#### PART A - PROGRAM REGULATIONS

#### 1. Vision & Mission of the University and the School / Department

#### 1.1 Vision of the University

To be a Value-driven Global University, excelling beyond peers and creating professionals of integrity and character, having concern and care for society.

#### 1.2 Mission of the University

- Commit to be an innovative and inclusive institution by seeking excellence in teaching, research and knowledge-transfer.
- Pursue Research and Development and its dissemination to the community, at large.
- Create, sustain and apply learning in an interdisciplinary environment with consideration for ethical, ecological and economic aspects of nation building.
- Provide knowledge-based technological support and services to the industry in its growth and development.
- To impart globally-applicable skill-sets to students through flexible course offerings and support industry's requirement and inculcate a spirit of new-venture creation.

#### **1.3.** Vision Statement of Presidency School of Commerce and Economics

To become a value-based, business-based Commerce and Economics School dedicated to creating a positive impact on commerce, the economy and society.

#### 1.4 Mission Statement of Presidency School of Commerce and Economics

- Equip students with the knowledge, skills, and abilities to succeed in the world of commerce.
- Empower students to make proactive decisions in the face of economic and business-related challenges.
- Sensitize students to embrace lifelong learning in a technology-enabled environment.
- Foster strategic alliances with industry and academia for research and its practical application.
- Instil entrepreneurial and leadership skills to address social, environmental and community needs.

#### 2. Preamble to the Program Regulations and Curriculum

This is the subset of Academic Regulations, and it is to be followed as a requirement for the award of BBA degree.

The Curriculum is designed to take into the factors listed in the Choice Based Credit System (CBCS) with focus on Internship, Dissertation and Social Immersion project to enable the students to become eligible and fully equipped for employment in industries, choose higher studies or entrepreneurship.

In exercise of the powers conferred by and in discharge of duties assigned under the relevant provision(s) of the Act, Statutes and Academic Regulations of the University, the Academic Council hereby makes the following Regulations.

#### 3. Short Title and Applicability

- a. These Regulations shall be called the Bachelor of Business Administration Degree Program Regulations and Curriculum 2022-2025.
- b. These Regulations are subject to, and pursuant to the Academic Regulations.
- c. These Regulations shall be applicable to the ongoing Bachelor of Business Administration Degree Programs of the 2022-2025 batch, and to all other Bachelor of Business Administration Degree Programs which may be introduced in future.
- d. These Regulations shall supersede all the earlier Bachelor of Business Administration Degree Program Regulations and Curriculum, along with all the amendments thereto.
- e. These Regulations shall come into force from the Academic Year 2024-2025.

#### 4. Definitions

In these Regulations, unless the context otherwise requires:

- *a.* "Academic Calendar" means the schedule of academic and miscellaneous events as approved by the Vice Chancellor;
- b. "Academic Council" means the Academic Council of the University;
- c. "Academic Regulations" means the Academic Regulations, of the University;
- d. "Academic Term" means a Semester or Summer Term;
- e. "Act" means the Presidency University Act, 2013;
- f. "AICTE" means All India Council for Technical Education;
- *g.* "Basket" means a group of courses bundled together based on the nature/type of the course;
- h. "BOE" means the Board of Examinations of the University;
- *i.* "BOG" means the Board of Governors of the University;
- *j.* "BOM" means the Board of Management of the University;
- k. "BOS" means the Board of Studies of a particular Department/Program of Study of the University;
- *l. "CGPA" means Cumulative Grade Point Average as defined in the Academic Regulations;*

- *m.* "Clause" means the duly numbered Clause, with Sub-Clauses included, if any, of these Regulations;
- *n.* "COE" means the Controller of Examinations of the University;
- o. "Course In Charge" means the teacher/faculty member responsible for developing and organising the delivery of the Course;
- *p. "Course Instructor" means the teacher/faculty member responsible for teaching and evaluation of a Course;*
- *q.* "Course" means a specific subject usually identified by its Course-code and Course-title, with specified credits and syllabus/course-description, a set of references, taught by some teacher(s)/course-instructor(s) to a specific class (group of students) during a specific Academic Term;
- r. "Curriculum Structure" means the Curriculum governing a specific Degree Program offered by the University, and, includes the set of Baskets of Courses along with minimum credit requirements to be earned under each basket for a degree/degree with specialization/minor/honours in addition to the relevant details of the Courses and Course catalogues (which describes the Course content and other important information about the Course). Any specific requirements for a particular program may be brought into the Curriculum structure of the specific program and relevant approvals should be taken from the BOS and Academic Council at that time.
- *s.* "DAC" means the Departmental Academic Committee of a concerned Department/Program of Study of the University;
- t. "Dean" means the Dean / Director of the concerned School;
- u. "Degree Program" includes all Degree Programs;
- v. "Department" means the Department offering the degree Program(s) / Course(s) / School offering the concerned Degree Programs / other Administrative Offices;
- w. "Discipline" means specialization or branch of B.Tech. Degree Program;
- *x.* "HOD" means the Head of the concerned Department;
- *y.* "L-T-P-C" means Lecture-Tutorial-Practical-Credit refers to the teaching learning periods and the credit associated;
- z. "MOOC" means Massive Open Online Courses;
- aa. "MOU" means the Memorandum of Understanding;
- bb. "NPTEL" means National Program on Technology Enhanced Learning;
- cc. "Parent Department" means the department that offers the Degree Program that a student undergoes;
- dd. "Program Head" means the administrative head of a particular Degree Program/s;
- *ee. "Program Regulations" means the Bachelor of Business Administration Degree Program Regulations and Curriculum, 2022-2025;*
- ff. "Program" means the Bachelor of Business Administration (BBA.) Degree Program;

- gg. "PSOC&E" means the Presidency School of Commerce and Economics;
- hh. "Registrar" means the Registrar of the University;
- *ii. "School" means a constituent institution of the University established for monitoring, supervising and guiding, teaching, training and research activities in broadly related fields of studies;*
- *jj. "Section" means the duly numbered Section, with Clauses included in that Section, of these Regulations;*
- kk. "SGPA" means the Semester Grade Point Average as defined in the Academic Regulations;
- *Il. "Statutes" means the Statutes of Presidency University;*
- *mm. "Sub-Clause" means the duly numbered Sub-Clause of these Program Regulations;*
- nn. "Summer Term" means an additional Academic Term conducted during the summer break (typically in June-July) for a duration of about eight (08) calendar weeks, with a minimum of thirty (30) University teaching days;
- oo. "SWAYAM" means Study Webs of Active Learning for Young Aspiring Minds.
- pp. "UGC" means University Grants Commission;
- qq. "University" means Presidency University, Bengaluru; and
- rr. "Vice Chancellor" means the Vice Chancellor of the University.

#### 5. Program Description

The Bachelor of Business Administration Program Regulations and Curriculum 2022-2025 are subject to, and, pursuant to the Academic Regulations. These Program Regulations shall be applicable to the ongoing Bachelor of Business Administration Degree Program, abbreviated as (BBA) of 2022-2025 offered by the Presidency School of Commerce and Economics (PSOC&E).

5.1 These Program Regulations shall be applicable to other similar programs, which may be introduced in future.

5.2 These Regulations may evolve and get amended or modified or changed through appropriate approvals from the Academic Council, from time to time, and shall be binding on all concerned.

5.3 The effect of periodic amendments or changes in the Program Regulations, on the students admitted in earlier years, shall be dealt with appropriately and carefully, so as to ensure that those students are not subjected to any unfair situation whatsoever, although they are required to conform to these revised Program Regulations, without any undue favour or considerations

#### 6. Minimum and Maximum Duration

6.1 Bachelor of Business Administration Degree Program is a Three-Year, Full-Time Semester based program. The minimum duration of the BBA. Program is three (03) years and each year comprises of two academic Semesters (Odd and Even Semesters) and hence the duration of the BBA program is six (06) Semesters.

- 6.2 A student who for whatever reason is not able to complete the Program within the normal period or the minimum duration (number of years) prescribed for the Program, may be allowed a period of two years beyond the normal period to complete the mandatory minimum credits requirement as prescribed by the concerned Program Regulations and Curriculum. In general, the permissible maximum duration (number of years) for completion of Program is 'N' + 2 years, where 'N' stands for the normal or minimum duration (number of years) for completion of the concerned Program Regulations and Program as prescribed by the concerned Program Regulations and Curriculum.
- 6.3 The time taken by the student to improve Grades/CGPA, and in case of temporary withdrawal/re-joining (Refer to Clause **Error! Reference source not found.** of A cademic Regulations), shall be counted in the permissible maximum duration for completion of a Program.
- 6.4 In exceptional circumstances, such as temporary withdrawal for medical exigencies, where there is a prolonged hospitalization and/or treatment, as certified through hospital/medical records, female students requiring extended maternity break (certified by registered medical practitioner), and, outstanding sportspersons representing the University/State/India requiring extended time to participate in National/International sports events, a further extension of one (01) year may be granted on the approval of the Academic Council.
- 6.5 The enrolment of the student who fails to complete the mandatory requirements for the award of the concerned Degree (refer Section 19.Error! Reference source not f ound. of Academic Regulations) in the prescribed maximum duration (Sub-Clauses 18.1 and 18.2 of Academic Regulations), shall stand terminated and no Degree shall be awarded.

#### 7 Programme Educational Objectives (PEO)

After three years of successful completion of the program, the graduates shall be:

PEO1. Demonstrate innovative skills, moral ethical values as successful business administrator.

PEO2. Engage in lifelong learning through higher studies and professional development.

PEO3. Serve the society as creative and effective entrepreneur.

#### 8 Programme Outcomes (PO) and Programme Specific Outcomes (PSO)

#### 8.1 Programme Outcomes (PO)

On successful completion of the Program, the students shall be able to:

**PO1.** Integrate functional knowledge and apply managerial skills in improving business environment.

**PO2.** Identify various management function problems in different management functions and solve through strategic planning, critical thinking and innovation.

