23.	Course Catalogue of all Courses Listed including the Courses Offered by other School / Department and Discipline / Program Electives	25-117

PART A – PROGRAM REGULATIONS AND CURRICULUM

1. Vision & Mission of the University and the School / Department:

1.1 Vision of the University:

To be a Value-driven Global University, excelling beyond peers and creating professionals of integrity and character, having concern and care for society.

1.2 Mission of the University:

- Commit to be an innovative and inclusive institution by seeking excellence in teaching, research and knowledge-transfer.
- Pursue Research and Development and its dissemination to the community, at large.
- Create, sustain and apply learning in an interdisciplinary environment with consideration for ethical, ecological and economic aspects of nation building.
- Provide knowledge-based technological support and services to the industry in its growth and development.
- To impart globally-applicable skill-sets to students through flexible course offerings and support industry's requirement and inculcate a spirit of new-venture creation.

1.3 Vision of the School:

To inspire and develop responsible leaders who generate meaningful and lasting impact on businesses, communities, and society

1.4 Mission of the School:

Our mission is to provide students with the knowledge, skills, and ethical foundation needed to lead with integrity and drive sustainable change in business and society

2. Preamble to the Program Regulations and Curriculum

This is the subset of Academic Regulations and it is to be followed as a requirement for the award of Master of Business Administration (MBA) Degree.

The Curriculum is designed to take into the factors listed in the Choice Based Credit System (CBCS) with focus on Social Project Based Learning, Industrial Training, and Internship to enable the students to become eligible and fully equipped for employment in industries, choose higher studies or entrepreneurship.

In exercise of the powers conferred by and in discharge of duties assigned under the relevant provision(s) of the Act, Statutes and Academic Regulations of the University, the Academic Council hereby makes the following Regulations.

3. Short Title and Commencement:

- a. These Regulations shall be called the Master of Business Administration (MBA-Digital Marketing) Program Regulations and Curriculum 2025-2027.
- b. These Regulations are subject to, and pursuant to the Academic Regulations.
- c. These Regulations shall be applicable to the ongoing Master of Business Administration (MBA- Digital Marketing) Programs of the 2025-2027 batch, and to all other Master of Business Administration (MBA-Digital Marketing) Programs which may be introduced in future.
- d. These Regulations shall supersede all the earlier Master of Business Administration (MBA- Digital Marketing) Program Regulations and Curriculum, along with all the amendments thereto.
- e. These Regulations shall come into force from the Academic Year 2025-2026.

4. Definitions

In these Regulations, unless the context otherwise requires:

- a. *"Academic Calendar" means the schedule of academic and miscellaneous events as approved by the Vice Chancellor;*
- b. *"Academic Council" means the Academic Council of the University;*
- c. *"Academic Regulations" means the Academic Regulations, of the University;*
- d. *"Academic Term" means a Semester or Summer Term;*
- e. *"Act" means the Presidency University Act, 2013;*
- f. *"AICTE" means All India Council for Technical Education;*
- g. *"Basket" means a group of courses bundled together based on the nature/type of the course;*
- h. *"BOE" means the Board of Examinations of the University;*
- i. *"BOG" means the Board of Governors of the University;*
- j. *"BOM" means the Board of Management of the University;*
- k. *"BOS" means the Board of Studies of a particular Department/Program of Study of the University;*
- l. *"CGPA" means Cumulative Grade Point Average as defined in the Academic Regulations;*
- m. *"Clause" means the duly numbered Clause, with Sub-Clauses included, if any, of these Regulations;*
- n. *"COE" means the Controller of Examinations of the University;*
- o. *"Course In Charge" means the teacher/faculty member responsible for developing and organizing the delivery of the Course;*
- p. *"Course Instructor" means the teacher/faculty member responsible for teaching and evaluation of a Course;*
- q. *"Course" means a specific subject usually identified by its Course-code and Course-title, with specified credits and syllabus/course-description, a set of references, taught by some teacher(s)/course-instructor(s) to a specific class (group of students) during a specific Academic Term;*
- r. *"Curriculum Structure" means the Curriculum governing a specific Degree Program*

offered by the University, and, includes the set of Baskets of Courses along with minimum credit requirements to be earned under each basket for a degree/degree with specialization/minor/honors in addition to the relevant details of the Courses and Course catalogues (which describes the Course content and other important information about the Course). Any specific requirements for a particular program may be brought into the Curriculum structure of the specific program and relevant approvals should be taken from the BOS and Academic Council at that time.

- s. *"DAC" means the Departmental Academic Committee of a concerned Department/Program of Study of the University;*
- t. *"Dean" means the Dean / Director of the concerned School;*
- u. *"Degree Program" includes all Degree Programs;*
- v. *"Department" means the Department offering the degree Program(s) / Course(s) / School offering the concerned Degree Programs / other Administrative Offices;*
- w. *"Discipline" means specialization or program of MBA Degree Program;*
- x. *"HOD" means the Head of the concerned Department;*
- y. *"L-T-P-C" means Lecture-Tutorial-Practical-Credit - refers to the teaching - learning periods and the credit associated;*
- z. *"MOOC" means Massive Open Online Courses;*
- aa. *"MOU" means the Memorandum of Understanding;*
- bb. *"NPTEL" means National Program on Technology Enhanced Learning;*
- cc. *"Parent Department" means the department that offers the Degree Program that a student undergoes;*
- dd. *"Program Head" means the administrative head of a particular Degree Program/s;*
- ee. *"Program Regulations" means the Master of Business Administration (MBA) Degree Program Regulations and Curriculum, 2025-2027;*
- ff. *"Program" means the Master of Business Administration (MBA) Degree Program;*
- gg. *"PSOM" means the Presidency School of Management;*
- hh. *"Registrar" means the Registrar of the University;*
- ii. *"School" means a constituent institution of the University established for monitoring, supervising and guiding, teaching, training and research activities in broadly related fields of studies;*
- jj. *"Section" means the duly numbered Section, with Clauses included in that Section, of these Regulations;*
- kk. *"SGPA" means the Semester Grade Point Average as defined in the Academic Regulations;*
- ll. *"Statutes" means the Statutes of Presidency University;*
- mm. *"Sub-Clause" means the duly numbered Sub-Clause of these Program Regulations;*
- nn. *"Summer Term" means an additional Academic Term conducted during the summer break (typically in June-July) for a duration of about eight (08) calendar weeks, with a minimum of thirty (30) University teaching days;*
- oo. *"SWAYAM" means Study Webs of Active Learning for Young Aspiring Minds.*
- pp. *"UGC" means University Grants Commission;*
- qq. *"University" means Presidency University, Bengaluru; and*
- rr. *"Vice Chancellor" means the Vice Chancellor of the University.*

5. Program Description:

The Master of Business Administration (MBA- Digital Marketing) Program Regulations and Curriculum 2025-2027 are subject to, and, pursuant to the Academic Regulations. These Program Regulations shall be applicable to the following ongoing Master of Business Administration (MBA- Digital Marketing) Programs of 2025-2027 offered by the Presidency School of Management (PSOM):

1. Master of Business Administration (MBA)
 - 1.1 Master of Business Administration (FinTech)
 - 1.2 Master of Business Administration (Applied Artificial Intelligence)
2. Master of Business Administration (Business Analytics)
3. Master of Business Administration (Digital Marketing)
4. Master of Business Administration (Marketing & Finance)
5. Master of Business Administration (Banking & Finance Management)

- 5.1** These Program Regulations shall be applicable to other similar programs, which may be introduced in future.
- 5.2** These Regulations may evolve and get amended or modified or changed through appropriate approvals from the Academic Council, from time to time, and shall be binding on all concerned.
- 5.3** The effect of periodic amendments or changes in the Program Regulations, on the students admitted in earlier years, shall be dealt with appropriately and carefully, so as to ensure that those students are not subjected to any unfair situation whatsoever, although they are required to conform to these revised Program Regulations, without any undue favor or considerations:

6. Minimum and Maximum Duration:

- 6.1** Master of Business Administration (MBA- Digital Marketing) Degree Program is a Two-Year, Full-Time Semester based program. The minimum duration of the MBA- Digital Marketing Program is two (02) years and each year comprises of two academic Semesters (Odd and Even Semesters) and hence the duration of the MBA- Digital Marketing program is four (04) Semesters.
- 6.2** A student who for whatever reason is not able to complete the Program within the normal period or the minimum duration (number of years) prescribed for the Program, may be allowed a period of two years beyond the normal period to complete the mandatory minimum credits requirement as prescribed by the concerned Program Regulations and Curriculum. In general, the permissible maximum duration (number of years) for completion of Program is 'N' + 2 years, where 'N' stands for the normal or minimum duration (number of years) for completion of the concerned Program as prescribed by the concerned Program Regulations and Curriculum.
- 6.3** The time taken by the student to improve Grades/CGPA, and in case of temporary withdrawal/re-joining (Refer to Clause 16.1 of Academic Regulations), shall be counted in the permissible maximum duration for completion of a Program.
- 6.4** In exceptional circumstances, such as temporary withdrawal for medical exigencies where there is a prolonged hospitalization and/or treatment, as certified through hospital/medical records, women students requiring extended maternity break (certified by registered medical practitioner), and, outstanding sportspersons representing the University/State/India requiring extended time to participate in National/International sports events, a further extension of one (01) year may be granted on the approval of the Academic Council.
- 6.5** The enrolment of the student who fails to complete the mandatory requirements for the award of the concerned Degree (refer Section 19.0 of Academic Regulations) in the prescribed maximum duration (Sub-Clauses 18.1 and 18.2 of Academic Regulations), shall stand terminated and no Degree shall be awarded.

7. Program Educational Objectives (PEO)

After two years of successful completion of the program, the graduates shall be:

PEO1: Industry ready graduates having high integrity, social responsibility & leadership capabilities.

PEO2: Enhanced with analytical skills and design thinking approach to solve business problems.

PEO3: Able to foster entrepreneurial mind set through creativity and innovation.

