards, story boarding. Pivot table, charts and tables, slicers.

,			
Module 3	Predictive and prescriptive analytics in HR		10 Sessions

HR data visualization – Data mapping, Scatter chart, bar charts, data merging and blending, use of Big data in data visualization

	Advanced		10
Module 4	HR		١
	analytics		Sessions

Correlation analysis, regression analysis, Multiple regression analysis Paired Ttest, Factor analysis, HR modelling, decision tree, learning curve, sensitivity analysis, Cluster analysis ( VOS viewer )

**Targeted Application & Tools that can be used:** Data analysis using MS Excel, SPSS

#### **Project work/Assignment:**

Assignment I : interact with people from industry to understand the benefits and challenges of using HR analytics . write a report based on research reviews of HR analytics – Refer E resources.

Experiential learning : Solve problems of HR metrics using MS Excel, PSPP, SPSS, Power Bi

## Teaching Pedagogy:

The course uses a variety of sessions and work methods so that students can acquire the knowledge outlined in the program. The sessions are divided into lecture and discussion methods. Classroom discussion on all the topics will be primarily through academic writing. Class presentations and class participation will make lectures more interactive. Course objectives and the evaluation process also motivates the methodology adopted. Students are expected to read the circulated material and cases before the topic is discussed in the classroom.

Teaching and Learning Methods: Lecture, Discussion, Focus Groups, Socratic, Inquiry Based, Cooperative, Demonstration, Hands on Training Sessions, Laboratory Practicals and Self Learning.

Evaluation Methods: Open Book Tests, Assignments, Peer Evaluation, Closed Book Examination.

Targeted Application and Tools: IBM SPSS, Tableau.

Course Description	The course is conceptual in nature and will help the students to gain detailed insights about foreign direct investment, recent policies and opportunity for investments in international business.						
Course Out Comes	On successful completion of the course the studer able to:	On successful completion of the course the students shall be able to:					
	CO1: Describe the concepts of Foreign Direct Inve	estment					
	CO2: Explain the regulatory framework of FDI						
	CO3: Summarize the impact of FDI policies on H country	ome and Host					
	CO4: Apply the FDI strategies for business development						
Course objective	The objective of the course is to familiarize the learners with the concepts of <b>Foreign Direct Investment and</b> attain Employability through Participative Learning techniques.						
Course Content:							
Module 1	Introduction to Foreign Direct Investment	11 Sessions					

Topics: Overview of Foreign Direct Investment- Definition and Types of FDI (Greenfield Investment, Brownfield Investment, Mergers & Acquisitions), Historical Context and Evolution of FDI, Importance of FDI in the Global Economy. Theories and Models of FDI, The Eclectic Paradigm (OLI Model), Internalization Theory, Product Life Cycle Theory, Market Imperfections Theory. Drivers and Determinants of FDI- Economic Factors (Market Size, Economic Stability, Growth Potential), Political and Legal Environment, Infrastructure and Technological Factor, Labor Market Conditions. Global Patterns and Trends in FDI- Regional Distribution of FDI, Sectoral Distribution of FDI, Emerging Markets and FDI, Recent Trends and Future Prospects

Module 2	The Regulatory		10
Wiodule 2	and		Sessions
	Institutional		

Framework of		
FDI		

Topics: National Policies and Regulations- FDI Policies and Incentives, Entry and Operational Requirements, Restrictions and Performance Requirements, International Investment Agreements, Bilateral Investment Treaties (BITs), Multilateral Investment Agreements, Role of the World Trade Organization (WTO) in FDI. Role of International Organizations in FDI- United Nations Conference on Trade and Development (UNCTAD), International Monetary Fund (IMF), World Bank and International Finance Corporation (IFC). Investment Promotion Agencies and Their Functions- Role and Importance of Investment Promotion Agencies (IPAs), Strategies for Attracting FDI, Success Stories and Best Practices