**PO3.** Effectively communicate with different stakeholders.

**PO4.** Realize and follow professional and ethical principles.

**PO5.** Demonstrate commitment to continuous learning.

PO6. Function in multidisciplinary teams.

PO7. Desire to go for higher education in business administration.

#### 8.2 Program Specific Outcomes (PSOs):

On successful completion of the Program, the students shall be able to:

**PSO1.** Apply a significant amount of knowledge in the domains like HR management, Marketing, Supply chain & Logistics management and Business Analytics.

PSO2. Support their family business.

PSO3. Start a new entrepreneurial journey

#### 9 Admission Criteria

The University admissions shall be open to all persons irrespective of caste, class, creed, gender or nation. The admission criteria to the BBA Program is listed in the following Sub-Clauses:

- 9.1 An applicant who has successfully completed Pre-University course or Senior Secondary School course (+2) or equivalent such as (11+1), 'A' level in Senior School Leaving Certificate Course, with a minimum aggregate of 40% marks, from a recognized university of India or outside or from a Senior Secondary Board or equivalent, constituted or recognized by the Union or by the State Government of that Country, for the purpose of issue of qualifying certificate, on successful completion of the course, may apply for and be admitted into the Program.
- 9.2 Reservation for the SC / ST and other backward classes shall be made in accordance with the directives issued by the Government of Karnataka from time to time.
- 9.3 Admissions are offered to Foreign Nationals and Indians living abroad in accordance with the rules applicable for such admission, issued from time to time, by the Government of India.

- 9.4 Candidates must fulfil the medical standards required for admission as prescribed by the University.
- 9.5 If, at any time after admission, it is found that a candidate had not in fact fulfilled all the requirements stipulated in the offer of admission, in any form whatsoever, including possible misinformation and any other falsification, the Registrar shall report the matter to the Board of Management (BOM), recommending revoking the admission of the candidate.
- 9.6 The decision of the BOM regarding the admissions is final and binding.
- 10. Transfer of student(s) from another recognized University to the 2<sup>nd</sup> year
  - (3rd Semester) of the BBA Program of the University

A student who has completed the 1<sup>st</sup> Year (i.e., passed in all the Courses / Subjects prescribed for the 1<sup>st</sup> Year) of the BBA Three-Year Degree Program from another recognized University, may be permitted to transfer to the 2<sup>nd</sup> Year (3<sup>rd</sup> Semester) of the BBA Program of the University as per the rules and guidelines prescribed in the following Sub-Clauses:

- 10.1 The student shall submit the Application for Transfer along with a nonrefundable Application Fee (as prescribed by the University from time to time) to the University no later than July 10 of the concerned year for admission to the 2<sup>nd</sup> Year (3<sup>rd</sup> Semester) BBA Program commencing on August on the year concerned.
- 10.2 The student shall submit copies of the respective Marks Cards / Grade Sheets / Certificates along with the Application for Transfer.
- 10.3 The transfer may be provided on the condition that the Courses and Credits completed by the concerned student in the 1<sup>st</sup> Year of the BBA Three Degree Program from the concerned University, are declared equivalent and acceptable by the Equivalence Committee constituted by the Vice Chancellor for this purpose. Further, the Equivalence Committee may also prescribe the Courses and Credits the concerned students shall have to mandatorily complete, if admitted to the 2<sup>nd</sup> Year of the BBA Program of the University.
- 10.4 The Program allotted to the student concerned shall be the decision of the University and binding on the student.

#### 11. Change of Program

A student admitted to a particular Program of the BBA Program will normally continue studying in that Program till the completion of the program. However, the University reserves the right to provide the option for a change of Program, or not to provide the option for a change of Program at the end of 1st semester of the degree to eligible students in accordance with the rules framed by the University from time to time.

- 11.1 Normally, only those students, who have passed all the Courses prescribed for the 1<sup>st</sup> Semester of the degree Program and obtained a CGPA of not less than 6.00 at the end of the first Semester, shall be eligible for consideration of a change of program.
- 11.2 Change of Program, if provided, shall be made effective from the commencement of the 2nd Semester of the Degree Program. There shall be no provision for change of Program thereafter under any circumstances whatsoever.
- 11.3 The student(s) provided with the change of program shall fully adhere to and comply with the Program Regulations and Curriculum of the concerned Program, the Fee Policy pertaining to that Program, and, all other rules pertaining to the changed Program existing at the time.
- 11.4 Change of program once made shall be final and binding on the student. No student shall be permitted, under any circumstances, to refuse the change of program offered.
- 11.5 The eligible student may be allowed a change in Program, strictly in order of inter se merit, subject to the conditions given below:
  - 11.5.1 The actual number of students in the second semester in any particular program to which the transfer is to be made, should not exceed the sanctioned strength by more than 5%, and,
  - 11.5.2 The actual number of students in any program from which transfer is being sought does not fall below 75% of the total sanctioned intake.
  - 11.5.3 The process of change of program shall be completed on the first five(5) days of the Registration for the 2nd Semester.
- 12 Specific Regulations regarding Assessment and Evaluation (including the Assessment Details of NTCC Courses, Weightages of Continuous Assessment and End Term Examination for various Course Categories)

- **12.1** The academic performance evaluation of a student in a Course shall be according to the University Letter Grading System based on the class performance distribution in the Course.
- **12.2** Academic performance evaluation of every registered student in every Course registered by the student is carried out through various components of Assessments spread across the Semester. The nature of components of Continuous Assessments and the weightage given to each component of Continuous Assessments (refer Clause 12.5 of Academic Regulations) shall be clearly defined in the Course Plan for every Course, and approved by the DAC.
- **12.3** Format of the End-Term examination shall be specified in the Course Plan.
- **12.4** Grading is the process of rewarding the students for their overall performance in each Course. The University follows the system of Relative Grading with statistical approach to classify the students based on the relative performance of the students registered in the concerned Course except in the following cases:
  - Non-Teaching Credit Courses (NTCC)
  - Courses with a class strength less than 30

Absolute grading method may be adopted, where necessary with prior approval of concerned DAC.

Grading shall be done at the end of the Academic Term by considering the aggregate performance of the student in all components of Assessments prescribed for the Course. Letter Grades (refer Clause **Error! Reference source not found.** of A cademic Regulations) shall be awarded to a student based on her/his overall performance relative to the class performance distribution in the concerned Course. These Letter Grades not only indicate a qualitative assessment of the student's performance but also carry a quantitative (numeric) equivalent called the Grade Point.

#### 12.5 Assessment Components and Weightage

Table 1: Assessment Components and V	Veightage for differen	nt category of	
Courses			
Nature of Course and Structure	Evaluation	Maightega	
Nature of Course and Structure	Component	Weightage	
Lecture-based Course	Continuous	50%	
L component in the L-T-P Structure is	Assessments	50%	
predominant (more than 1)	End Term		
(Examples: 3-0-0; 3-0-2; 2-1-0; 2-0-2, 2-0-4		50%	
etc.)	Examination		
Lab/Practice based Course	Continuous	75%	
Lab/Practice-based Course P component in the L-T-P Structure is -	Assessments	75%	
-	End Term		
predominant	Examination (Lab	25%	
(Examples: 0-0-4; 1-0-4; 1-0-2; etc.)	Only)		
	Guidelines for the	e assessment	
Skill based Courses like Internship,	components for the	various types	
Dissertation / Social Engagement and	of Courses, with r	recommended	
such similar Non-Teaching Credit	weightages, shall be	e specified in	
Courses, where the pedagogy does not	the concerned	Program	
lend itself to a typical L-T-P structure	Regulations and C	Curriculum /	
	Course Plans, as app	licable.	

The exact weightages of Evaluation Components shall be clearly specified in the concerned PRC and respective Course Plan.

Normally, for Practice/Skill based Courses, without a defined credit structure (L– T–P) [NTCC], but with assigned Credits (as defined in Clause **Error! Reference s ource not found.** of the Academic Regulations), the method of evaluation shall be based only on Continuous Assessments. The various components of Continuous Assessments, the distribution of weightage among such components, and the method of evaluation/assessment, shall be as decided and indicated in the Course Plan/PRC. The same shall be approved by the respective DAC.

#### **12.6** Minimum Performance Criteria:

#### 12.6.1 Theory only Course and Lab/Practice Embedded Theory Course

A student shall satisfy the following minimum performance criteria to be eligible to earn the credits towards the concerned Course:

- a. A student must obtain a minimum of 30% of the total marks/weightage assigned to the End Term Examinations in the concerned Course.
- b. The student must obtain a minimum of 40% of the AGGREGATE of the marks/weightage of the components of Continuous Assessments, Mid Term Examinations and End Term Examinations in the concerned Course.

#### 12.6.2 Lab/Practice only Course and Project Based Courses

The student must obtain a minimum of 40% of the AGGREGATE of the marks/weightage of all assessment components in the concerned Course.

**12.6.3** A student who fails to meet the minimum performance criteria listed above in a Course shall be declared as "Fail" and given "F" Grade in the concerned Course. For theory Courses, the student shall have to reappear in the "Make-Up Examinations" as scheduled by the University in any subsequent semester, or, re-appear in the End Term Examinations of the same Course when it is scheduled at the end of the following Semester or Summer Term, if offered. The marks obtained in the Continuous Assessments (other than the End Term Examination) shall be carried forward and be included in computing the final grade, if the student secures the minimum requirements (as per Clause 12.6.1, 12.6.2 of Academic Regulations) in the "Make-Up Examinations" of the concerned Course. Further, the student has an option to re-register for the Course and clear the same in the summer term/ subsequent semester if he/she wishes to do so, provided the Course is offered.