PEO4: Enabled graduates to engage in and benefit from lifelong learning.

8. Program Outcomes (PO) and Program Specific Outcomes (PSO)

8.1 Program Outcomes (PO)

On successful completion of the Program, the students shall be able to:

PO1: An ability to lead themselves and others to achieve organizational goals contributing effectively to a team environment.

PO2: An ability to integrate functional knowledge and apply managerial skills in changing business environment.

PO3: An ability to identify real life problems in different management functions and solve them through strategic planning, critical thinking and innovation.

PO4: An ability to identify and evaluate business ideas and opportunities.

PO5: An ability to make data driven decisions and effectively communicate to different stakeholders.

PO6: An ability to evaluate and integrate ethical and societal considerations when making business decisions.

PO7: An ability to demonstrate commitment to continuous learning.

8.2 Program Specific Outcomes [PSOs]:

On successful completion of the Program, the students shall be able to: On successful completion of the Master of Business Administration (MBA-Digital Marketing) program from Presidency University, the student shall possess:

PSO 1: Develop and implement comprehensive digital marketing strategies that align with business objectives, leveraging various digital channels and tools to optimize reach and engagement.

PSO2: Analyse consumer behaviour in digital environments to create targeted marketing campaigns that effectively address customer needs and preferences.

PSO 3: Utilize digital analytics tools to collect, interpret, and apply data insights, enhancing campaign performance

PSO 4: Lead and manage cross-functional teams in the planning and execution of integrated digital marketing campaigns, ensuring alignment with overall business strategies.

PSO 5: Demonstrate an understanding of ethical issues and legal regulations in digital marketing, ensuring compliance with data protection, privacy laws, and advertising standards.

9. Admission Criteria (as per the concerned Statutory Body)

The University admissions shall be open to all persons irrespective of caste, class, creed, gender or nation. All admissions shall be made on the basis of merit in the qualifying examinations; provided that forty percent of the admissions in all Programs of the University shall be reserved for the students of Karnataka State and admissions shall be made through a Common Entrance Examination conducted by the State Government or its agency and seats shall be allotted as per the merit and reservation policy of the State Government from time to time. The admission criteria to the MBA Program is listed in the following Sub-Clauses:

- 9.1** An applicant must have a graduation degree in any field from a recognized university with a minimum of 50% marks in the qualifying examination for the general category or 45% marks for SC/ST and other reserved categories and must have appeared in any national or state-level entrance examination such as CAT, XAT, MAT, CMAT, ATMA, or KMAT.
- 9.2** Reservation for the SC / ST and other backward classes shall be made in accordance with the directives issued by the Government of Karnataka from time to time.
- 9.3** Admissions are offered to Foreign Nationals and Indians living abroad in accordance with the rules applicable for such admission, issued from time to time, by the Government of India.
- 9.4** Candidates must fulfil the medical standards required for admission as prescribed by the University.
- 9.5** If, at any time after admission, it is found that a candidate had not in fact fulfilled all the requirements stipulated in the offer of admission, in any form whatsoever, including possible misinformation and any other falsification, the Registrar shall report the matter to the Board of Management (BOM), recommending revoking the admission of the candidate.
- 9.6** The decision of the BOM regarding the admissions is final and binding.

10. Transfer of student(s) from another recognized University to the 2nd year (3rd Semester) of the MBA- Digital Marketing Program of the University

A student who has completed the 1st Year (i.e., passed in all the Courses / Subjects prescribed for the 1st Year) of the MBA- Digital Marketing Two-Year Degree Program from another recognized University, may be permitted to transfer to the 2nd Year (3rd Semester) of the MBA- Digital Marketing Program of the University as per the rules and guidelines prescribed in the following Sub-Clauses:

6.1

6.2

10.1.1 The student shall submit the Application for Transfer along with a non-refundable Application Fee (as prescribed by the University from time to time) to the University no later than July of the concerned year for admission to the 2nd Year (3rd Semester) MBA- Digital Marketing Program commencing on August on the year concerned.

10.1.2 The student shall submit copies of the respective Marks Cards / Grade Sheets / Certificates along with the Application for Transfer.

10.1.3 The transfer may be provided on the condition that the Courses and Credits completed by the concerned student in the 1st Year of the MBA- Digital Marketing Two Degree Program from the concerned University, are declared equivalent and acceptable by the Equivalence Committee constituted by the Vice Chancellor for this purpose. Further, the Equivalence Committee may also prescribe the Courses and Credits the concerned students shall have to mandatorily complete, if admitted to the 2nd Year of the MBA Program of the University.

10.1.4 The Program allotted to the student concerned shall be the decision of the University and binding on the student.

11. Change of Program

A student admitted to a particular Program of the MBA- Digital Marketing Program will normally continue studying in that Program till the completion of the program. However, the University reserves the right to provide the option for a change of Program, or not to provide the option for a change of Program, at the end of 1st Year of the MBA- Digital Marketing Program to eligible students in accordance with the following rules and guidelines: framed by the University from time to time.

11.1 Normally, only those students, who have passed all the Courses prescribed for the 1st Year of the MBA. Program and obtained a CGPA of not less than 6.00 at the end of the 2nd Semester, shall be eligible for consideration for a

change of Program.

- 11.2** Change of Program, if provided, shall be made effective from the commencement of the 3rd Semester of the MBA Program. There shall be no provision for change of Program thereafter under any circumstances whatsoever.
- 11.3** The student provided with the change of Program shall fully adhere to and comply with the Program Regulations of the concerned Program of the MBA Program, the Fee Policy pertaining to that Program of the MBA Program, and, all other rules pertaining to the changed Program existing at the time.
- 11.4** Change of Program once made shall be final and binding on the student. No student shall be permitted, under any circumstances, to refuse the change of Program offered.
- 11.5** The eligible student may be allowed a change in Program, strictly in order of *inter se* merit, subject to the conditions given below:
 - 11.5.1** The actual number of students in the 3rd Semester in any particular Program to which the transfer is to be made, should not exceed the intake fixed by the University for the concerned Program;
 - 11.5.2** The actual number of students in any Program from which transfer is being sought does not fall below 75% of the total intake fixed by the University for the concerned Program.
 - 11.5.3** The process of change of Program shall be completed within the first five days of Registration for the 3rd Semester of the MBA-Digital Marketing Program.

12. Specific Regulations regarding Assessment and Evaluation – including the Assessment Details of NTCC Courses, Weightages of Continuous Assessment and End Term Examination for various Course Categories

- 12.1** The academic performance evaluation of a student in a Course shall be according to the University Letter Grading System based on the class performance distribution in the Course.
- 12.2** Academic performance evaluation of every registered student in every Course registered by the student is carried out through various components of Assessments spread across the Semester. The nature of components of Continuous Assessments and the weightage given to each component of Continuous Assessments (refer Clause 0) shall be clearly defined in the Course Plan for every Course, and approved by the DAC.

12.3 Format of the End-Term examination shall be specified in the Course Plan.

12.4 Grading is the process of rewarding the students for their overall performance in each Course. The University follows the system of Relative Grading with statistical approach to classify the students based on the relative performance of the students registered in the concerned Course except in the following cases:

- Non-Teaching Credit Courses (NTCC)
- Courses with a class strength less than 30

Absolute grading method may be adopted, where necessary with prior approval of concerned DAC.

Grading shall be done at the end of the Academic Term by considering the aggregate performance of the student in all components of Assessments prescribed for the Course. Letter Grades (Clause 8.10 of Academic Regulations) shall be awarded to a student based on her/his overall performance relative to the class performance distribution in the concerned Course. These Letter Grades not only indicate a qualitative assessment of the student's performance but also carry a quantitative (numeric) equivalent called the Grade Point.

12.5 Assessment Components and Weightage

Table 12.5.1: Assessment Components and Weightage for different category of Courses

Theory Courses - Weightage - 60: 40						
Continuous Assessment* - 35%				Midterm	End term	Total
Assessment 1	Assessment 2	Assessment 3	Assessment 4			
				25%	40%	100%

Lab/CA Courses - Weightage - 75: 25					
Continuous Assessment* - 75%				End term	Total
Practice Assessment 1	Practice Assessment 2	Practice Assessment 3	Practice Assessment 4		
				Assessment & Viva 25%	100%

***Minimum 03 assessments.**

Skill based Courses like Industry Internship, Capstone project, Research Dissertation, Integrative Studio, Interdisciplinary Project, Summer / Short Internship, Social Engagement / Field Projects, Portfolio, and such similar Non-Teaching Credit Courses, where the pedagogy does not lend itself to a typical L-T-P-C structure.

Guidelines for the assessment components for the various types of Courses, with recommended weightages, shall be specified in the concerned Program Regulations and Curriculum / Course Plans, as applicable.

The exact weightages of Evaluation Components shall be clearly specified in the concerned PRC and respective Course Plan.

Normally, for Practice/Skill based Courses, without a defined credit structure (L-T-P-C) [NTCC], but with assigned Credits (as defined in Clause 5.2 of the Academic Regulations), the method of evaluation shall be based only on Continuous Assessments. The various components of Continuous Assessments, the distribution of weightage among such components, and the method of evaluation/assessment, shall be as decided and indicated in the Course Plan/PRC. The same shall be approved by the respective DAC.

12.6 Minimum Performance Criteria:

12.6.1 Theory only Course and Lab/Practice Embedded Theory Course

A student shall satisfy the following minimum performance criteria to be eligible to earn the credits towards the concerned Course:

- a. A student must obtain a minimum of 30% of the total marks/weightage assigned to the End Term Examinations in the concerned Course.
- b. The student must obtain a minimum of 40% of the AGGREGATE of the marks/weightage of the components of Continuous Assessments, Mid Term Examinations and End Term Examinations in the concerned Course.

12.6.2 Lab/Practice only Course and Project Based Courses

The student must obtain a minimum of 40% of the AGGREGATE of the marks/weightage of all assessment components in the concerned Course.