Module 3	Impact of FDI on Host and Home Countries			10 Sessions
----------	---	--	--	----------------

Topics: Economic Impact of FDI- Impact on Economic Growth and Development, Job Creation and Employment Effects, Technology Transfer and Innovation. Social and Environmental Impact of FDI- Social Benefits and Challenges, Environmental Considerations and Sustainability, Corporate Social Responsibility (CSR) in FDI. Political and Cultural Impact of FDI- Influence on Political Stability and Governance, Cultural Exchange and Adaptation, Managing Cross-Cultural Challenges. FDI and Development- FDI in Developing and Transition Economies, Role of FDI in Poverty Reduction, FDI and Sustainable Development Goals (SDGs)

Module 4	Strategies and Management		10 Sessions
	of FDI		363310113

Topics: Strategic Considerations for Multinational Enterprises (MNEs)- Entry Strategies (Wholly Owned Subsidiaries, Joint Ventures, Strategic Alliances), Location Strategy and Site Selection, Risk Management in FDI. Managing Foreign Subsidiaries- Organizational Structure and Control Human Resource Management in MNEs, Cross-Cultural Management and Communication. Performance Measurement and Evaluation of FDI- Financial Performance Metrics, Operational and Strategic Performance, Impact Assessment and Reporting. Future Trends and

Challenges in FDI- Digital Transformation and FDI, Geopolitical Risks and FDI, Sustainable and Responsible Investment Trends

Course Objective	The objective of the course concepts of Emerging techniques.	nologies	in logi	istics aı	nd Suppl	y Chain

Course Content:			
Module 1	Introduc tion to Logistics 4.0		10 sessions

Topics: The concept of Logistics 4.0- Nature, Characteristics, Comparison with Industry 3.0. The future of logistics industry- Logistics 4.0 and technological applications - Introduction to Internet of things, CPS-Internet of Services(IoS) - Smart Factories-Big Data-Marketplace analysis for e-commerce, Managing Digital Business Infrastructure, E-environment and Factors Driving E-Business. Different Models of IOT. Logistics 4.0 and Emerging Trends

Module 2    E   Procure   ment   and E   Logistics   10 ses	ssions
---	--------

Topics: IPA/RPA-process automation in purchasing and supply management-nature, characteristics, applications and technological challenges, E- Logistics Technologies Advance Ship Notice (ASN), Tracking systems, Satellite global positioning systems (GPS) and geographic information systems (GIS), Bar-coding and scanning, Digital Signature Technology, Wireless Technology – Radio Frequency Identification and Detection (RFID), -Digital Technology in Delivery-Drones, Unmanned Aerial Vehicles, Smart Forklifts, Pallet Movers, Crane - Assistance system for use across the distribution system-infobroker-integration portal-sensor based production information platform..

Unlocki ng	
Module 3   digital   10 session   10 session	ns

Topics: Intelligent Container - Emergence of new Containers in Cold Chain - Conc of new Containers - Impacts

of new containers on cold chain – growth potential for controlled atmosphere contai Digital Supply Chain –

Principles for driving technology in the supply chain – Case Study on Cool Chain Lo – The banana Chain.

Module 4	Creating Resilient Supply Chains			10 sessions
----------	---	--	--	-------------

Topics: Concept of Resilient Supply Chain, Principles of Designing a Resilient Supply Chain, Physical Features of a Resilient Supply Chain, Relationships within

a Resilient Supply Chain, Risk Compensation and Business Continuity. Latest updates in Resilient Supply Chain.

apaates min	comence supply	TIGHT.	
	Innovati		
	ve		
Module 5	Supply		
	Chain		10 sessions
	Technol		
	ogy		
	Tools		

Data science – Quality Control – Real-Time Deployment – Warehouse Efficiency – Predictive Strategies – Inventory, Supply, Demand Management, Tightening KPI – Reverse Management. Autonomous Mobile Robots – Truck Collaboration – Distributed Inventory – Driverless Vehicle and Drone Delivery – 3D Printing – Machine Learning Predictive tools – Fish bowl inventory – Real-time data simulator.