#### 13 Additional clarifications - Rules and Guidelines for Transfer of Credits from MOOC, etc. - Note: These are covered in Academic Regulations

The University allows students to acquire credits from other Indian or foreign institutions and/or Massive Open Online Course (MOOC) platforms, subject to prior approval. These credits may be transferred and counted toward fulfilling the minimum credit requirements for the award of a degree. The process of transfer of credits is governed by the following rules and guidelines:

- **13.1** The transfer of credits shall be examined and recommended by the Equivalence Committee (Refer Error! Reference source not found. of Academic Regulations) a nd approved by the Dean - Academics.
- **13.2** Students may earn credits from other Indian or foreign Universities/Institutions with which the University has an MOU, and that MOU shall have specific provisions, rules and guidelines for transfer of credits. These transferred credits shall be counted towards the minimum credit requirements for the award of the degree.
- **13.3** Students may earn credits by registering for Online Courses offered by *Study Web* of Active Learning by Young and Aspiring Minds (SWAYAM) and National Program on Technology Enhanced Learning (NPTEL), or other such recognized Bodies/ Universities/Institutions as approved by the concerned BOS and Academic Council from time to time. The concerned School/Parent Department shall publish/include the approved list of Courses and the rules and guidelines governing such transfer of credits of the concerned Program from time to time. The Rules and Guidelines for the transfer of credits specifically from the Online Courses conducted by SWAYAM/ NPTEL/ other approved MOOCs are as stated in the following Sub-Clauses:
  - **13.3.1** A student may complete SWAYAM/NPTEL/other approved MOOCs as mentioned in Clause 13.3 of Academic Regulations and transfer equivalent credits to partially or fully complete the mandatory credit requirements of Discipline Elective Courses and/or the mandatory credit requirements of Open Elective Courses as prescribed in the concerned Curriculum Structure. However, it is the sole responsibility of the student to complete the mandatory credit requirements of the Discipline Elective Courses as prescribed by the Curriculum Structure of the Open Elective Courses as prescribed by the Curriculum Structure of the concerned Program.
  - **13.3.2** SWAYAM/NPTEL/ other approved MOOCs as mentioned in Clause 13.3 of Academic Regulations, shall be approved by the concerned Board of Studies.
  - **13.3.3** Parent Departments may release a list of SWAYAM/NPTEL/other approved MOOCs for Pre-Registration as per schedule in the Academic Calendar or through University Notification to this effect.
  - **13.3.4** Students may Pre-Register for the SWAYAM/NPTEL/other approved MOOCs in the respective Departments and register for the same Courses

as per the schedule announced by respective Online Course Offering body/institute/ university.

- 13.3.5 A student shall request for transfer of credits only from such approved Courses as mentioned in Sub-Clause 13.3.2 above.
- 13.3.6 SWAYAM/NPTEL/other approved MOOCs Courses are considered for transfer of credits only if the concerned student has successfully completed the SWAYAM/NPTEL/other approved MOOCs and obtained a certificate of successful/satisfactory completion.
- 13.3.7 successfully student who has Α completed the approved SWAYAM/NPTEL/ other approved MOOCs and wants to avail the provision of transfer of equivalent credits, must submit the original Certificate of Completion, or such similar authorized documents to the Dean/ Director/ HOD concerned, with a written request for the transfer of the equivalent credits. On verification of the Certificates/Documents and approval by the Dean/Director/HOD concerned, the Course(s) and equivalent Credits shall be forwarded to the COE for processing of results of the concerned Academic Term.
- 13.3.8 The credit equivalence of the SWAYAM/NPTEL/other approved MOOCs are based on Course durations and/or as recommended by the Course offering body/institute/university. The Credit Equivalence mapped to SWAYAM/ NPTEL approved Courses based on Course durations for transfer of credits is summarised in Table shown below. The Grade will be calculated from the marks received by the Absolute Grading Table Error! Reference source not found. of Academic R egulations.

from SWAYAM-NPTEL/ other approved MOOC Courses						
Sl. No.						
1	4 Weeks	1 Credit				
2	8 Weeks	2 Credits				
3	12 Weeks	3 Credits				

 Table 2: Durations and Credit Equivalence for Transfer of Credits

13.3.9 The maximum permissible number of credits that a student may request for credit transfer from MOOCs shall not exceed 20% of the mandatory minimum credit requirements specified by the concerned Program Regulations and Curriculum for the award of the concerned Degree.

- **13.3.10** The University shall not reimburse any fees/expense; a student may incur for the SWAYAM/NPTEL/other approved MOOCs.
- **13.4** The maximum number of credits that can be transferred by a student shall be limited to forty percent (40%) of the mandatory minimum credit requirements specified by the concerned Program Regulations and Curriculum for the award of the concerned Degree. However, the grades obtained in the Courses transferred from other Institutions/MOOCs, as mentioned in this Section (13.Error! Reference s ource not found.), shall not be included in the calculation of the CGPA.

## 14. Structure / Component with Credit Requirements Course Baskets & Minimum Basket wise Credit Requirements

The BBA Program Structure (2022-2025) has a total of 124 credits. Table 3 summarizes the type of baskets, number of courses under each basket and the associated credits that are mandatorily required for the completion of the Degree.

SL.No	Table 3	Credits
•	Structure	
	of BBA	
	Program	
1	SCHOOL CORE (SC)	36
2	PROGRAM CORE (PC)	45
3	DISCIPLINE ELECTIVE (DE)	38
4	OPEN ELECTIVE (OE)	5
	Total	124

#### 15. Minimum Total Credit Requirements of Award of Degree

A minimum of 124 credits is required to be eligible for the award of BBA degree.

## 16. Other Specific Requirements for Award of Degree, if any, as prescribed by the Statutory Bodies

- 16.1 The award of the Degree shall be recommended by the Board of Examinations and approved by the Academic Council and Board of Management of the University.
- 16.2 A student shall be declared to be eligible for the award of the concerned Degree if she/he:

- a. Fulfilled the Minimum Credit Requirements and the Minimum Credits requirements under various baskets.
- b. Secure a minimum CGPA of 4.50 in the concerned Program at the end of the Semester/Academic Term in which she/he completes all the requirements for the award of the Degree as specified in Sub-Clause a of Academic Regulations;
- c. No dues to the University, Departments, Hostels, Library, and any other such Centres/ Departments of the University; and
- d. No disciplinary action is pending against her/him.

#### 17. Practical/Skill based Courses - Internships/ Dissertation/Project Work

Practical / Skill based Courses like internship, dissertation, Social immersion project , and such similar courses, where the pedagogy does not lend itself to a typical L-T-P-C Structure as defined in Clause 5.1 of the Academic Regulations, are simply assigned the number of Credits based on the quantum of work / effort required to fulfil the learning objectives and outcomes prescribed for the concerned Courses. Such courses are referred to as Non-Teaching Credit Courses (NTCC). These Courses are designed to provide students with hands-on experience and skills essential for their professional development. These courses aim to equip students with abilities in problem identification, root cause analysis, problem-solving, innovation, and design thinking through industry exposure and project-based learning. The expected outcomes are first level proficiency in problem solving and design thinking skills to better equip BBA graduates for their professional careers. The method of evaluation and grading for the Practical / Skill based Courses shall be prescribed and approved by the concerned Departmental Academic Committee (refer Annexure A of the Academic Regulations). The same shall be prescribed in the Course Handout.

#### Internship

A student may undergo an internship for a period of 6 to 8 weeks in a company or organization during the Semester Break between 4<sup>th</sup> and 5<sup>th</sup> semester subject to the following conditions:

- **18.1.1** The Internship shall be in conducted in accordance with the Internship Policy prescribed by the School from time to time.
- 18.1.2 A student may opt for Internship in an Industry / Company/ Organization or academic / research institution of her / his choice, subject to the condition that the concerned student takes the responsibility to arrange the Internship on her / his own. Provided further, that the Industry / Company / Organization or academic / research institution offering such Internship confirms to the University that the Internship shall be conducted in accordance with the Program Regulations and Internship Policy of the School.
- **18.1.3** A student selected for an Internship in an industry / company or academic / research institution shall adhere to all the rules and guidelines prescribed in the Internship Policy of the School.
- **18.1.4** As per the Academic Regulations, 'S' grade is awarded for "satisfactory completion" of the Internship and 'NC' grade is awarded for "non-completion" of the Internship. The student who receives the "NC" grade shall repeat the Internship, until the concerned student secures the "S"

grade in the Internship . The "S" and "NC" grades is subject to fulfilling the requirements as stated in the course plan and do not carry grade points. Hence not included in the SGPA, CGPA computations.

#### 18.2 Dissertation

Every student shall, carryout dissertation under the overall supervision of the supervisor(s) during the VI semester of the program.

- 18.2.1 The dissertation offers an opportunity to the student(s) to explore a topic in depth. The dissertation would entail an investigation, together with the written report and interpretation thereof. The dissertation could either be of an exploratory type or a prescriptive type with a focus on its applicability to management situations. It may be a case study, a study of a policy problem, a historical study, development of a new method, comparison of two or more methods, formulation and testing a hypothesis relevant to some areas of management. The dissertation can also be field/library-based study or both. Normally, only a faculty member of the school concerned shall be allowed to supervise a dissertation. If the topic of a dissertation warrants, at the most two faculty members of the same School may be allowed to supervise a dissertation/project work. Considering the interdisciplinary nature of the involved a faculty from other School work and/or from industry/corporate organization active in the area in which the work is being carried may be allowed, to be associated as a co-supervisor.
- **18.2.2** The Faculty Coordinator(s) shall, in consultation with the Dean concerned, finalize the topic for dissertation along with the name(s) of the supervisor(s) at the beginning of Semester VI. For this purpose, the Coordinator shall take into account the relevance of the topic on which the candidate proposes to work. However, the Coordinator may, if he considers it necessary or expedient, ask a student to carry out dissertation on a topic other than the topic proposed by the student and/or under a supervisor other than the one under whom the student proposed to carry out his/her dissertation.
- **18.2.3** Midcourse alteration/ modification in the scope of dissertation would need explicit approval from the Dean of the School. The Coordinator shall prepare a list comprising the names of the students, topic allotted to each of them along with the name of the supervisor(s) and submit it to the Dean.
- 18.2.4 A certificate in the prescribed format to the effect that the dissertation carried out by the student independently or in collaboration with other student(s) issued by the Supervisor(s) concerned and endorsed by the

Faculty Coordinator concerned, shall form the part of the submission for evaluation.