- 12.6.2.1** A student who fails to meet the minimum performance criteria listed above in a Course shall be declared as "Fail" and given "F" Grade in the concerned Course. For theory Courses, the student shall have to re-appear in the "Make-Up Examinations" as scheduled by the University in any subsequent semester, or, re-

appear in the End Term Examinations of the same Course when it is scheduled at the end of the following Semester or Summer Term, if offered. The marks obtained in the Continuous Assessments (other than the End Term Examination) shall be carried forward and be included in computing the final grade, if the student secures the minimum requirements (as per Clause 12.6.1, 12.6.2 of Academic Regulations in the "Make-Up Examinations" of the concerned Course. Further, the student has an option to re-register for the Course and clear the same in the summer term/ subsequent semester if he/she wishes to do so, provided the Course is offered.

13 Additional clarifications - Rules and Guidelines for Transfer of Credits from MOOC, etc. – Note: These are covered in Academic Regulations.

The University allows students to acquire credits from other Indian or foreign institutions and/or Massive Open Online Course (MOOC) platforms, subject to prior approval. These credits may be transferred and counted toward fulfilling the minimum credit requirements for the award of a degree. The process of transfer of credits is governed by the following rules and guidelines:

14

- 13.1** The transfer of credits shall be examined and recommended by the Equivalence Committee (Refer ANNEXURE B **Error! Reference source not found.** of Academic Regulations) and approved by the Dean - Academics.
- 13.2** Students may earn credits from other Indian or foreign Universities/Institutions with which the University has an MOU, and that MOU shall have specific provisions, rules and guidelines for transfer of credits. These transferred credits shall be counted towards the minimum credit requirements for the award of the degree.
- 13.3** Students may earn credits by registering for Online Courses offered by *Study Web of Active Learning by Young and Aspiring Minds* (SWAYAM) and *National Program on Technology Enhanced Learning* (NPTEL), or other such recognized Bodies/ Universities/Institutions as approved by the concerned BOS and Academic Council from time to time. The concerned School/Parent Department shall publish/include the approved list of Courses and the rules and guidelines governing such transfer of credits of the concerned Program from time to time. The Rules and Guidelines for the transfer of credits specifically from the Online Courses conducted by SWAYAM/ NPTEL are as stated in the following Sub-Clauses:

- 13.3.1** A student may complete SWAYAM/NPTEL/other approved MOOCs as mentioned in Clause (as per academic regulations) and transfer equivalent credits to partially or fully complete the mandatory credit requirements of Discipline Elective Courses and/or the mandatory credit requirements of Open Elective Courses as prescribed in the concerned Curriculum Structure. However, it is the sole responsibility of the student to complete the mandatory credit requirements of the Discipline Elective Courses and the Open Elective Courses as prescribed by the Curriculum Structure of the concerned Program.
- 13.3.2** SWAYAM/NPTEL/ other approved MOOCs as mentioned in Clause (as per academic regulations) shall be approved by the concerned Board of Studies and placed.
- 13.3.3** Parent Departments may release a list of SWAYAM/NPTEL/other approved MOOCs for Pre-Registration as per schedule in the Academic Calendar or through University Notification to this effect.
- 13.3.4** Students may Pre-Register for the SWAYAM/NPTEL/other approved MOOCs in the respective Departments and register for the same Courses as per the schedule announced by respective Online Course Offering body/institute/ university.
- 13.3.5** A student shall request for transfer of credits only from such approved Courses as mentioned in Sub-Clause, 13.3.2 above.
- 13.3.6** SWAYAM/NPTEL/other approved MOOCs Courses are considered for transfer of credits only if the concerned student has successfully completed the SWAYAM/NPTEL/other approved MOOCs and obtained a certificate of successful/satisfactory completion.
- 13.3.7** A student who has successfully completed the approved SWAYAM/NPTEL/ other approved MOOCs and wants to avail the provision of transfer of equivalent credits, must submit the original Certificate of Completion, or such similar authorized documents to the HOD concerned, with a written request for the transfer of the equivalent credits. On verification of the Certificates/Documents and approval by the HOD concerned, the Course(s) and equivalent Credits shall have forwarded to the COE for processing of results of the concerned Academic Term.
- 13.3.8** The credit equivalence of the SWAYAM/NPTEL/other approved MOOCs are based on Course durations and/or as recommended by the Course offering body/institute/university. The Credit Equivalence mapped to SWAYAM/ NPTEL approved Courses based on Course durations for transfer of credits

is summarized in Table shown below. The Grade will be calculated from the marks received by the Absolute Grading Table in the academic regulations.

Table 13.3.2: Durations and Credit Equivalence for Transfer of Credits from SWAYAM-NPTEL/ other approved MOOC Courses		
Sl. No.	Course Duration	Credit Equivalence
1	4 Weeks	1 Credit
2	8 Weeks	2 Credits
3	12 Weeks	3 Credits

- 13.3.9** The maximum permissible number of credits that a student may request for credit transfer from MOOCs shall not exceed 20% of the mandatory minimum credit requirements specified by the concerned Program Regulations and Curriculum for the award of the concerned Degree.
- 13.3.10** The University shall not reimburse any fees/expense; a student may incur for the SWAYAM/NPTEL/other approved MOOCs.
- 13.4** The maximum number of credits that can be transferred by a student shall be limited to forty percent (40%) of the mandatory minimum credit requirements specified by the concerned Program Regulations and Curriculum for the award of the concerned Degree. However, the grades obtained in the Courses transferred from other Institutions/MOOCs, as mentioned in this Section, shall not be included in the calculation of the CGPA.

PART B - PROGRAM STRUCTURE

14 Structure/Component with Credit Requirements Course Baskets and Minimum Basket Wise Credit Requirements:

MBA (Digital Marketing) Program Structure (2025-2027) totalling to 102 credits. Table 14.1.3 summarizes the type of baskets, number of courses under each basket and the associated credits that are mandatorily required for the completion of the Degree.

MODEL I

15. Minimum Total Credit Requirements of Award of Degree:

As per the AICTE guidelines, a minimum of 102 credits is required for the award of a Master of Business Administration (MBA- Digital Marketing) degree.

Table 14.1.3 : Master of Business Administration (MBA) Dual Specialization Program Structure 2025-2027: Summary of Mandatory Courses and Minimum Credit Contribution from various Baskets				
Sl. No.	Baskets			Credit Contribution
1	PROGRAM CORE (PC)			52
2	SPECIALIZATION TRACK (ST)	ST1	TRACK-CORE (STC1)	8
			TRACK-ELECTIVE (STE1)	12
3	PRACTICE (PR)			10
Total Credits				102
				(Minimum)

16. Other

Specific Requirements for Award of Degree, if any, as prescribed by the Statutory Bodies.

- 16.1 The award of the Degree shall be recommended by the Board of Examinations and approved by the Academic Council and Board of Management of the University.
- 16.2 A student shall be declared to be eligible for the award of the concerned Degree if she/he:
 - a. Fulfilled the Minimum Credit Requirements and the Minimum Credits requirements under various baskets;
 - b. Secure a minimum CGPA of 5.00 in the concerned Program at the end of the Semester/Academic Term in which she/he completes all the

requirements for the award of the Degree as specified in Sub-Clause a of Academic Regulations;

- c. No dues to the University, Departments, Hostels, Library, and any other such Centers/ Departments of the University; and
- d. No disciplinary action is pending against her/him.

18. Practical / Skill based Courses - Internships / Thesis / Dissertation / Capstone Project Work / Portfolio / Mini project:

Practical / Skill based Courses like internship, project work, capstone project, research project / dissertation, and such similar courses, where the pedagogy does not lend itself to a typical L-T-P-C Structure as defined in Clause 5.1 of the Academic Regulations, are simply assigned the number of Credits based on the quantum of work / effort required to fulfill the learning objectives and outcomes prescribed for the concerned Courses. Such courses are referred to as Non-Teaching Credit Courses (NTCC). These Courses are designed to provide students with hands-on experience and skills essential for their professional development. These courses aim to equip students with abilities in problem identification, root cause analysis, problem-solving, innovation, and design thinking through industry exposure and project-based learning. The expected outcomes are first level proficiency in problem solving and design thinking skills to better equip MBA post graduates for their professional careers. The method of evaluation and grading for the Practical / Skill based Courses shall be prescribed and approved by the concerned Departmental Academic Committee (refer Annexure A of the Academic Regulations). The same shall be prescribed in the Course Handout.

18.1 Internship

A student may undergo an internship for a period of 4-6 weeks in an industry / company or academic / research institution during the Semester Break between 2nd and 3rd Semesters, subject to the following conditions:

18.1.1 The Internship shall be conducted in accordance with the Internship Policy prescribed by the University from time to time.

18.1.2 The number of Internships available for the concerned Academic Term. Further, the available number of internships shall be awarded to the students by the University on the basis of merit using the CGPA secured by the student. Provided further, the student fulfils the criteria, as applicable, specified by the Industry / Company / research institution providing the Internship, as stated in Sub-Clause 2.6.1.2 above.

18.1.3 A student may opt for Internship in an Industry / Company / research institution of her / his choice, subject to the condition that the concerned student takes the responsibility to arrange the Internship on her / his own. Provided further, that the Industry / Company or academic / research institution offering such Internship confirms to the University that the Internship shall be conducted in accordance with the Program Regulations.

18.1.4 A student selected for an Internship in an industry / company or academic / research institution shall adhere to all the rules and guidelines prescribed in the Internship Policy of the University.

18.2 Dissertation

A student may opt to do a Research Project / Dissertation for a period of 6-8 weeks in an Industry / Company or academic / research institution or the University Department(s) as an equivalence of Capstone Project, subject to the following conditions:

18.2.1 The Research Project / Dissertation shall be approved by the concerned HOD and be carried out under the guidance of a faculty member.

The student may do the Research Project / Dissertation in an Industry / Company or academic / research institution of her / his choice subject to the above-mentioned condition (Sub-Clause 2.6.4.1). Provided further, that the Industry / Company or academic / research institution offering such Research Project / Dissertation confirms to the University that the Research Project / Dissertation work will be conducted in accordance with the Program Regulations and requirements of the University.