Targeted Application & Tools that can be used: Nil

	CO 2: Explain the modern conten	nporary p	our	chasin	g prac	tices.
	CO 3: Highlight the introduction	to inven	tory	man	ageme	nt and
	how demand analysis is					
	performed in SCM.					
	CO 4: Explain how the inventor	y plannir	ng a	nd fo	recasti	ng are
	performed in SCM.					
	CO 5: Analyze the recent trends in purchasing and inventory management.					

Course objective	The objective of the course is to familiarize the learners with the concepts of <b>Purchase and Inventory Management and</b> attain <b>Employability</b> through <b>Participative Learning techniques.</b>				
Course					
Content:  Module 1	Overview of purchase and inventory Management			10 sessions	
or Buy or outsou - Global tender	Overview - Purchasing Organizations - Ethical and Professional standards - Make or Buy or outsourcing - Pricing impact - Purchasing Cycle - Vendor Analysis - Global tenders - Negotiations - Contracts / Purchase Orders - Purchasing practice by class of materials - Contract Management				
Module 2	Purchasing Strategies			10 sessions	
performance mea	surement - Publi egies - Evaluatio	c Buying - Purcha on of Purchasing	e measurement - asing & Forecasting Function - Moder	Techniques	
Module 3	Inventory Management			10 sessions	
	Inventory - Typ		Objectives - (	Concept of	
Effects of excess	s inventory on	business - Prod	and controlling stouct Classification  uct Handling Grou	- Demand	
Module 4	Module title		-	10 sessions	
Costs associated with inventories - Forecasting - Inventory Control - Replenishment of Inventory - Inventory Management Systems - Materials Requirement Planning (MRP) - Works in Process Inventories - Finished goods Inventories - Inventories with Suppliers - Spare Parts Inventories - Warehouse and Inventory Operations - Accounting for Inventories					
Module 5	Recent trends in purchase and inventory management			10 sessions	

Warehouse Information, Decision Making Using Warehouse Information, ICT Applications in a Warehouse - Technology Aids in Retail Warehouse Management: Introduction, Objectives, Bar Code Scanners, Wireless LAN, Mobile Computers, Radio Frequency Identification (RFID) - Cloud based Technologies for Purchasing and Inventory Planning.

**Targeted Application & Tools that can be used:** PPT, Videos and board & Chalk Method

Project work/Assignment: Mention the Type of Project/Assignment proposed for this course:

- 33. Case study analysis on purchase and inventory management practices of the company
- 34. Class presentation on best practices in purchase and inventory management

Course Code: BBE3009	Course Title: Quality Management L-T - 3 0 3					
Version No.	1.0					
Course Pre-	Knowledge of Management					
requisites	Understand the importance of quality as a part of					
	Management domain					
Anti-requisites	Nil					
Course Description	This course emphasizes the importance of Quality management in all areas or segments of business and organizations. Students develop and specialize on various approaches to Quality and problem-solving methodology using Quality tools and also learn current practices in the field of Quality management systems.					
Course Out Comes	On successful completion of the course, the student shall be able to:  CO 1. Describe the concept of quality and best practices (Knowledge)  CO 2. Explain the factors leading to cost of quality (Comprehension)  CO 3. Discuss various quality management tools (Comprehension)  CO 4. Relate the advancement in technology with Quality Management (Application)					
Course objective	The objective of the course is to familiarize the learners with the concepts of Quality Management and attain Employability through Participative Learning techniques.					
Course Content:						
Module 1	Introduction 10 sessions					

Topics: Importance & relevance of Quality in management – History – Dimensions of quality – Evolution of Total quality principles. Quality practices: KAIZEN, KANBAN, JIT.