- 18.2.5 Every student who spends a specified period of time in an industry/organization/institute for reasons of work related to his/her dissertation, with prior permission from the Faculty Coordinator concerned will explicitly acknowledge working in the relevant industry/organization/institute.
- **18.2.6** The dissertation should typically be between 30 to 50 pages. Students are required to submit their dissertation in the VI Semester within the specified timeframe. If a student fails to submit the dissertation by the deadline, they will be assigned a placeholder grade 'I' in cases of exceptional circumstances, such as medical emergencies or the death of an immediate family member. In all other cases, a grade of 'F' will be awarded. The student will be required to repeat the dissertation in the appropriate semester of the following academic session, provided that other regulations allow for the continuation of their studies at the University.
- **18.2.7** The student shall submit to Program Coordinator one printed soft bound copy of his/her dissertation.
- **18.2.8** An Assessment Committee constituted by the Dean / Director/ HOD of the School comprising internal and external membersshall conduct Viva-Voce on dissertation.
- **18.2.9** The Evaluation components for dissertation and the respective weightages are detailed in Table 5:

Table - 5Dissertation Evaluation Components and Weightage						
Evaluation	Weightage (of the total marks)					
Components						
Dissertation Report	50 %					
Supervisor	20%					
Evaluation and						
Feedback						
Viva-Voce	30 %					

#### **18.3 Social Immersion Project**

The objective of a Social Immersion Project is to sensitize and inculcate commitment to social and environmental issues and make a contribution through service and experiential learning. The outcome is to produce graduates who are sensitized and committed to serving the social and environmental needs of society. The Social Immersion Project is a 1-credit course involving 15 hours of engagement, which may be completed either in one continuous session or through periodic intervals with one or more organizations. The student is required to complete this during the 6th Semester of the Program. The nature and details of the Social Immersion Project shall be approved by the concerned Departmental Academic Committee (DAC). As per the Academic Regulations, the 'S' grade is awarded for "satisfactory completion" of the Course and 'NC' grade is awarded for "non-completion" of the Course. The student who receives the "NC" grade shall repeat the Social Immersion Project (it may be another type of Project as approved by the concerned DAC) until the concerned student secures the "S" grade in the Social Immersion Project. The "S" and "NC" grades is subject to fulfilling the requirements as stated in the course plan and do not carry grade points. Hence this is not included in the SGPA, CGPA computations.

#### 18. List of MOOC (NPTEL) Courses

The MOOC Courses list will be announced by the school at the time of Pre-Registration for the respective Semester post approval from DAC and BOS.

Version No.	2.0						
Course Pre-	General Knowledge in Business world						
requisites	Knowledge about different management processes						
Anti-requisites	Nil						
Course Description	This course provides a conceptual overview and fundamentals leading to functions of management. The students should be able to describe and discuss the elements of effective management, ii) discuss and apply the planning, organizing and control processes, iii) describe various theories related to the development of leadership skills, motivation techniques, team work and effective communication, iv) communicate effectively through both oral and written presentation. It enables the students to inculcate the management qualities like leadership and planning and organizing the activities which are assigned to them as a task. It also paves way to learn the basics of management and its functions in each and every organization from top level to lower-level management						
Course Out Comes	At the end of the course, the student shall CO 1: Describe the fundamentals of mana CO 2: Discuss the principles of pl (Comprehension) CO 3: Explain the organizing process (Co CO 4: Identify the principles of (Comprehension)	agement anning mpreher	(Know) and d	lecision-1	naking recting		

	CO 5: Summariz (Comprehension	e	ization in individuals	and groups			
Course	The objective of the course is to familiarize the learners with the concepts						
Objective:	of <mark>Management and Behavioural Practices</mark> and attain <mark>Skill Development</mark> through Participative Learning techniques.

Anti-requisites	Nil							
Course Description	Services today account for an increasing share of the gross domestic product and the employment base in most developed and developing economies. While the service sector is going through a revolution, marketing and other strategic decisions are still based on antiquated product-centric business models. Strategic thinking is being driven by outdated assumptions of what makes firms succeed in markets. This course is designed to focus on the unique marketing and management problems faced by service firms or the service arms of manufacturing firms, and develop an understanding of the strategic initiatives necessary to build world-class service organizations.							
Course Out Comes	<ul> <li>On successful completion of the course, the student shall be able to:</li> <li>CO1: Describe the factors responsible for growth of service sector (Understand)</li> <li>CO2: Examine the consumer behaviour in services (Apply)</li> <li>CO3: Identify the role of non-monetary cost in services (Analyze)</li> <li>CO4: Infer the stages in service innovation (Analyze)</li> <li>CO5: Relate the role of services in diverse sectors (Analyze)</li> </ul>							
Course Objective	of <mark>Service</mark>	The objective of the course is to familiarize the learners with the concepts						
Course Content:								
Module 1	Introductio n to Services	Group Discus	sion	class re	discussio egarding n Service	current	08 Ho	ours
Topics: Meanin Services, Service significance of s of service sector	e marketing m ervices market	nix, challenges	in serv	vices pri	cing, clas	sification	of Sei	rvices,

Nature - Features of Double Account System - Receipts and Expenditure on Capital						
Accounts – General Balance Sheet – Revenue Account – Net Revenue Account – Difference						

between single Account System and Double Account System – Replacement of an Asset – Accounts of Electricity Companies.

Module 3	Investment		Disposal of	
	Accounts		Investments	12
		Assignment	and income	Sessions
			from	000010110
			investments	

Meaning of Investments -Types or Classification of Investments. Valuation of Investments, Cost of Investments, Accounting treatment for Re-classification of Investments, Disposal of Investments and income from investments. Problems.

Module 4	Emerging Trends in Accounting	Assignment	Inflation Accounting	9 Sessions	
Digital Transformation of Accounting-Big Data Analytics in Accounting-Cloud Computing					

in accounting- - Green Accounting-Human Resource Accounting, Inflation Accounting, Database Accounting. (Theory Only).

#### **Teaching Pedagogy:**

The course uses a variety of sessions and work methods so that students can acquire the knowledge outlined in the program. The sessions are divided into lecture and discussion methods. Classroom discussion on all the topics will be primarily through academic writing and problem solving. Practical Problems solving and class participation will make lectures more interactive. Course objectives and the evaluation process also motivates the methodology adopted. Students are expected to read the circulated material and cases before the topic is discussed in the classroom.

*Teaching and Learning Methods:* Lecture, Discussion, Practical Problems (Numerical), Demonstration, and Self Learning.

*Evaluation Methods:* Open Book Tests, Assignments, Peer Evaluation, Closed Book Examination.

Targeted Application and Tools: Text Book: **1.** Arulanandam, Dr. M.A.; Raman, Dr. K.S. (2019). Advance Accountancy, Himalaya Publishing House.

Anti- requisites	Capital Budgeting Techniques				
Course Description	This course is intended to familiarize the st concepts. A business valuation provides				

	with numerous facts and figures pertaining to the actual worth or value
	of the company in terms of market competition, asset values and income
	values. The key benefits of business valuation are: Better Knowledge of
	Company Assets; Understanding of Company Resale Value; Assistance
	during Merger & Acquisitions; Obtain a True Company Value and Access
	to More Investors. With the surge in business activities, valuations have
	occupied the centre stage. Whether it is a start-up or a big corporate house,
	valuations is pervasive. Right from the setting up of the business entity,
	during its merger and acquisitions, for obtaining long-term finance from
	banks / financial institutions, winding-up and for various other business
	purposes, valuation is an integral component. The subject provides the
	students with knowledge of numerous facts and figures pertaining to the
	actual worth or value of the company in terms of market competition,
	asset values and income values. The key benefits of business valuation
	are: Better Knowledge of Company Assets; understanding of Company
	Resale Value; Assistance during Merger & Acquisitions; obtain a True
	Company Value and Access to More Investors.
Course Out	On successful completion of the course, the student shall be able to
Comes	
	<ol> <li>Explain situations where valuation is crucial, such as mergers, acquisitions, financial reporting, and investment decisions</li> <li>Describe M&amp;A transactions, including due diligence, valuation, and integration strategies.</li> <li>Apply the knowledge of relative valuation to benchmark and assess a businessia value in relation to page.</li> </ol>
	<ul><li>a business's value in relation to peers.</li><li>4. Describe market valuation methods.</li></ul>
	<ol> <li>Examine the results and understanding the implications of various</li> </ol>
	valuation approaches on the overall assessment
Course	This course is designed to develop a reservoir of knowledge on valuation
Objective:	which can assist the student in undertaking valuation assignments under
	Companies Act, 2013 including for mergers and Acquisitions based on valuation model understanding.

Anti-requisites	NIL										
Course Description	Every organization is meant to achieve pre-set goals and objectives. Well-thought-out strategies are being implemented for this purpose. Execution of these strategies assumes as much importance as formulation itself. Management control systems are designed to implement these strategies successfully. The process of implementation of the strategies and the dilemma faced by managers are the main focus of this course. It envisages strategic planning, budgeting, resource allocation, performance measurement, evaluation, and reward/ responsibility center allocation. Thus, the main objective of this course is to equip the students with the skills for effective implementation of strategies and resolving attendant problems.										
Course Out Comes	At the end of the course, the student shall be able to: CO1: Describe the concepts of Management Control (Remember)										
	CO2: Explain the practices of Strategic Planning and Management Control (Understand)										
	CO3: Examine the Management Control process (Apply)										
	CO4: Illustrate the variations in Management control (Apply)										
Course objective	The objective of the course is to familiarize the learners with the concepts of Management Control System and attain Employability through Problem solving methodologies.