23. Course Catalogue of all Courses Listed including the Courses Offered by other School / Department and Discipline / Program Electives

**Course Catalogues of MBA (Digital Marketing) Program
1st Semester**

Course Code: QNT4111	Course Title: Applied Business Statistics		L – T – P – C	2 – 0 – 2 – 3
Version No.	1.0			
Course Pre-requisites	Basic Understanding of Statistics			
Anti-requisites	NIL			
Course Description	This course offers a foundational understanding of statistics for business applications. Topics include measures of location and variation, correlation and regression, probability concepts, and key probability distributions such as binomial, Poisson, and normal. Emphasis is placed on data analysis, interpretation, and decision-making under uncertainty using real-world business scenarios.			
Course Outcomes	<p>On successful completion of this course the students shall be able to:</p> <ul style="list-style-type: none"> • CO1: Describe the data using descriptive statistics. • CO2: Solve business related problems involving probabilities. • CO3: Solve business related problems using probability distributions. • CO4: Test hypotheses using relevant testing procedures. 			
Course Objective:	<p>The course aims to:</p> <ol style="list-style-type: none"> 1. Analyze business data using measures of central tendency, dispersion, correlation, and regression. 2. Apply probability concepts, including conditional probability and Bayes' theorem, to assess risk and uncertainty. 3. Use discrete and continuous probability distributions to support data-driven business decision-making. 			
Module 1	Measures of Location and Variation	Lecture, Tutorial	Understand	[L7 + P7 :14 Sessions]
<p>Measures of Location and Variation: Measures of Location – mean, median and mode, weighted mean and geometric mean, quartiles and percentiles, (grouped and ungrouped data) their relative merits and demerits. Measures of variation – range, interquartile range for Standard deviation, variance and coefficient of variation (grouped and ungrouped data). Dataset1 https://datahub.io/core/pharmaceutical-drug-spending#data-files Dataset2 https://datahub.io/core/s-and-p-500-companies-financials Dataset3 https://www.kaggle.com/datasets/stealthtechnologies/employee-attrition-dataset Dataset4 https://www.kaggle.com/datasets/gagandeep16/car-sales Data in the above data sets will be analyzed using Microsoft Excel/ Excel add-in Megastat</p>				

Module 2	Probability, Random Variable and Probability Distributions:	Lecture, Tutorial	Application	[L8 + P8:16 Sessions]
Introduction to Probability. Random variable – Discrete and Continuous random variable. Expected value and variance of a discrete random variable. Covariance - Applications. Probability distributions – discrete and continuous. Probability mass function and probability density functions. Discrete distributions – Binomial distribution, Poisson distribution – mean, variance and computation of probabilities. Continuous distributions -normal distribution – properties and computation of probabilities. Introduction to uniform and exponential distributions.				
Module 3	Testing of Hypothesis	Lecture, Tutorial	Application	[L8 + P8:16 Sessions]
Concept of population, sample, parameter and statistic. Introduction to sampling distributions. Hypothesis - Null and alternative hypothesis. Type I and Type II errors, level of significance. Test for single mean – (Z and t test). Test for single proportion. Test for two means (Z and t test) paired t test. Test for single and two variances (Chi square and F test) Test for independence of attributes (Chi square test) One way ANOVA (F test) Dataset1 https://datahub.io/core/pharmaceutical-drug-spending#data-files Dataset2 https://datahub.io/core/s-and-p-500-companies-financials Dataset3 https://www.kaggle.com/datasets/stealthtechnologies/employee-attrition-dataset Dataset4 https://www.kaggle.com/datasets/gagandeep16/car-sales Data in the above data sets will be analyzed using Microsoft Excel/ Excel add-in Megastat				
Module 4	Correlation and Regression	Lecture Method	Analysis	[L7 + P7:14 Sessions]
Correlation - definition, scatterplot, Karl Pearson coefficient of correlation, t test for the correlation coefficient, Spearman rank correlation coefficient for data with repeated and non-repeated ranks. Regression – Simple linear regression, least squares method, standard error of the estimate, coefficient of determination, t test for regression coefficient, multiple regression. Dataset1 https://datahub.io/core/pharmaceutical-drug-spending#data-files Dataset2 https://datahub.io/core/s-and-p-500-companies-financials Dataset3 https://www.kaggle.com/datasets/stealthtechnologies/employee-attrition-dataset Dataset4 https://www.kaggle.com/datasets/gagandeep16/car-sales Data in the above data sets will be analyzed using Microsoft Excel/ Excel add-in Megastat				
Targeted Application & Tools that can be used: NA				
Project work/Assignment:				
<ul style="list-style-type: none"> • Self-learning – The Students will learn about computing quartiles and percentiles for ungrouped data • Peer Learning: Students who have understood the topic will solve the problems on the board thereby giving confidence to others to learn the concepts • Case Study: Students will be given small case lets to solve the problems

Recommended by the Board of Studies on	BOS NO: 18 th held on 6 th June 2025
Date of Approval by the Academic Council	26 th Academic Council Meeting held on 25 th July 2025

Course Code: ENG4001	Course Title: Global Business Communication Type of Course: Program Core	L	T	P	C
		2	0	2	3
Version No.	1.0				
Course Pre-requisites	None				
Anti-requisites	Nil				
Course Description	This course equips the business graduates/ students with advanced communication competencies necessary for impactful business presence. It focuses on strategic business communication, cultural awareness, active listening, persuasive writing, personal branding, and business presentation skills. Through experiential activities, case-based learning, and digital tools, learners develop the confidence and executive presence to lead in diverse business environments.				

Course Objective	<ol style="list-style-type: none"> 1. Integrate DEI principles and intercultural competencies into leadership and organizational communication to build inclusive practice. 2. Apply strategic listening, writing, and speaking techniques to produce clear, purpose-fit messages across channels. 3. Analyze communication processes and cultural/contextual factors to diagnose barriers and select evidence-based remedies. 4. Create a distinctive personal brand and digital presence aligned with career goals using visual and narrative tools. 5. Deliver structured, engaging, audience-centred business presentations in in-person and virtual settings. 		
Course Out Comes	<p>On successful completion of the course the students shall be able to:</p> <ul style="list-style-type: none"> • CO1 Apply cross cultural and DEI frameworks to real workplace scenarios. • CO2 - Evaluate the clarity, tone, and effectiveness of emails, memos, and minutes, and justify revisions with evidence. • CO3 - Develop a coherent personal-brand portfolio that includes a clear branding statement and an optimised digital profile. • CO4 - Deliver audience-specific business presentations with logical structure, sound visual design, and confident Q&A. 		
Course Content			
Module 1	Foundations of Business Communication	Assessment 1 - Quiz	Analyze 15 Sessions (Theory and Practice included)
<p>Role of communication in an organization – Components – Process – Direction Diversity, Equity, and Inclusion: Concepts & Challenges - Hofstede’s theory Cultural Capital and Communication Barriers: Language, Accent, Cultural Codes, Diversity and impediments to cross-cultural Communication Media Choices, and social media communication</p> <p>Activities:</p>			

<p>Communication Audit: Analyse communication flow and barriers in organizations using case study. Cultural Simulation Exercise: Role-play scenarios demonstrating communication challenges across different cultural dimensions (Hofstede framework). Media Choice Matrix: Students evaluate different media for business communication situations and justify their choices.</p>			
Module 2	Strategic Listening and Writing for Business Impact	Assessment 2 Business Email, MoM	Apply 12 Sessions (Theory and Practice included)
<p>Listening in Business Contexts- As a strategic tool - Emotional Intelligence and Listening Business Writing Essentials - Principles of Effective Writing (Based on Harvard Business Essentials) - Planning and Drafting Techniques - Business emails, memos, circulars and MoM AI and Business Writing</p> <p>Activities: Listening Lab: Peer-reviewed listening journals based on simulated team meetings or client interactions. Writing Clinic: Rewrite poorly written emails and memos with justification based on Harvard principles. AI Integration Task: Use AI tools (e.g., Grammarly, ChatGPT, or MS Editor) to revise and optimize business writing, followed by reflection on the role of AI.</p>			
Module 3	Personal Brand Development	Assessment 3 - Personal Branding Portfolio	Apply 15 Sessions (Theory and Practice included)
<p>Need and Power of Personal Branding - Know Thyself - Crafting Your Brand Core Building a Digital Presence - LinkedIn and Beyond - Managing Your Online Reputation Living the Brand - Resume, Interviews, and Networking Visual Identity and Personal Branding Design</p> <p>Activities Brand Core Workshop: Create a personal branding statement and vision board. LinkedIn Sprint: Optimize LinkedIn profiles, active engagement and solicit feedback.</p>			

Mock Networking Event: Simulated interviews and elevator pitches with branding feedback.			
Module 4	Business Presentation	Assessment 4 -Elevator Pitch	Apply 18 Sessions (Theory and Practice included)
<p>Foundations of Business Presentations - Structuring for Impact – Inclusion of Visual Aids and Slide Design - Handling Q&A and Audience Engagement Types of Business Presentations - Elevator Pitches and Investor Pitches -Sales Presentations and Product Launches, Strategic and Boardroom Presentations - Virtual and Hybrid Presentation Skills</p> <p>Activities Mini Project: Students choose a business idea, prepare a pitch deck, and present it. Slide Design Challenge: Redesign poor slides for clarity and visual appeal using Canva or PowerPoint. Presentation Lab: Practice virtual and in-person presentations with video-based peer evaluation.</p>			
<p>Targeted Application & Tools for usage Grammarly, Ethical use of ChatGPT, and Microsoft Editor for AI-aided business writing practice) Purdue OWL (Online Writing Lab), Microsoft PowerPoint / Google Slides / Canva</p>			
<p>Project work/Assignment: Mention the Type of Project assignment proposed for this course Quiz, Business Email, MoM, Personal Branding Portfolio, Elevator Pitch Presentation</p>