	Quality	
Module 2	practices	10
	1	
	and cost of	sessions
	quality	

Topics: Quality standards – ISO, Indian standards, Quality Audit, KAIZEN, KANBAN, JIT, –Cost of quality – Discretionary cost: Prevention – Appraisal – Consequential cost: Internal failure – External failure. Quality differentiation strategies, Quality strategic planning. COPQ- Cost of poor quality

	Quality		10
Module 3	control		sessions
	systems		565510115

Topics: Management tools for quality, tools for quality planning. Process Design & control., Fishbone diagram, Pareto chart, Lean quality manufacturing and Six sigma (DPMO).

	Quality		
	teams and		10
Module 4	recent trends		
	in quality		sessions
	management		

Topics: Importance of teams in TQM – Types of teams – Principles of empowerment – role of quality leader. Ethical values in quality. Implementing TQM – culture change required. Establishment of effective quality communication system. Introduction to e-QMS - Meaning & Steps in implementation of e-QMS. Remote Audits, Shared supplier audits. Quality management software – Types, Features, Benefits & Challenges.

Targeted Application: Application of quality practices Tools that can be used: MS office, MS excel, PowerPoint

Project work/Assignment: Presentation on Fish bone analysis

Present based on interaction with a corporate employee about quality management practices in the company

Version No.	1.0	1-0							
Course Pre- requisites	Knowledge of Supply chain Management								
Anti-requisites	Nil								
Course Description	This is a theory course that aims at providing insights to the students about practices of warehouse management, role of warehouse in managing a business and impact of technological advancement on practices of warehouse management. Post completion of the course students will be able to gain conceptual insights of warehouse management.								
Course Out Comes	On successful completion of the course the students shall be able to: CO 1: Describe the relatedness between warehouse and Supply chain management. (Remember) CO2: Explain the role of warehousing in Retail. (Understand) CO3: Summarize the practices of warehousing operations (Understand) CO 4: Illustrate the impact of technological advancement on warehouse management (Apply)								

Course objective	The objective of the course is to familiarize the learners with the concepts			
	of warehouse management and attain Employability through Participative			
	Learning techniques.			
<b>Course Content:</b>				
	Supply Chain			
Module 1	and 10 sessions			
	Warehousing			
Topics: Introduction, Objectives, Supply Chain Impact on Stores and Warehousing, Retail				
The state of the s				

Logistics, Retail transportation, Issues in retail logistics.

	Role of		
Module 2	Warehousing		10 sessions
	in Retail		

Topics: Introduction, Objectives, Retailing and Warehousing, Challenges in retail warehousing, Warehousing in fashion retail, Setting up a warehouse, Retail product tracking in warehouse using RFID, Types of warehouses, Benefits of warehousing, Role of government in warehousing, Characteristics of an ideal warehouse, Storing products in a warehouse, Warehousing — the way forward, Warehousing and Supply Chain.

	Strategic	
Module 3	Aspects of	
	Warehousing,	10
	Warehouse	10 sessions
	and its	
	Operations	

Topics: Introduction, Objectives, Different Types of Customers in Warehousing, Importance of Warehouse in a Value Chain, Warehouse Location, Modern Warehouse Operations, Worldclass Warehousing. Introduction, Objectives, Warehouse Structure, Warehouse Operations, Receiving inventory, Picking inventory, Locating inventory, Organising inventory, Despatching inventory, Equipment Used for a Warehouse.

N/- 11- 4	Warehouse		10
Module 4	information		10 sessions

Introduction, Objectives, Importance of Warehouse Information, Decision Making Using Warehouse Information, ICT Applications in a Warehouse Technology Aids in Retail warehouse Management Introduction, Objectives, Bar Code Scanners, Wireless LAN, Mobile Computers, Radio Frequency Identification (RFID)

Targeted Application: Application of quality practices Tools that can be used: MS office, MS excel, PowerPoint