Version No.	1.0					
Course Pre-	MGT 131 - Introduction to E-Commerce an	d Supply C	hair	ו Ma	nager	nent
requisites	Basic Understanding on Organizations' Pro				0	
-	Fundamental Computer Knowledge					
Anti-	Nil					
requisites						
Course	This course intends to provide the basic u	nderstandi	ng c	of su	pply o	chain
Description	modelling concepts. It provides compreher	nsive insigh	nts in	nto t	he rea	asons
	and benefits for implementing supply chai	n software	in a	n or	ganiz	ation
	for an effective supplier selection and othe	er supply c	hair	n pro	cesses	s. On
	completion of the course, the student can be	e able to de	vise	a su	pply o	chain
	model for the various supply chain process	in an orgai	niza	tion.		
		0				
<b>Course Out</b>	At the end of the course, the student shall b	e able to:				
Comes	CO 1: Explain the process of Supply chain r	nodeling. (	Und	lersta	and)	
	CO 2: Discuss the application of supply cha	in software	for	auto	matin	g the
	supply chain processes in an organization.	(Understa	nd)			0
	CO 3: Sketch the various models involved i	n inventor	y ma	anag	emen	t and
				-

Course Code: BBA3049	Course Title: Legal Aspects of E- Commerce Type of Course: Discipline Elective	3	0	3
Version No. Course Pre- requisites	1.0         Awareness of business world and the legal aspects relating to the field of E-Commerce			
Anti-requisites	Nil			

Course Description	This conceptual course provides theoretical knowledge on identifying the factors that impact the business. This course equips students with in- depth knowledge on evaluating and analyzing the relationships between Government and business and understand the political, economic, legal and social policies of the country.				
Course Out Comes	At the end of the course, the student shall be able to: C.O.1. Describe the concepts of Electronic Commerce C.O.2. Explain the contractual and security aspects related to E- commerce C.O.3. Examine the interface of Law and E-Commerce C.O.4. Illustrate the jurisdiction issues in E-Commerce C.O.5. Demonstrate the recent trends in E-Commerce				
Course objective	The objective of the course is to familiarize the learners with the concepts of E-Commerce and its interface with the Laws and attain Employability through Participative Learning techniques.				
Course Content:					
Module 1	INTRODUCTION TO ELECTRONIC COMMERCE			9 Sessions	
Electronic Comn	nerce: Historical evolution	of E-Commerce, Def	initions, Featur	es, Types of	
	dvantages & Disadvantag				
Model of E-Com	merce, UNCITRAL Mode	l on E-Commerce, Le	egal Issues of e	-commerce,	
E-Governance – I	E-Governance – Meaning, Definitions, Advantages, Principles, Challenges.				
Module 2	CONTRACT & SECURITY ASPECTS IN E-COMMERCE			8 Sessions	

**Electronic Contracts:** Meaning, Definition, Essentials of an e-contracts, Various types of e-contracts, legal validity of e-contracts Breach of Contract, Laws relating to E-contracts in India, cases on validity of E-Contracts.

**Digital Signatures:** Meaning, Definition, Legal architecture for the validity of digital signature, Security advantages of digital signatures, electronic and digital signature – Functional and procedural Issues, Characteristics of Digital Signatures, Digital signature vs. Electronic signatures

**Electronic Signatures:** Meaning, Definition, Provisions under IT Act, Certifying authorities, Issuing authorities, Public Key Infrastructure, Electronic Signature Certificate, Grant, Revocation and withdrawal of ESC.

	INTERSECTION OF	
Module 3	LAWS AND E-	8 Sessions
	COMMERCE	

**Information Technology Act, 2000:** Introduction, Objectives of IT Act, Salient Features of IT Act, Offences, Penalties

**Intellectual Property Law:** Digital copyright, linking, caching, Digital rights management, DMCA, Patents, Trademarks and domain names, Brand identities, search engines and secondary market, ICANN, Database Right – Digital Copyrights, Open Source, Software Patents, Right to forgetting

Banking Laws: Salient Features, offences and penalties

**Taxation Laws:** Problem of taxation in virtual world, OECD guidelines on taxation, Tax structure on e- commerce in India (Direct, Indirect, and VAT), EU, US practice on taxation on electronic commerce

Criminal Laws: Salient Features, offences and penalties

Data Protection Laws: Salient Features, offences and penalties

**Consumer Protection Law**: Concept of the rights of consumer, Problems of protection of consumers in virtual world, Consumer Protection Act, 1986, EC Directive on distance selling, E-commerce Directives and consumer protection

	JURISDICTION		
Module 4	<b>ISSUES IN E-</b>	8 Se	ssions
	COMMERCE		

**Jurisdiction:** Theoretical framework to address multiple jurisdictions, Application of the principles of Private International law, Hague Convention, EC Regulations (Brussels & Rome), Minimum contact test, Effect test, Zippo Test

	E- COMMERCE AND		
Module 5	COMPETITION		8 Sessions
	ISSUES		

Impacts of e- commerce in traditional market, Recent trends in E-Commerce

Project work/Assignment: Mention the Type of Project /Assignment proposed for this course

Presentation and Research paper writing on

- 1. An innovative idea in the field of E-Commerce
- 2. Article on any topic of intersection between Law and E-Commerce

# **BUSINESS ANALYTICS SPECIALIZATION**

Course Code: BBB3003	<b>Business Analyt</b>	Essential Statistics f ics e: Discipline Electiv	IPC	4	0	4
Version No.	1.0		1	1		
Course Pre-	Basic know	wledge of mathemati	cal calculatio	n		
requisites						
Anti-requisites	Nil					
Course Description	the use of statistic with an understar management pro- critical thinking in data collection various statistic	<b>COURSE DESCRIPTION:</b> The course will enable the students to learn the use of statistics in business decision making. It provides the student with an understanding of basic statistical tools, and their application in management problems and analysis. The students can develop the critical thinking and analytical skills. This course will help the student in data collection, presentation, analyses and drawing inferences about various statistical hypotheses. The course is both conceptual and				
Course Out Comes	analytical in nature and needs fair knowledge of mathematical calculation, data representation, and descriptive statistics. On successful completion of the course the students shall be able to:					
	<ul><li>CO1: Describe the applications of statistics in different fields, types of variables and data (Remember)</li><li>CO 2: Summarize the data using tables, diagrams, and graphs</li></ul>					
	(Understand) CO 3: Demonstrate sampling methods and approaches to hypothesis testing (Apply)					
	CO 4: Examine business decision	the concepts of Cer (Apply)	ntral Tenden	cy and	Dispersio	on in
	CO 5: Employ business decision	the tools of Correla n (Apply)	ition and Re	egressi	on analys	is in
Course Objective	The objective of the course is to familiarize the learners with the concepts of Essential Statistics for Business Analytics and attain Employability through Participative Learning techniques.					
Course Content:						
Module 1	Introduction To Statistics	Characteristics, Functions, Scope and Limitations	Self-Learnin	g	10 Sessi	on

Origin and Growth of Statistics, Characteristics, Functions, Scope and Limitations, Big Data-Application of big data, Challenges with big data, Variable and Types of Data, Measurement Scales-Nominal, Ordinal, Interval and Ratio; Qualitative and Quantitative Data, Individual, Discrete and Continuous Data - Cross Section, Time Series and Pooled Data – Sources of Data - Population and Samples - Descriptive Statistics and Inferential Statistics.

Module 2	Classification And Tabulation of Data, Diagrammatic and Graphical Representatio n of Data	Types of classification of Data using tables and graphs	Discussion & Presentation	8 Session
----------	--	--	------------------------------	-----------

Types of classification of Data, Tabulation, Types of Tables, Components of a Table, Frequency Distribution- Discrete Frequency Distribution, Continuous Frequency Distribution, Cumulative Frequency Distribution, Contingency Table, Stem and Leaf Plot.

Meaning and Significance of Diagrams and Graphs, Rules for Constructing Diagrams, Types of Diagrams- Simple Bar Diagram, Pareto Diagram, Multiple Bar Diagram, Percentage Bar Diagram, Pie Diagram, Pictogram. Types of Graphs-Histogram, Frequency curve, Ogive, and Box plots.

Module 3	Sampling methods and Hypothesis testing	Application Level	Discussion & Presentation	14 Session
----------	--	----------------------	------------------------------	---------------

Meaning of Sampling, Types of Sampling: Probability Sampling versus Non-Probability Sampling; Simple Random Sampling and its selection, Systematic Sampling, Multi-stage Sampling, Quota Sampling; Error: Sampling and Non-sampling.

Hypothesis Testing: Approaches to Hypothesis Testing - Confidence Interval Approach - Test of

Significance Approach and P-Value Approach- Formulation of Hypothesis - Null and Alternative -

Level of Significance - One Sided and Two-Sided Hypothesis - Type-I and Type-II Error - Test

Statistic- Critical Value - Parametric and Non-Parametric Tests.

Module 4	Measures Of Central Tendency and Measures of Dispersion	Methods of sampling	Discussion & Case Presentation	12 Session
----------	---	---------------------	-----------------------------------	---------------

Measures of Central Tendency - Arithmetic Mean, Geometric Mean, Median, Mode, Characteristics of a good statistical average Partition Measures-Quartiles, Percentiles.

Measures of Dispersion - range, quartile deviation, standard Deviation, Mean deviation, Combined Mean and Combined Standard Deviation, Relative Measures- coefficient of range, coefficient of quartile deviation and Coefficient of Variation.