Course Code: FIN4111	Course Name: Financial Accounting and Reporting	L-T-P-C	3	1	0	4
Version No.	1.0					
Course Pre-requisites	Basic understanding of business transactions and accounting principles.					
Anti-requisites	NIL					
Course Description	This course introduces the fundamental concepts and processes of accounting, leading to the preparation and interpretation of financial statements. It equips students with tools for cost computation and control through techniques like budgetary control, marginal costing, and variance analysis. By integrating financial, cost, and management accounting, the course develops essential skills for informed managerial decision-making.					
Course Outcomes	CO1: Describe the accounting process. (<i>Understand</i>) CO2: Prepare corporate financial statements. (<i>Apply</i>) CO3: Analyze financial statements for business decisions. (<i>Analyze</i>) CO4: Construct budgets for cost control. (<i>Apply</i>) CO5: Evaluate marginal costing and variance analysis for managerial decisions. (<i>Analyze</i>)					
Course Objectives:	The course aims to help students understand the core principles of financial accounting, learn the					

		preparation of financial statements and disclosures, apply accounting standards in real-world contexts, and develop practical skills in Excel and Power BI for effective accounting and reporting.		
Module 1	Mechanics of Financial Accounting	Lecture Method	Understand	13 Sessions
Introduction to Accounting, Branches of Accounting, Generally Accepted Accounting Principles, Accounting Entries, Accounting equation, Recording and processing of financial transactions, Preparation of Trial Balance, Introduction to IFRS ,BRS, Depreciation Accounting– Causes – Methods of Calculating Depreciation – Straight Line Method, Diminishing Balance Method (Use the excel sheet for problem solving). Practical Problem:- Accounting Entries ,Ledger, Trial Balance, BRS, Depreciation				
Module 2	Preparation of Corporate Financial Statements	Participative Learning	Apply	13 Sessions
Financial Statements, its components, Preparation of Corporate Financial Statements (IND-AS-1) - Statement of Profit and Loss, and Balance sheet with basic adjustments Notes to Accounts, Statement of changes in equity, Statement of Cash Flow by indirect method (IND-AS-7). Practical Problem:- Statement of Profit and Loss, and Balance sheet with basic adjustments Notes to Accounts, Cash FlowStatement				
Module 3	Analysis and interpretation of Financial Statements	Group Discussion	Analyze	11 Sessions
Horizontal and Vertical Analysis of Balance sheet and income statement ,Ratio analysis- Liquidity, Profitability, Solvency, Turnover and Market test ratios,. (Use the excel sheet for problem solving). Practical Problem:- Analysis of Balance sheet and income statement, Common Size, Trend and Comparative Analysis				
Module 4	Product costing and budgetary control	Skill based Learning	Apply	13 Sessions
Cost and its classification, preparation of cost sheet in manufacturing industry, budgetary control- preparation of Cash budget and Flexible budget. (Use the excel sheet for problem solving). Practical Problem:- Cash budget and Flexible budget				
Module 5	CVP Analysis	Experiential Learning	Mini Project	10 Sessions
CVP Analysis – Marginal costing-uses and limitations, Assumption calculation of Contributions, P/V Ratio, Break- Even Point, Margin of Safety, Uses of Marginal Costing in business Decision, Material and Labour variances. (Use the excel sheet for problem solving).				

Practical Problem; - Marginal costing- Material and Labour variances	
Project work/ assignment: Prowess database will be used for interpretation of Financial Statement.

Code:	Course Title: Human Behaviour in Organizations	L	T	P	C
		OBH 411 1	2	1	0
Version No.	1.0				
Course Prerequisites	Nil				
Anti-requisites	Nil				

Course Description	This course explores how individuals, teams, and organizational structures shape workplace behavior and performance. Designed for MBA students, it blends theory with practical learning to build critical skills in motivation, perception, leadership, communication, decision-making, and change management. Through case studies, discussions, and projects, students gain practical insights into managing people, fostering collaboration, and applying behavioral principles to real-world business challenges. The course prepares future leaders to navigate complex organizational dynamics with clarity, empathy, and strategic impact.			
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by using PARTICIPATIVE LEARNING techniques			
Course Outcomes	On completion of this course, the student will be able to: CO1 : Understand the foundational concepts of individual and group behavior in organizations, including motivation, perception, and attitude formation. CO2 : Apply behavioral theories to analyze workplace scenarios and recommend strategies for improving team dynamics, communication, and leadership effectiveness. CO3 : Analyze behavioural challenges in organisations, integrating insights from DM , Conflict Resolution and Change management CO4 : Evaluate organizational practices and culture through case studies to assess their impact on employee performance and change readiness and overall organisational effectiveness			
Course Content:				
Module 1	Introduction to Human Behavior in Organization		Assessment 1 - Quiz	8 sessions
Topics: Importance of Organization Behavior, Evolution & Historical Developments, Management Roles & Skills, Discipline that contribute to OB. Ethical Behaviors in organizations, Challenges and Opportunities of OB - Workforce Diversity, Inclusion, Globalization, Managing Virtual Workforce Tutorial: Recent Developments in managing diverse workforces / Latest articles or blogs of relevance				
Module 2	Individual Behaviour s- Perception, Attitudes Personal		Assessment 2 – Assignment	12 sessions

	ty & Learning			
<p>Perception: Meaning, Factors affecting Perceptions, Perception process. Attitudes – Definition, Key elements of attitudes, Attitudes and related concepts (Values, opinion, belief and ideology), Characteristics of attitudes, Attitude formation, Attitude measurement, Changing attitudes.</p> <p>Personality: MBTI, Big Five, 16PF, Type 'A' Type 'B', Eric Fromm, Karen Horney</p> <p>Learning & reinforcement, Classical & Operant conditioning, shaping of behaviour, Defense Mechanism</p> <p>Emotions and Emotional intelligence (Application)</p>				
Module 3	Motivation Concepts and its Applications		Assessment 3 – Case Analysis	12 sessions
<p>Motivation: Meaning, Classic & Contemporary Theories of Motivation: Hierarchy of Needs Theory, Two-Factor Theory, McClelland's Theory of Needs, Self-determination Theory, Expectancy theory, Goal Setting Theory; Using Extrinsic Rewards & Intrinsic Rewards to Motivate Employees. (Analyze)</p>				
Module 4	Group Behaviour and Leadership		Assessment 4 – Report Writing	13 sessions
<p>Group Behavior: Defining and Classifying Groups, Stages of Group Development, Group Decision Making: Groups Versus the Individual, Group Decision-Making Techniques. Differences Between Groups and Teams, Types of Teams, Creating Effective Teams</p> <p>Leadership: concept, contingency and contemporary theories of leadership. Leadership Prospective: Charismatic leadership, Transactional and Transformational leadership, Servant Leadership. Organization Development and Organization Change (Evaluate)</p>				
<p>Targeted Application & Tools that can be used: Role Plays, Psychometric tests and analysis, personality test scales.</p>				
<p>Project work/Assignment: Mention the Type of Project /Assignment proposed for this course</p>				
<p>Project/ Assignment: (Participative learning)</p> <p>Assesment1: Quiz on Relevant concepts of the course</p> <p>Assessment -2: Individual Written Assignment Review the given article mentioned in the link below and submit assignment. (Kindly note: Student should visit PU library and access the online resources for the same and incorporate the assignment as well as attach the photo of log in and log out in person in the end of the assignment file.)</p> <p>Assesment-3: Case study: Analyse the case given in link below and identify issue in the given situation and provide possible solutions. (Student needs to visit PU library to access the online Resources to access the case study provided and attach the photo of Login and Logout time in the end of the assignment)</p> <p>Assessment -4: Report Writing: Identify any one MNC of IT sector and bring out</p>				

the various activities and strategies followed in that organization with reference to Team Work Culture and submit a report. (Kindly note: Student should visit PU library and access the online resources for the same and incorporate the assignment as well as attach the photo of log in and log out in person in the end of the assignment file.)

Course Code: GMM4111	Course Title: Managerial Economics	L	T	P	C
		2	1	0	3
Version No.	1				
Course Pre-requisites	Nil				
Anti-requisites	Nil				
Course Description	This course explores the application of economic principles to managerial decision-making in a business context. By blending microeconomic theory with practical tools, students learn how to analyze demand, production, costs, pricing, and market structures. The course also addresses the influence of macroeconomic conditions, risk, and government policies on managerial decisions. Through case studies and applications, students gain the ability to apply economic reasoning to real-world business challenges.				
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by using PARTICIPATIVE LEARNING techniques				
Course Out Comes	On completion of this course, the student will be able to:				
	CO1: Understand and explain the principles of managerial economics and their application in business decision-making. (Understand)				
	CO2: Apply demand and supply analysis, forecasting methods, and elasticity concepts to solve managerial problems. (Apply)				
	CO3: Analyze production and cost relationships to recommend strategies for efficiency and profitability. (Analyze)				
	CO4: Evaluate pricing and output decisions across different market structures, considering risks, uncertainties, and government interventions. (Evaluate)				
Course Content:					
Module 1	Introduction to Managerial Economics	Assessment 1 - Quiz		10 sessions	

Topics: Nature, scope, and significance of managerial economics in decision-making. Relationship of managerial economics with microeconomics, macroeconomics, and functional areas of management. Fundamental economic concepts: scarcity, choice, opportunity cost, marginal analysis, and time perspective. Role of managerial economics in modern business strategy. Factors of Production and Circular flow of Economy

Production function: short-run and long-run. Law of variable proportions returns to scale, and isoquants. Cost concepts: fixed, variable, total, average, marginal, opportunity costs. Short-run and long-run cost curves, learning curve, economies and diseconomies of scale. Applications of cost analysis in managerial decision-making (break-even analysis, make-or-buy decisions).

