ADMISSIONS OPEN 2026 - 2027

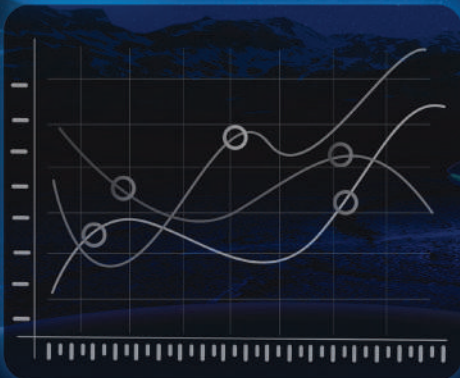

About the Program

The MBA in Fintech at Presidency University, backed by Imarticus Learning, is a cutting-edge program designed to prepare future leaders for the fast-evolving world of financial technology. With the global fintech industry projected to reach \$1.5 trillion by 2030, this program equips students with in-demand skills to thrive in the digital finance landscape.

This two-year full-time on-campus program blends finance, technology, and business strategy, covering key areas such as blockchain, AI, cloud computing, cybersecurity, digital payments, and risk management. Students gain practical expertise through capstone projects, real-world case studies, and internships with top financial firms, ensuring they are industry-ready upon graduation.

With a future-focused specialisation, hands-on industry exposure, and an industry-aligned curriculum, this program bridges the gap between theoretical knowledge and real-world fintech applications. Whether your goal is to work with global financial institutions, fintech startups, or digital payment firms, this MBA program provides the foundation for long-term success in the fintech revolution.

“Step into the future of finance with the MBA in Fintech where innovation meets opportunity!”

Program Highlights

Revolutionising Finance Education to Build Future Fintech Pioneers

Industry-relevant Curriculum

Gain in-depth knowledge of critical industry domains with hands-on exposure to advanced technologies like Cloud Computing and Cybersecurity, keeping you aligned with evolving industry trends

Practical and Case-based Learning

Enhance problem-solving and decision-making abilities through capstone projects and real-world case studies, bridging the gap between theoretical knowledge and practical application

Future-focused Specialisation

Stay ahead in the dynamic Fintech landscape by acquiring industry-ready skills and expertise through a specialised program designed to future-proof your career

Hands-on Industry Experience

Work alongside top financial firms across India as an intern, gaining invaluable real-world exposure to the challenges and innovations shaping the Fintech sector

Fintech Workshop by PwC Academy

Participate in a hands-on Fintech Workshop led by PwC Academy, offering guidance from subject matter experts and exclusive industry insights

Elevate your Career with Industry Exposure

Gain hands-on experience by interning with top-notch companies in India and experiencing real business challenges in the Fintech world

Program Outcomes

Master Core Finance

Develop a strong foundation in financial markets, investment strategies and risk management to make data-driven financial decisions.

Leverage AI & Data Analytics for Financial Decision-Making

Utilise advanced Data Analytics, AI, and Machine Learning to assess risks, optimise portfolios, and improve financial modelling.

Understand Blockchain, Cryptocurrencies & Smart Contracts

Gain expertise in Blockchain Technology, digital currencies, and decentralised finance (DeFi) to drive fintech innovation.

Develop Expertise in Digital Payments & Financial Technologies

Learn about the latest advancements in Digital Payment Ecosystems, Neo-banking, and Fintech SaaS to stay ahead in the finance industry.

Enhance Problem-Solving & Decision-Making Abilities

Strengthen critical thinking, strategic analysis, and financial modelling skills through Real-world Case Studies, Internships, and Capstone Projects.

Navigate the Evolving Regulatory & Compliance Landscape

Stay updated on global and Indian Fintech Regulations, Cybersecurity Frameworks, and Financial Compliance Laws to mitigate risks effectively.

Drive Innovation in Fintech & Entrepreneurial Finance

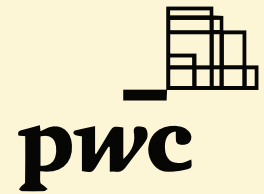

Explore fintech-driven business models and learn how to Develop, Launch, and Scale Fintech Startups or disruptive financial products.

Gain Hands-on Industry Experience & Networking Opportunities

Engage in internships, live projects, and networking events with top financial institutions, fintech startups, and technology-driven firms.

With a fintech industry projected to reach \$1.5 trillion by 2030, this program positions graduates for high-impact roles in leading global financial firms, fintech startups, and investment companies.