Module 5	Correlation And Regression Analysis	Regression analysis	Discussion	12 Session
----------	--	------------------------	------------	---------------

Correlation- Meaning of Correlation, Types of correlation, Scatter Diagram, Karl Pearson's Correlation Coefficient.

Regression Analysis- Meaning of regression – types of regression – simple and multiple linear and non-linear regressions, Regression diagnostic.

Targeted Application & Tools that can be used: statistical software techniques and case analysis helps the understand and analysis of data and interpretations.

Course Code:		plication of Business		3	0	3		
BBA3030	Analytics	)iscipline Flective	L- P- C					
Version No.	Type of Course: Discipline Elective       1.0							
Course Pre-	Knowledge on Business Analytics							
requisites	Knowledge on Bas	sics on R-Programmir	ıg					
Anti-requisites								
Course Description	This course is Analytical in nature and Business Analytics is the science of analyzing data to find out patterns that will be helpful in developing strategies. The course is designed in such a way that it provides the candidates with holistic training to understand, study, extract, analyze, manipulate, and comprehend data to make conclusions and achieve specified data goals with the help of different software or specialized systems. The course emphasizes that business analytics is not a theoretical discipline: these techniques are only interesting and important to the extent that they can be used to provide real insights and improve the speed, reliability, and quality of decisions. The concepts learned in this class should help students identify opportunities in which business analytics can be used to improve performance and support important decisions.							
Course Out	At the end of the course, the student shall be able to:							
Comes	CO 1: Describe the Fundamentals of Business Analytics(Understand)							
	CO 2: Compute various data visualization methods used in business							
	practices. (Apply)							
	CO 3: Predict business trends based on predictive analytics used in							
	business decision making.(Appy)							
	CO 4: Prescribe the business stakeholders to optimize and achieve							
	business objectives(Apply)							
	CO 5: Construct the methodology for data processing, results							
	generation, interpr	retation and presental	tion. (Apply)	)				
Course Objective:	The objective of the course is to familiarize the learners with the concepts of Application of Business Analytics – I and attain Employability through Participative Learning techniques.							
Course Content								
Module 1	Introduction to Business Analytics	Case study	Case Study of Role of Data Scientist in		9 Ses	sions		

			Business &			
			Society.			
Concept of analyti	ics, Types of Analyt	ics, Application field	s - Marketing Analy	tics, Finance		
Analytics, HR Analytics, Operation Analytics, organization and source of data, importance						
of data quality, dealing with missing or incomplete data, Role of Data Scientist in Business						
& Society.						
Module 2	Visualization of Data	Hands on	Hands on	12		
Module 2			Practice on Plots	Sessions		
Introduction, Data summarization methods; Tables, Graphs, Charts, Histograms,						
Frequency distributions, Relative Frequency Measures of Central Tendency and Dispersion;						
Box Plot; Basic probability concepts, conditional probability, Probability distributions,						
Continuous and discrete distributions, sequential decision making.						
Module 3	Predictive	$\int dx $	Case study on	10		
	Analysis		heteroscedasticity	Sessions		

confidence, and prediction intervals. Multiple linear regression: coefficient of multiple coefficients of determination, interpretation of regression coefficients, categorical variables, heteroscedasticity, multi-collinearity, outliers, autoregression and transformation of variables

Module 4	PRESCRIPTIVE		Practical	on	10
	ANALYTICS	Hands on	Portfolio		Sessions
			Analytics.		

Testing – Retail Analytics; Simulating the future – Stock Pricing; Optimizing Complex Decisions – Salesforce analytics; Optimizing with multiple objectives – Portfolio Analytics. **Targeted Application & Tools that can be used:** 

## Module 1: Introduction to Business Analytics

**PPT:** Use PowerPoint to present concepts, types, and applications of analytics.

Videos: Share videos demonstrating the role of a Data Scientist in various industries.

**Board & Chalk:** Sketch models or concepts to explain the importance of data quality and analytics in business.

# Module 2: Visualization of Data

**PPT:** Create slides with graphs, charts, and histograms to illustrate data summarization methods.

**Videos:** Use video tutorials for hands-on practice on data plotting.

**Board & Chalk:** Teach probability concepts and decision making by drawing and solving problems on the board.

Module 3: Predictive Analysis

**PPT:** Explain linear regression and other predictive models through slides.

**Videos:** Show case studies or real-world examples of heteroscedasticity, multi-collinearity, etc.

Board & Chalk: Work through mathematical examples and interpretations.

# **Module 4: Prescriptive Analytics**

**PPT:** Use PowerPoint for teaching complex topics like Retail Analytics, Portfolio Analytics, etc.

**Videos:** Include practical simulations and industry examples.

**Board & Chalk:** Explain concepts such as optimization, stock pricing, and salesforce analytics through diagrams and equations.

# Module 5: Results Generation and Presentation

**PPT:** Guide students in choosing appropriate tools and techniques through visually appealing slides.

Videos: Provide practical insights into Decision Support Systems from concept to deployment.

Board & Chalk: Facilitate hands-on training sessions by drawing or writing on the board.

**Targeted Application** 

Module 1: Introduction to Business Analytics

**Excel:** For basics in data analysis, handling missing data, and data quality checks.

**R or Python:** Introducing programming for analytics, using R or Python for data manipulation and analysis.

# Module 2: Visualization of Data

**Tableau:** For hands-on practice in creating interactive data visualizations, charts, and dashboards.

**Power BI:** Microsoft's business analytics tool that provides interactive visualizations.

# Module 3: Predictive Analysis

**SPSS:** For regression analysis, including simple and multiple linear regression.

R or Python (Scikit-Learn package): For advanced predictive analytics techniques.

# Module 4: Prescriptive Analytics

**Solver in Excel:** For optimization problems in retail, stock pricing, etc.

**AnyLogic:** For simulating the future scenarios such as stock pricing.

# Module 5: Results Generation and Presentation

Jupyter Notebooks: For code sharing, results generation, and interpretation in Python.

**SAS Enterprise Guide:** For data processing, results generation, and decision support systems.

**DELIVERY PROCEDURE (PEDAGOGY):** 

- **Self-learning:** Role of Data Scientist in Business & Society.
- **Participative learning:** Data summarization methods
- Experiential/Project Based Learning: Portfolio Analytics

Course Pre-	Basic Communication					
requisites	Basic numeric skills					
	• Familiarity with graphs and ch	arts				
	General Knowledge in Business					
	_	s worrd				
Anti- requisites	Nil					
Course Description	This course is designed to teach the fundamentals of investments along with the analysis and performance evaluation to become successful investor. It starts from the investment introduction to the performance Evaluation of securities and portfolio. To Comprehension deeper how market works, students will be taught the stock market fundamentals. It discusses the risk return trade-offs of an investor. It also persists how investment in securities market is evaluated based on Fundamental and Technical analysis. This course will also emphasize students to learn forces that affect security market.					
Course Out Comes	On successful completion of the course the students shall be able to: CO1: Describe the basics of securities market and investment alternatives. (Remember) CO2: Compute the value of securities through models and theories. (Understand) CO3: Use the fundamental and technical analysis in selection of securities. (Apply) CO4: Identify the different components of portfolio management. (Analyze) CO5: Assess the portfolio for optimum performance and revision.					
Course objective	(Evaluate)The objective of the course is to familiarize the learners with the concepts of security analysis and portfolio management and attain employability through problem solving methodologies.					
Course Content:						
Module 1	INTRODUCTION TO SECURITYANALYSIS	Data Collecti related to ma movements.		10 cla	isses	
The Investmen	nt Environment - investment alterna	tives; securit	ies mark	ets; sec	urities	
market institutions; investment process, Financial Instruments, Markets for investments						

and Trading.	Risk and Return calculation, efficient markets: concepts and forms of market
efficiency.	

Module 2	SECURITY VALUATION	Case Study	Collection of data regarding stock	10 classes				
Equity Apolyci	is and valuations. Fo	uity valuation m	prices. odels, Relative Valuatior	Tochniquos				
1 0 0				-				
Price-earnings ratio, EPS, Price-book value ratio, Price-sales ratio, Debt to Equity Ratio,								
bond pricing and yield, returns on bonds, bond pricing theories								
Module 3	FUNDAMENTA L AND TECHNICAL ANALYSIS	Case Study	Data Collection of Equity Market.	16 classes				
Fundamental	Analysis - Econom	ic Analysis, Indu	ustry Analysis, Compa	ny Analysis.				
Technical analy	ysis- meaning, differ	ence between tech	nical and fundamental a	nalysis, Price				
	U U		rts: line chart, bar chart,	5				
	5							
point & figure	chart, Patterns: hea	id & shoulders, tr	iangle, rectangle, flag, c	up & saucer,				
double topped	, double bottomed, I	ndicators: moving	averages.					
Module 4	PORTFOLIO MANAGEMENT AND ANALYSIS	Assignment	Data Collection of Equity Market.	10 Classes				
Introduction to	Portfolio Managem	nent, Markowitz p	ortfolio theory, Capital	Asset Pricing				
	5	-	l Beta of a Portfolio, Arb	itrage Pricing				
Theory (simple	e problems), Capital	Market Line – Sec		[				
Module 5	PORTFOLIO PERFORMANCE EVALUATION	Case Study	Data Collection on portfolio performance.	10 Classes				
Portfolio perfo	rmance evaluation- H	Forecasting portfol	io performance, Sharpe 1	atio, Treynor				
and Jensen's a	nd Fama Net Selec	tivity, Applicatior	n of Portfolio Performar	nce Measures				
and Jensen's and Fama Net Selectivity, Application of Portfolio Performance Measures index.								
Targeted Application & Tools that can be used: Projective techniques and hands-on								
• • •	al-world security an		ojective techniques and	nanus-on