Tutorial: [Recent Developments in managing diverse workforces / Latest articles or blogs of relevance](#)

Module 2	Demand and supply Forecasting	Assessment 2 – Assignment	15 sessions
-----------------	--------------------------------------	---------------------------	-------------

Demand analysis: law of demand, determinants of demand, exceptions to the law of demand. Elasticity of demand: price, income, and cross elasticity – managerial uses and applications. **Demand forecasting:** qualitative and quantitative techniques (survey methods, moving averages, regression analysis, econometric models). Business applications of demand forecasting: production planning, pricing, and marketing strategies. Case study discussions on forecasting errors and their managerial implications.

Supply Analysis: Law of Supply – Price elasticity of supply
Price Equilibrium

Module 3	Market Structures and Pricing Decisions	Assessment 3 – Project/Report Writing	12 sessions
-----------------	--	---------------------------------------	-------------

Market Structures and characteristics
Price-output decisions under different market structures: Perfect competition – equilibrium in short run and long run. Monopoly – price discrimination, profit maximization. Monopolistic competition – product differentiation, selling costs. Oligopoly – collusive and non-collusive models (Cournot, Bertrand, Kinked Demand Curve).
Pricing practices: cost-plus pricing, transfer pricing, penetration pricing, skimming strategy, pricing in the digital economy. Government intervention and regulation in pricing and competition. Decision-making under risk and uncertainty: expected value analysis, decision trees.

Module 3	Macroeconomics	Assessment 4 – Scenario Analysis Assignment	08 sessions
-----------------	-----------------------	---	-------------

Macroeconomic issues and concepts – The Circular Flow of Income – Concepts of National Income and its Measurement
 Business Cycle Indicators – Leading – Lagging – Coincident Indicators

Output & Income: Income generated from this production, including wages, salaries, profits, and rent.

Employment & Unemployment: factors that influence unemployment rates, such as labor market dynamics, economic growth, and government policies

Inflation & Deflation: meaning, Types - Consumer Price Index – Wholesale Price Index – Index of Industrial Production (IIP), impact on purchasing power and economic stability.

National Income Estimation process: Gross National Savings – Gross Capital Formation– Gross domestic Product – Gross National Income – Gross National Product – Net Domestic Product- Net Domestic Income – Net National Income – National Income

Targeted Application & Tools that can be used:

Case Study Analysis – Application of demand forecasting, pricing strategies, and production decisions in real companies.

Quantitative Tools – Regression analysis, break-even analysis, cost-volume-profit analysis, decision trees, and elasticity measurement.

Forecasting Software / Tools – Excel, SPSS, R, or other statistical packages for demand forecasting and data analysis.

Simulation Exercises – Market structure simulations (monopoly, oligopoly pricing decisions) to understand competitive behavior.

Business Reports & Presentations – Students prepare decision-focused reports analyzing cost structures, pricing policies, or market entry strategies.

Project work/Assignment: Mention the Type of Project /Assignment proposed for this course

Project/ Assignment:

(Participative learning)

1. Assessment 1 – Quiz (Module 1: Introduction to Managerial Economics)

Ø Short quiz on core concepts: scarcity, opportunity cost, marginal analysis, and role of managerial economics in decision-making.

Ø Objective: Test foundational understanding.

2. Assessment 2 – Assignment (Module 2: Demand and Forecasting)

Ø Assignment: Select a product/service and prepare a demand forecast using secondary data. Apply elasticity concepts and discuss managerial implications.

Ø Objective: Apply demand analysis tools to a practical scenario.

3. Assessment 3 – Case Study (Module 3: Production and

Cost Analysis)
Ø Case study: Analyze cost structures of a manufacturing/service firm. Identify fixed vs. variable costs, apply break-even analysis, and suggest ways to reduce costs.
Ø Objective: Strengthen decision-making based on production and cost analysis.
4. Assessment 4 – Project/Report Writing (Module 4: Market Structures and Pricing Decisions)
Ø Project: Study an industry (e.g., telecom, airlines, e-commerce) and analyze its market structure. Evaluate pricing strategies used by leading firms and recommend an optimal strategy.
Ø Objective: Integrate concepts of market structure, pricing, and government policies into a real-world context.

Course Code: OPS4111	Course Title: Production Operations and Logistics Management	L	T	P	C
		2	1	0	3
Version No.	2.0				
Course Pre-requisites	Nil				
Anti-requisites	Nil				
Course Description	This course provides an in-depth understanding of production operations and logistics management in business environments. Students will explore core operational processes, supply chain strategies, inventory management, and logistics optimization to enhance efficiency and profitability. Through real-world case studies and interactive learning methods, students will gain practical insights into managing production systems and designing effective logistics solutions, preparing them for strategic roles in operations management.				
Course Objective	This course is designed for SKILL DEVELOPMENT of the learner by using PROBLEM SOLVING techniques.				

Course Out Comes	Upon completing this course, students will be able to: <ol style="list-style-type: none"> 1. Analyze production and logistics challenges using key operational theories. 2. Evaluate supply chain performance with industry-specific metrics. 3. Develop efficient logistics solutions that optimize cost and resources. 4. Apply problem-solving strategies to improve production workflows. 		
Course Content:			
Module 1	Introduction to Production Operations	Assessment 1 - Quiz	11 Hours
This module lays the foundation for understanding production systems and operations management. Students will explore: <ul style="list-style-type: none"> • Types of Production Systems – Job production, batch production, mass production, and continuous production. • Operations Strategy – Aligning production processes with business goals. • Productivity and Efficiency – Techniques to measure and improve performance. • Technology in Operations – Role of automation, robotics, and AI in modern production. 			
Module 2	Supply Chain and Inventory Management	Assessment 2 – Case Study	11 Hours
This module delves into supply chain dynamics and inventory control methods to optimize operations. Topics include: <ul style="list-style-type: none"> - Demand Forecasting – Methods like time series analysis and regression models. - Inventory Management – Economic Order Quantity (EOQ), Just-In-Time (JIT), and Vendor-Managed Inventory (VMI). - Lean & Agile Supply Chains – Strategies for minimizing waste and improving responsiveness. - Supply Chain Risk Management – Handling disruptions and building resilient networks. 			
Module 3	Logistics and Distribution Strategies	Assessment 3 – Case Analysis	11 Hours
In this module, students will explore efficient logistics models to ensure seamless flow of goods and services. Key areas include: <ul style="list-style-type: none"> - Transportation Modes – Road, rail, air, and sea; comparative advantages. - Network Optimization – Designing distribution channels for cost and service efficiency. - Warehouse Management – Layout design, automation, and performance metrics. - Technological Advancements – Blockchain, IoT, and AI-driven logistics solutions. 			
Module 4	Optimization in Production and Logistics	Assessment 4 – Mini Project Students will work on a mini-	12 Hours

		project, applying optimization techniques to solve a production or logistics problem in a real-world scenario.	
<p>This module focuses on improving operations using analytical tools and emerging trends. Topics covered:</p> <ul style="list-style-type: none"> • Process Improvement Methodologies – Six Sigma, Kaizen, and Total Quality Management (TQM). • Data-Driven Decision Making – Using analytics for production planning. • Sustainability in Logistics – Green supply chain initiatives and carbon footprint reduction. • Future of Operations Management – AI, predictive modelling, and smart factories. 			
<p>Targeted Application & Tools that can be used: Project work/Assignment: Students will develop a logistics optimization model for a real-world business case, integrating production efficiency techniques</p>			
<p>Project work/Assignment: Mention the Type of Project /Assignment proposed for this course</p>			
<p>Web Resources:</p> <ul style="list-style-type: none"> • Supply Chain Digital: www.supplychaindigital.com • Logistics Management Magazine: www.logisticsmgmt.com • MIT Supply Chain Research: www.mit.edu/supplychain <p>Sample Data Set: Real-time industry data on supply chain optimization and logistics modelling will be provided for case study analysis.</p>

Course Code: MKT4111	Course Title: Marketing Management - Theories and Practices	L	T	P	C
		2	1	0	3
Version No.	1.0				
Course Pre-requisites	Nil				
Anti-requisites	Nil				

Course Description	This course intends to provide the student with necessary knowledge and skills to excel in the field of marketing. This course explores the five philosophies applied in this digital era: along with the marketing mix - product development, pricing strategies, promotion, and distribution channels. The theoretical concepts are applied to understand and solve the marketing challenges through a combination of lectures, case studies, and hands-on exercises is expected to provide students the essential skills in marketing. On completion of this course students would have acquired the capacity to critically think, identify marketing issues, draft marketing plans, draw data-driven decisions.			
Course Objective	This course is designed to improve the learners Skill Development by using Participation techniques.			
Course Out Comes	<p>On successful completion of the course the students shall be able to:</p> <p>CO 1: Illustrate the importance of Marketing management and consumer behaviour for Segmentation, Targeting & Positioning decisions. (Understanding)</p> <p>CO 2: Develop Product launching strategies. (Applying)</p> <p>CO 3: Examine the significance of appropriate pricing & distribution decisions for product success. (Analyzing)</p> <p>CO 4: Evaluate the right use of promotion & technology for realizing a positive ROI. (Evaluating)</p>			
Course Content:				
Module 1	Concepts of Marketing	Assignment using E Library (Participative Learning)	Assessment 1 - Quiz	12 Sessions
<p>Topics: Concept of Marketing, Needs, Wants and Demand, Nature & Importance of Marketing, 5 Philosophies of Marketing Management , Marketing Mix, Marketing Environment – Macro and Micro Environment. Factors influencing Consumer Behaviour, Consumer Buying Decision Process, Market Segmentation and Bases of segmentation, Targeting Strategies, Concept of Positioning.</p>				
Module 2	Product	Assignment (Participative Learning)	Assessment 2 – Assignment	09 Sessions
<p>Topics: Product – Meaning, Product Mix – Product Line, Length and Depth, Product Line Analysis & Decisions, New Product Development - Product Life Cycle (PLC) – PLC Strategies, Product vs. Brand, Benefits of Branding, Brand Equity, Fifth 'P' - Packaging and Labelling.</p>				
Module 3	Price & Place	Case study (Participative Learning)	Assessment 3 – Case Analysis	12 Sessions
<p>Topics: Pricing – Importance of Pricing, Setting the Price, Pricing Objectives, and Steps in Pricing, Types of Pricing. Practice exercises in pricing. Place - Marketing Channels and their roles, Functions of a channel partner, Types of channels, Levels, Channel Design decisions, Channel Conflict: Reasons and resolution.</p>				
Module 4	Promotion & Technology	Assignment (Participative)	Assessment 4 – Mini Project	12 Sessions

		Learning)		
<p>Topics: Promotion Mix - Advertising, Sales Promotion, Events & Experiences, Direct Marketing and Public Relations & Publicity, Personal Selling – Pros & Cons. Integrated Marketing Communications (IMC) – Traditional & Digital media, social media - Steps in Promotional Planning - Media Planning, Budgeting, Ad Campaign development. Managing consumer journey & experiences using technology – concepts & use cases.</p>				
<p>Project work/Assignment: Module 1 Sample Assignment 1: Project Work: Collect Advertisements (from Newspapers) pertaining to the various forms of Segmentation, classify them, and make a presentation, with appropriate justification. Module 2 -Sample Assignment 2: Identify 5 products / brands which are in the different Life Cycle Stages of PLC and suggest appropriate Marketing strategies for them. Module 3 - Sample Assignment: Analyze the difference in Distribution channels - FMCG versus / Consumer durables / Services Module 4 - Sample Assignment : Identify the Digital and Social Media Marketing strategies adopted by any company of your choice.</p>

Course Code: GMM4119	Course Title: Business Research Methods	L-T- P- C	2	1	0	3
	Type of Course: Program Core & Theory only					
Version No.	1.0					
Course Pre-requisites	Business Statistics (MBA 1007)					
Anti-requisites	NIL					
Course Description	Business Research Methods provides the theoretical and practical framework to conduct research in Business. It consists of modules, which cover the fundamentals of the Business Research Process. The course enables discussion on different research designs that would be appropriate in different business scenarios. The data analysis sections deals with the relevant statistical tools required to analyze the data which would help in effective decision making.					
Course Outcomes	On successful completion of the course, the students shall be able to: 1. Apply the relevant business research methods for solving business research problems. [Application Level] 2. Use appropriate data collection methods to carry out					

	business research. [Application Level] 3. Employ suitable measurement techniques and sampling designs to elicit data. [Application Level] 4. Analyze the data using appropriate statistical tools. [Analysis Level]			
Course Objectives	Objective of this course is to enhance Skill Development using Experiential Learning methods.			
Course Content:				
Module 1	Introduction to Business Research Methods	Assignment	Review Literature	9 Hours
Topics: Role of business research – applied and basic business research – managerial value of business research. Theory building – research concepts, constructs, propositions, variables and hypotheses – the scientific method of conducting research. The business research process – types of business research – exploratory, descriptive and causal. Stages in the research process. Review of literature. Problem definition process, research objectives, questions and hypotheses. The research proposal.				
Module 2	Data Collection Methods and Qualitative Research	Mini-Project	Data Collection and Data Analysis	12 Hours
Topics: Primary data – survey research – errors in survey research – survey research methods. Personal interviews – telephone interviews – self-administered questionnaires. Observation methods. Secondary data – advantages, disadvantages and sources. Qualitative research – uses, orientations to qualitative research. Techniques in qualitative research – Focus group interview, depth interviews. Conversations, semi-structured interviews				
Module 3	Measurement Concepts, Questionnaire design and Sampling	Assignment	Conceptual Knowledge	12 Hours
Topics: Introduction – variables – constructs - measurement scales – nominal, ordinal, interval and ratio. Criteria for good measurement – reliability and validity. Attitude measurement – attitude rating scales – Likert scale, semantic differential. Measuring behavioral intention – ranking, sorting. Questionnaire design – Basic considerations – wording questions – guidelines for constructing questions – questionnaire layout – pretesting and revision. Sampling – population, sample, sampling frame, sampling units, sampling and non – sampling errors. Non – probability sampling – convenience, judgment, quota and snowball sampling. Probability sampling – simple random sampling, systematic sampling, stratified sampling.				
Module 4	Data Analysis and report writing	Mini-project	Data Analysis	12 Hours
Topics: Testing of hypothesis – test for two means – known variances and unknown but equal variances, paired t test, test for two proportions. Chi square test for independence of attributes. Introduction to multivariate data analysis. Report writing – report format – parts of the report.				

<p>Targeted Application & Tools that can be used: Business research methods is applied to different areas of the management. The broad areas of applications are marketing research, financial markets, behavioural economics, human resources, etc. & Professionally Used Software: MS-Excel/SPSS/Minitab/R</p>	
<p>Project work/Assignment:</p>	
<p>Project/Assignment: Mini-Project on the primary or secondary data collection techniques for the application of suitable statistical models.</p> <p>Assignment 1: Students are required to write a Literature Review Assignment based on any two to three related literature on their research topic of interest.</p> <p>Assignment 2: Students are required to construct the Questionnaire in align with the Problem identification/Research questions and Hypothesis formulation on their research topic of interest.</p> <p>Assignment 3: Written Assignment/Quiz on Research Process or Sampling techniques.</p>	
<p>Text Books</p> <p>1. Zikmund, W. G., Babin, B, J., Carr, J.C. & Griffin, M., Business Research Methods: A South Asian Perspective. Delhi: Cengage Learning, Edition 9, 2012.</p>

Course Code : QNT4114	Course Title: Applied Data Analysis and Visualization	L – T – P – C	1– 1 – 2 – 3
Version No.	1.0		
Course Pre-requisites	NIL		
Course Description	<p>This course introduces students to applied data analysis using spreadsheets and visualization tools to support managerial decision-making. It emphasizes the use of formulae, functions, pivot tables, and dashboards to analyze and interpret business data. Students will learn to apply statistical and financial techniques for forecasting, reporting, and optimization. The course integrates practical lab exercises with real-world datasets to build problem-solving skills. By the end, students will be able to create effective visualizations and analytical models for business impact.</p>		

Course Outcomes	On successful completion of this course the students shall be able to: <ul style="list-style-type: none"> • CO1: <i>Apply</i> spreadsheet operations to manage, format, and organize business datasets for effective analysis. • CO2: <i>Analyze</i> business problems using formulas and functions to derive insights from quantitative and qualitative data. • CO3: <i>Evaluate</i> data through advanced charts, pivot tables, and dashboards to support informed managerial decision-making. • CO4: <i>Create</i> business solutions by integrating advanced Excel tools (Power Query, PowerPivot, VBA) to design models for forecasting and analytics applications. 			
Course Objective:	To develop students' ability to apply data analysis and visualization techniques using spreadsheets and advanced Excel tools for effective problem-solving and data-driven business decision-making.			
Module 1	Introduction to Data Analysis and Spreadsheets	Lecture, Lab	Apply	[5 Lecture + 5 Lab Sessions]
Introduction to data analysis, introduction to spreadsheets and excel, entering and editing worksheet data, performing basic worksheet operations, working with excel ranges and tables, formatting worksheets.				
Module 2	Formulae and Functions	Lecture, Lab	Analyze	[5 Lecture + 5 Lab Sessions]
Introducing formulae and functions, formulae for mathematical and text operations, formulae for handling dates and time, formulae for matching and lookup, formulae for statistical analysis, formulae for financial analysis, array formulas, error-free formulae.				
Module 3	Data Visualization, Management and Analysis	Lecture, Lab	Evaluate	[5 Lecture + 5 Lab Sessions]
Getting started with excel charts, creating sparkline graphics, advanced charting techniques, dashboarding and implementing excel dashboarding best practices, introducing pivot tables and pivot charts, analyzing data with pivot tables, analyzing data using goal seeking and solver, analyzing data with the analysis tool pack.				
Module 4	Applying analytics to achieve Business impact	Lecture, Lab	Create	[6 Lecture + 9 Lab Sessions]
Introduction to PowerPivot and power query, business application of power pivot and query, automating excel using VBA, business application of VBA, business data				

management applications, customer analytics applications, demand forecasting applications, capstone project

Targeted Application & Tools that can be used: Microsoft Excel

Project work/Assignment:

- **Quiz (Module 1: Introduction to Data Analysis and Spreadsheets)**
Students will take a quiz on Excel basics, worksheet operations, ranges, and data formatting.
- **Individual Assignment (Module 2: Formulae and Functions)**
Apply formulas and functions (mathematical, text, statistical, lookup, financial) on a given dataset to perform meaningful analysis and submit a written assignment with results.
- **Case Study (Module 3: Data Visualization, Management and Analysis)**
Analyze a business case dataset using PivotTables, charts, and dashboards. Identify patterns, trends, and provide managerial insights through visualization.
- **Project / Report Writing (Module 4: Applying Analytics to Achieve Business Impact)**
Capstone group project: Develop an Excel dashboard integrating Power Query, PowerPivot, Solver, or VBA. Submit a report demonstrating how the solution can support decision-making in business areas such as sales, HR, marketing, or finance.