	Basic Knowledge of Python				
Anti- requisites	Nil				
Course Description	<b>COURSE DESCRIPTION:</b> This course is a combination of conceptual and Analytical in nature. The Objective of this course is to enable student with understanding of the concepts of Supervised and Unsupervised learning approaches in R Programming with critical evaluations. This course would pave way for the career of Data analyst and Data scientist in future for the students.				
	At the end	of the course, t	he student shall be able to	:	
	CO1: Desc	ribe the fundan	nentals of Machine Learni	ng	
Course Out	CO 2: Disc	uss the Python	Ecosystem		
Comes	CO 3: Expl	ain the Visualiz	zation of data in Machine	Learning	
	CO4: Revie	ew the data pre	paration in Machine Leari	ning	
	CO 5: Illus	trate the Machi	ne Learning Algorithms		
Course objective	of Machine	e Learning	se is to familiarize the lear for Managers articipative Learning techr	and attain	
Course Content:					
Module 1	Introduct ion to Machine Learning	Case study analysis	Applications of Machine Learning	10 sessions	
Machine Learning-Definition and Meaning; Need for Machine Learning, Why & When to Make Machines Learn; Machine Learning Model; Challenges in Machine Learning; Applications of Machine LearningPythonProgrammes and Methods for MachineModule 2Case study					
Python Program	<b>m</b> mming - Stre	engths and Wea	Learning aknesses of Python-Install	ing Python-Why	
Python for Dat	a Science-Co s, Matrix, Ar	omponents of P rrays; File Man	ython ML Ecosystem-Jup agement – Data Managem	yter Notebook- Python	
Module 3	Data     Programmes on Data				

Data Analysis - Pre-processing-Data Pre-processing Techniques-Normalization-Types of Normalization- Binarization- Standardization- Data Labelling-Principal Component Analysis (PCA).

	Data			
Module 4	Visualiz ation in	Case study	Programmes using Python	12 Sessions
	Python			

Data Visualization - Basic Plotting – Line, Scatter Plots, Bar and Pie Charts - Histogram- Box Plots, Density Plots-Box and Whisker Plots; Correlation Matrix Plot- Scatter Matrix Plot, Heat Map

Module 5	Machine Learning Algorith ms	Case study	Hands on Learning on Algorithms	12 Sessions
----------	---------------------------------------	------------	------------------------------------	-------------

ML Classification Algorithms: Logistic Regression- Support Vector Machine (SVM)-Decision Tree- Naïve Bayes- Random Forest ML Regression Algorithms: Linear Regression-Multiple Linear Regression (MLR) ML Clustering Algorithms: K-means Algorithm- Mean Shift Algorithm- Hierarchical Clustering

Targeted Application & Tools that can be used: Python tools are used DELIVERY PROCEDURE (PEDAGOGY):

- Self-learning: <u>Challenges in Machines Learning</u>; <u>Applications of Machines</u> <u>Learning</u>
- **Participative learning:** Case study in R using Pokémon Dataset
- Experiential/Project Based Learning: Kaggle Competition

Version No.	2.0			1	
Course Pre- requisites	<ul><li>Understanding about foundation concepts</li><li>Knowledge about MS excel</li></ul>	of Huma	n res	sour	ces
Anti-requisites	-Nil-				
Course Description	This course provides an insight towards h perspective knowledge, skills, and competencie capital. It introduces the central concepts of people and via hands-on exercises, builds skills and com management, analysis and representation of data how analytics helps managers to address both level human capital issues.	es to add le orientat petencies . The subj	ress ed a aro ect e	hur naly und explo	nan /tics . the ores

Course Outcome	At the end of the co	ourse, the student s	shall be able to:			
	CO1: Discuss the foundations of analytics and their applications with special reference to HR analytics CO2: Construct metrics for various HR functions CO3: Demonstrate HR analytics and visualization using MS excel CO4: Interpret and predict the data to draw inferences for decision making in Human resources					
Course objective			amiliarize the learr	ers with the		
	,		lytics and	attain		
	1		Learning techniques	•		
Course Content:						
Module 1	Introduction to Business Analytics	Case study	Case study on levels of Business Analytics	12 Sessions		
<b>Topics</b> : Business analy and growth of busine different domains of	ss analytics – Adva management – leve	ntages and Challe els of Business ana	nges – Application o lytics – HR analytic	of analytics in		
scope, application and						
Module 2	HR Metrics	Numerical	HR metrics	10 Sessions		
<b>Topics</b> : HR metrics · Staffing – Payroll – Pe			g – Training and de	evelopment –		
Module 3	Descriptive Analytics in HR	Excel functions	Excel Functions	8 Sessions		
<b>Topics:</b> Key excel fur Creation of HR dashb data visualization – D use of Big data in data	ooards – story board Data mapping – Scat	ling – Pivot table -	- Charts and Tables rts – data merging a	– slicers – HR		
Module 4	HR Analytics	solving	Correlation using SPSS	10 Sessions		
<b>Topics:</b> Correlation an T- test – Factor analys – Cluster analysis		-	0			
Targeted Applicatior can be used: Business, Managerial		erial and General	communication &	Fools that		
Teaching and learnin	<b>o aides:</b> students sl	hould have access	to the following read			

## Necessary - Laptop with MS excel, Statistical Software

Additional Resources – IBM SPSS, Tableau, VoS Viewer.

*Teaching and Learning Methods:* Lecture, Discussion, Focus Groups, Socratic, Inquiry Based, Cooperative, Demonstration, Hands on Training Sessions, Laboratory Practicals and Self Learning.

*Evaluation Methods:* Open Book Tests, Assignments, Peer Evaluation, Closed Book Examination

### Assignment/Project Work:

Group Discussion, Case Analysis, Participative Learning, Self-Learning and Practicals

#### Text Book

1. Banerjee P., Pandey J., Gupta M. (2019) Practical application of HR analytics, SAGE

### **Other Reading**

1. Camm J., Cochran J., Fry M., Ohlmann J., Anderson D., Sweeney D., Williams T., (2015) Cengage Learning

### **References / Cases**

- 1. https://youtu.be/dPxWZfAEofM (HR dashboard using powerbi)
- 2. https://youtu.be/pwmDsUTmeV0 (Key HR metrics)
- 3. https://www.youtube.com/watch?v=VBJ6WDVr4Q8 (5 HR analytics case study)
- 4. https://www.youtube.com/watch?v=HehLlx\_Gklw (HR data analysis using excel)
- 5. https://www.youtube.com/watch?v=XH3WVzR1iN8 (Excel for HR analytics)
- 6. <u>The Geeks Arrive in HR: People Analytics is Here</u> by Josh Bersin This is a great article by HR guru Josh Bersin, discussing what changed in the HR function and why People Analytics is becoming huge
- 7. <u>The Top 10 Disruptions in HR Technology: Ignore Them at Your Peril</u> by Josh Bersin Another one by Josh Bersin, giving a great overview of HR Technology
- What People Analytics Can't Capture by Daniel Goleman Not everyone agrees that people analytics is a panacea and the answer to all peoplerelated questions (neither do we, of course!). In this short article, one of the most prominent experts on emotional intelligence, Daniel Goleman, explains the limits of people analytics.
- <u>Changing HR Operating Models</u> (a collection by CIPD) Enjoy this reading on how HR is evolving by several thought leaders in the field, but make sure you read another Josh Bersin's piece which explains in more detail the four phases of HR evolution which we mention in the lectures.
- 10. Applying Advanced Analytics to HR Management Decisions: Methods for Selection, Developing Incentives, and Improving Collaboration by James Sesil (Optional) We highly recommend this book, which serves as a great overview of analytical techniques which can be used in HR and people management

- 11. <u>Putting the "Performance" Back in Performance Management</u> by Rose Mueller-Hanson and Elaine Poulakos
  - A very good overview of traditional and new performance management systems
- 12. <u>Reinventing Performance Management</u> by Marcus Buckingham and Ashley Goodall Case study on how Deloitte used analytics to reinvent performance management
- 13. https://hbr.org/2013/05/six-components-of-culture
- 14. https://hbswk.hbs.edu/item/6818.html
- 15. <u>https://www.slideshare.net/reed2001/culture-1798664</u>
- 16. https://onlinelibrary.wiley.com/doi/abs/10.1002/ert.21396

- 18. <u>https://www.payscale.com/content/PayScale\_How\_to\_Perform\_Compensation\_Be</u> <u>nchmarking.pdf</u>
- 19. https://hub.jhu.edu/magazine/2014/fall/science-of-mental-choking/
- 20. <u>How to Really Calculate the Cost of Employee Turnover</u> by Greg Willard A great article on calculating replacement costs with a step-by-step guide.
- 21. <u>Selection Assessment Tools</u> by Elaine Poulakos This is a very detailed overview of various candidate evaluation tools with examples, their strengths and weaknesses, and a comparion table on predictive power and adversity (discrimination) effects.
- 22. <u>The Validity and Utility of Selection Methods in Personnel Psychology: Practical and</u> <u>Theoretical Implications of 85 Years of Research Findings</u> by Frank Shmidt and John Hunter The original, highly cited work of Shmidt and Hunter on validity of various selection methods. The article explains how they arrived to their conclusion in very technical terms. A great read for anyone with some background in statistics.
- 23. <u>Recruiting is Marketing: The Recruiting Funnel Defined</u> by JobVite Jobvite provides a very nice infographic to explain how recruiting funnel is similar to marketing
- 24. <u>A brief article giving an example of a large consulting company altering their selection</u> <u>tools based on analytics</u>
- 25. <u>Kirkpatrick's Four-Level Training Evaluation Model</u> A short explanation how a fourlevel T&D programs evaluation work
- 26. <u>Designing and implementing training programs</u> A great piece on designing training programs for (in this case) health professionals. Very well structured. It is really applicable in any industry.

Course Description	This course examines the current leadership development of leadership theory. It stress leadership and its role in contemporary orga self-assessments of their personal leadership many activities designed to develop leadership building.	ses the nization ip skills	strategio ns. Stude and pa	c natu nts cor rticipa	re of nduct te in
Course Out Comes	<ul> <li>building.</li> <li>CO1: Distinguish the concept of leadership from the concept of management and form well-founded opinions on different theoretical approaches on leadership. (Knowledge)</li> <li>CO2: Describe Situational leadership style and its significance in the business. (Comprehension)</li> <li>CO3: Identify organizational problems related to leadership issues and to evaluate suitable</li> <li>Solutions. (Comprehension)</li> <li>CO4: Analyze the decision-making process and change management; (Comprehension)</li> <li>CO5: Assess the skills necessary to exert power and influence in a non-authoritative leadership role; and evaluate the qualities necessary to</li> </ul>				
Course Objective	effectively manage or lead in a team/group e This course is designed to improve the learne by using PARTICIPATIVE LEARNING Tech	er's SKI			

Course Content				
Module 1	Introduction to Leadership & Management	E-Resource	Quiz	10 Sessions

#### **Topics:**

Introduction to Leadership - Roles, functions and characteristics of a leader. Competencies and Skills of Leaders. Nature, Scope and Significance of Management; Management vs Leadership; Future of management, difference between a leader and a manager. Great Leaders

Module 2	Leadership Theories, Styles and Challenges	E-Resource	Role play	8 Sessions
----------	--	------------	-----------	------------

### **Topics:**

Leadership Theories and Challenges -Trait Theory, Behavioral theories, Situational Leadership, Skill-Based Leadership, Transformational Leadership, Lewin's leadership styles. Behavioral, charismatic, traditional and Situational leadership styles.

Module 3	Change Management & Emotional Intelligence in Leadership	Case study	Group Discussion	10 Sessions
----------	--	------------	------------------	-------------

#### **Topics:**

Leadership Strategies for Change, Six Leadership Styles for Change, Types of Organizational Change, Business Process Re-Engineering, Incremental Change, Technological Change, Inside and Outside Forces for Organizational Change, How Emotion and Mood Influence Behavior, Emotions in the Workplace. Organizational Implications,

Module 4	Organizational culture, Ethics and Leadership	Case analysis	Presentation	6 Sessions

#### **Topics:**

Organizational culture and ethics, The role of a leader to build organizational culture, Ethical leadership, Influence of ethical theories on organizational leadership. Women Leadership. Global Leaders.

Module 5	Team		Case	Simulation	10 Sessions
	Leadership	&	analysis	Game	
	Sources	of			
	power				
Topics:				I	

Team Leadership- Leadership and Small Group Communication, Decision-Making in Groups, The 3 Levels of High-Performance Leadership Communication, Virtual Teams: Benefits and Challenges. Power in Organisation, Six Sources of Power, Legitimate Power, Referent Power, Expert Power, Reward Power, Coercive Power, Informational Power, Power Tactics.

Targeted Application: Nil

Project work/Assignment:

Presentation on Great Leaders

Course Pre-	Basic Understanding of Management	concepts					
requisites	Basic Understanding of Production pr	ocess					
	Elementary knowledge of Statistics.						
Anti-requisites	Nil						
Course Description	<b>COURSE DESCRIPTION:</b> This paper exposes students to theoretical a well as empirical issues relating to Decision making in Planning, Contr of production and operations. After completing the given course studen will be able to understand Management functions in both manufacturir and services, impact of Information Technology and technologic advancement for up gradation of facilities and Productivity Improvement in operations.						

Course Outcomes	<ul> <li>CO1. Understand the theoretical issues relating to Planning in production and operations management.</li> <li>CO2. Evaluate and interpret the management functions in Plant location and layout in Production process.</li> <li>CO3. Identify the actions of Inventory control, and identify various productivity index and production planning control.</li> <li>CO4. Analyse production market issues through the application of</li> </ul>								
Course Objective	This course is desig understanding the	statistical data and theories. This course is designed to improve the learner's participatory learning by understanding the production and operation management in industry and also problem-solving skills by solving numerical from each module.

Course Description	digital teo services, lean start market g course d opportun examines barriers a include b	The course aims to strengthen the capabilities of participants to use disruptive digital technologies to design innovative and viable business models, processes, services, products and strategies. This course specifically focused on learning lean startup principles, how to identify potential new venture ideas that boost market growth, state customer value propositions and economic value. The course deals with the competencies needed to become an innovative, opportunity-driven, market-ready and entrepreneurial manager. This course examines successful strategies, business models, frameworks, funding process, barriers and risks for introducing break-through products and services. Topics include business model innovation, strategic leadership, human centered and design-driven innovation, creativity and change management.							sses, ning ooost The tive, ourse cess, opics

Course Code: MGT 2015	Course Title: Engineering Economics	L- P- C	2 3	0	3			
Course Pre- requisites	Students are expected to meet the core participation requirements for the course outlines. Should possess knowledge on contemporary issues of real world economic environment and be willing to understand the cost benefit analysis and a minimum of numerical orientation.							
Anti-requisites	NIL							
Course Description	The course introduces the student to the discipline of economics and its application in the field of engineering through market and cost structures. The course examines the concept of time value of money and how engineers can apply it for making economic decisions. It also explains how interest rates and different compounding periods influence the value of various capital expenditures. The course also deals with the effect of depreciation, taxes and inflation on capital expenditure decisions.							
Course Outcomes	On completion of the course the students are a CO1 : Apply the appropriate engineering problem solving CO2 : Evaluate the cost effectiveness of individe CO3 : Compare the life cycle cost of multiple decision between alternative projects CO4 : Perform ratio analysis and calculate time understand engineering project development a CO5 : Compute the depreciation of an assess its impact.	economics dual engine e projects a ne value of and report	eering pro nd make money to generatio	ijects a quan o prepa n.	titative are and			
Course Objective:	The objective of the course is to familiarize Engineering Economics and attain Entrepro Learning techniques.				-

Course Pre- requisites	<ul><li>a) Basic knowledge of Marketing Management</li><li>b) Soft Skills - Creativity, communication</li><li>c) Basic analytical ability</li></ul>					
Anti-requisites		J				
Course Description	Customer Relations have always been a key element in the pursuit of corporate goals and objectives. However, the current competitive environment fostered by liberalization and globalization of the economy, and the rising customer expectations for quality; service and value have prompted many companies to organize their business around customers they serve. The course shall cover basics of CRM processes and solutions that provide customer-oriented services for planning, developing, maintaining, and expanding customer relationships, with special attention paid to the new possibilities offered by the Internet, mobile devices, and multi-channel interaction which provides candidates the ability to analyze and assess the CRM practices in a business organization.					
Course Out Comes	At the end of the course, the student shall be able to:CO1: Explain the concepts of customer relationship management(Understand)CO2 Examine the role of customer relationship management in managing thecustomer life cycle (Apply)CO3: Analyze the role of automation in customer relationship management(Analyze)CO4: Infer the role of customer-related data in the achievement of customerrelationship management outcomes (Analyze)					
Course objective	The objective of the course is to familiarize the learners with the conceptsof CustomerRelationshipManagementandattainEmployabilitythroughParticipativeLearningtechniques.

Version No.	1.0					
Course Pre- requisites	<ul> <li>Introduction to E-Comm MGT 131 and also Supp 104.</li> </ul>			2	C	

	Basic Knowledge in Logistics and Sourcing concepts				
	• Familia	arity with grap	ohs and charts		
Anti- requisites	Nil				
Course Descripti on	This course intends to provide the comprehensive coverage on emerging technologies in logistics and supply chain management. After the completion of this course the student gets thorough insights into Logistics 4.0 and internet of things. They also get knowledge about various e-procurement and e-logistics procedures followed by various companies. This course also throws light onto some of the present disruptive technologies like block chain and finally real life cases are also discussed to make really interesting and useful to the students				
Course Out	On successful	completion of	f the course the students shall	be able to:

Course Code: BBA 2014	Course Title: Introduction to Supply Chain Management Type of Course: Discipline ElectiveL-P- C404			
Version No. Course Pre- requisites	<ul> <li>1.0</li> <li>Basic Understanding on Organizations' Production Function</li> <li>Fundamental Computer Knowledge.</li> </ul>			
	• Familiarity with graphs and charts			
Anti-requisites	Nil			
Course Description	This course intends to provide the basic understanding by providing the introduction to supply chain management concepts. This course also provides comprehensive insights on to reasons for Bull-Whip effects and suggests the measures to mitigate supply chain disruptions. By completing this course, the student must understand the fundamental concepts of supply chain management.			
Course Out Comes	On successful completion of the course the students shall be able to:			
	<b>CO 1:</b> Outline the introduction and drivers of supply chain			
	management. (Knowledge)			
	CO 2: Identify the material management flow and network			
	operations planning			
	process in supply chain management. (Comprehension)			
	CO 3: Explain demand forecasting and framework for IT			
	adaptation performed in supply Chain management.			
	(Comprehension)			
	<b>CO 4:</b> Discuss supply chain co-ordination and architecture.			
	(Comprehension)			
	CO 5: Explain the process of managing cross functional drivers			
	in supply chain and			
	certain methodologies for handling supply chain			
	disruptions. (Comprehension)			

Course Objective	The objective of the course is to familiarize the learners with the concepts of Introduction to Supply Chain Management and attain Employability through Participative Learning techniques.			
Course Content:				
Module 1	Introduction to Supply Chain Managemen t	Case study	Case Study: Subhiksha Store Operations Management.	10 Sessions
Supply Chain Dec Chain Strategies -	cisions – Process - Impellers of Su reness - Driver cing Supply Ch	s views of Supply upply Chain – Orc s of Supply Cha	ases – Objectives – Imp Chain – Competitive a ler Delivery Lead Time ain Performance - Ju	nd Supply es – Supply