Course Code:QNT4115	Course Title: Fundamentals of Business Analytics			L	T	P	C
	Type of Course: Program Core Theory & Practical Course			1	0	2	2
Version No.	1.0						
Course Pre-requisites	QNT4111Applied Business Statistics						
Anti-requisites							
Course Description	This course introduces students to the fundamentals of Business Analytics and its role in data-driven decision making. It covers key analytics concepts, types of analytics, business data and metrics, descriptive, diagnostic, and introductory predictive analytics, along with practical applications across business functions. The course emphasizes real-world business problem solving using analytical thinking and interpretation.						
Course Outcomes	CO	Explain the fundamentals, types, and lifecycle of Business Analytics					
	CO	Identify and classify business problems using appropriate analytics approaches					
	CO	Analyze business data using various types of analytics techniques					
Course Objective	The course aims to develop students' ability to apply descriptive and diagnostic analytics techniques to real-world business problems while providing conceptual exposure to predictive analytics and forecasting methods. Additionally, it demonstrates how analytics is applied across major business functions such as marketing, finance, human resources, and operations to support data-driven managerial decisions.						
Module 1	Introduction to Business Analytics	Assignment using E Library (Participative Learning)				6 Hours	
Evolution of data-driven decision making, What is Business Analytics?, Difference between Business Intelligence and Business Analytics, Types of Analytics, Descriptive Analytics, Diagnostic Analytics, Predictive Analytics, Prescriptive Analytics, Analytics lifecycle and workflow, Role of analytics in competitive advantage							
Module 2	Data, Types, Business Metrics	Data and	Class Activity (Participative Learning)			6 Hours	
Understanding business data, Types of data: Structured, semi-structured, unstructured, Qualitative vs quantitative data, Scales of measurement, Data quality issues and data preparation basics, Introduction to Key Performance Indicators (KPIs),							

Business metrics and dashboards			
Module 3		Project (Experiential Learning)	6 Hours
Descriptive analytics techniques, Summary statistics for business data, Data aggregation and comparison, Trend and variance analysis, Root cause analysis, Introduction to exploratory data analysis (EDA)			
Module 4		Hands-on with Tools	6 Hours
What is predictive analytics?, Predictive modeling concepts, Correlation and regression (conceptual understanding), Forecasting fundamentals, Assumptions and limitations of predictive analytics			
Module 5		Class activity + Quiz	6 Hours
Marketing analytics (customer segmentation, churn, campaign analysis), Financial analytics (profitability, budgeting, risk basics), Operations and supply chain analytics, Human resource analytics, Ethics and challenges in business analytics			
Targeted Application & Tools that can be used: Microsoft Excel, Google Sheets, Kaggle Datasets			
Project work/Assignment:

Course Code: GMM4115	Course Title: Corporate Governance, Ethics and Social Responsibility	L	T	P	C
		2	1	0	3
Type of Course:	Program Core				
Version No.	2.0				
Course Pre-requisites	Nil				

Anti-requisites	Nil
Course Description	<p>Business Ethics is the art and discipline of applying ethical principles to examine and solve complex moral dilemmas. Ethical principles are the rules of conduct that are derived from ethical values, known as six pillars, namely trustworthiness, respect, responsibility, fairness, caring and citizenship. It is now established that high sense of professional morality must comprise one of the core values of corporate governance for the long term and also short term success of a company. Good corporate governance is an integral part of business ethics. The ethical values are regarded as imperatives for sustainable corporate growth and competitive edge. Hence a framework of effective accountability to the stakeholders is the essence of corporate governance. Corporate social responsibility is essentially a concept whereby companies integrate social and environmental concerns in their business operations and in the interaction with their stakeholders on voluntary basis. In doing so, they make an investment towards future and increase their profitability. In fact corporate governance and corporate social responsibility are interlinked with each other.</p> <p>The students are given the right exposure to Business ethics, corporate governance & social responsibility, which help them understand new concerns and expectations from various stakeholders in the context of large scale industrial change due to globalization. Opportunities for career progression can happen when there is application of ethical values in everything that one does, which means maintaining transparency and being socially responsible.</p>
Course Objective	<ol style="list-style-type: none"> 1. Appraise various theories of ethical decision making, 2. Comply accepting the need of ethics in the global environment in which the organizations are functioning. 3. Point out the integration of ethics - in work-place management, marketing, accounting and finance, strategy etc. - towards the purpose of ethical growth of a business. 4. Recognize and understand the global

	<p>perspectives of CSR, the corporate social responsiveness, corporate citizenship and sustainability,</p> <p>5. Appraise in appreciating the importance of good corporate governance at domestic and international level, understand the various corporate governance systems in practice.</p>		
Course Outcomes	<ol style="list-style-type: none"> 1. To demonstrate conceptual skills of ethical theories and ethical decision making in the contest of organizational functioning. 2. To apply a comprehensive idea of corporate social responsibility in the interest of sustainability of planet for future generations. 3. To analyze development and understanding of corporate frauds, scams and the degrading environment and resources – (evidenced in class room discussions and the case study). 4. To appraise the concepts of corporate governance and learn the theories and practices of corporate governance. 5. To categorize various models of corporate governance around the world.

Course Code: GMM4118	Course Title: Entrepreneurship and Innovation	L	T	P	C
		2	1	0	3

	Management Type of Course: Program Core				
Version No.	2.0				
Course Pre-requisites	Nil				
Anti-requisites	Nil				
Course Description	This course offers a comprehensive exploration of the theories, frameworks, and real-world applications of entrepreneurship and innovation management. It equips learners with the knowledge and tools needed to identify opportunities, generate innovative ideas, and transform them into sustainable business ventures. Emphasis is placed on entrepreneurial mind-set development, business model innovation, lean start-ups methodologies, and the role of technology and digital disruption in creating competitive advantage. Students will engage in hands-on experiential learning through simulations, group projects, case analyses, and start-ups pitching exercises. The course also highlights critical aspects of start-up financing, resource planning, and legal frameworks. Furthermore, it examines innovation ecosystems, policy interventions, and sustainability practices, enabling students to build ventures that are not only viable but socially responsible. By the end of the course, learners will be well-prepared to launch, manage, or support innovative business initiatives.				
Course Objective	This course aims to enhance student's entrepreneurship skills through experiential learning methods such as business simulations, real-time venture creation, and interactive case studies. It focuses on developing an entrepreneurial mindset, innovation capabilities, and the ability to navigate real-world challenges in launching and managing start-ups.				
Course Out Comes	<ol style="list-style-type: none"> 1. Understand the entrepreneurial process and innovation life cycles. (<i>Understand</i>) 2. Apply design thinking and lean startup methodologies to real-world problems. (<i>Apply</i>) 3. Analyze & Evaluate the feasibility of innovative business models in competitive environments. (<i>Analyze, Evaluate</i>) 4. Create a launch-ready entrepreneurial venture plan integrating innovation and sustainability. (<i>Create</i>) 				
Course Content:					
Module 1	Foundations of Entrepreneurship and Innovation	Assessment 1	Concept Quiz + Ecosystem Mapping	10 Sessions	
Introduction to Entrepreneurship, Historical Evolution and Theories of Entrepreneurship, Traits and Competencies of Entrepreneurs, Types of Entrepreneurship (Corporate, Social, Tech, etc.), Role of Entrepreneurs in Economic Development, Innovation Defined: Concepts and Characteristics, Types of Innovation: Incremental vs. Radical, Entrepreneurial Ecosystems and Innovation Clusters, Policy Support and Government Initiatives, Guest Lecture/Startup Founder Talk.					
Module 2	Ideation, Design and Thinking, Innovation Frameworks	Assessment 2	Creative Ideation Report + Peer	10 Sessions	

			Review	
Introduction to Creative Thinking and Ideation, Sources of Innovative Ideas (Trend Analysis, Problem Framing), Brainstorming and SCAMPER Techniques, TRIZ and Lateral Thinking Tools, Introduction to Design Thinking, Empathy Mapping and User Research, Ideation and Prototyping in Design Thinking, Business Model Innovation, Intellectual Property Rights and Idea Protection, Pitching Initial Concepts (Peer Review)				
Module 3	Business Models, Validation & Resource Planning	Assessment 3	Case Study + Investor Deck Analysis	15 Sessions
Introduction to Business Models, Business Model Canvas (BMC): Overview, Deep Dive into BMC Components, Value Proposition Design, Market Research and Customer Validation, Lean Startup Principles: Build-Measure-Learn, MVP Development and Testing, Resource Planning and Team Building, Risk Identification and Mitigation Strategies, Real Startup Case Study Analysis				
Module 4	Financing, Scaling and Sustainable Ventures	Assessment 4	Venture Pitch Simulation + Mini Project	15 Sessions
Introduction to Startup Financing, Bootstrapping, Angel Investment, Venture Capital, Crowd funding and Alternate Finance Models, Financial Planning and Unit Economics, Crafting and Delivering a Business Pitch, Negotiation and Term Sheets, Scaling Strategies for Startups, Managing Innovation in Growth Phase, Sustainable and Social Entrepreneurship, Final Pitch Simulation + Feedback Round				
<p>Targeted Application & Tools that can be used:</p> <ul style="list-style-type: none"> • Business Model Canvas (Strategyzer) • Leanstack, Miro, Trello for project tracking • Customer Validation Board • Pitch Deck Templates • Canva for visual storytelling 				
<p>Project work/Assignment: Students will ideate, validate, and pitch an original venture using real-world tools. Peer feedback, mentor reviews, and simulation-based learning are integrated.</p>

TRACK ELECTIVE – DIGITAL MARKETING

Course Code: DMT5115	Course Title Search Engine Ranking Optimization	L	T	P	C
	Type of Course: Specialization Track Elective Theory Only Course	2	1	0	3
Version No.	1.0				
Course Pre-requisites	MKT4111 Marketing Management - Theories and Practices MKT4112 Digital Marketing Strategy, Tools and Trends				
Anti-requisites					
Course Description	This course explores the strategic, technical, and analytical aspects of improving website visibility in search engines. It covers core SEO practices including keyword research, on-page optimization, technical SEO, content strategy, backlink building, and SEO analytics. Students will learn to align SEO strategies with business objectives and user intent.				
Course Outcomes	CO1	Understand search engine algorithms, ranking factors, and SEO frameworks.			
	CO2	Apply on-page, off-page, and technical SEO techniques to optimize			

		web pages.	
	CO3	Analyze SEO performance using analytics and keyword tracking tools.	
	CO4	Create an integrated SEO strategy aligned with user behavior and marketing goals.	
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by using EXPERIENTIAL LEARNING techniques.		
Module 1	SEO Fundamentals and Search Engine Algorithms	Quiz (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: What is SEO? – Types of SEO – History and Evolution – How Search Engines Work – Google Search Algorithm Basics – SERP Features – Importance of Search Intent and User Behavior.			
Module 2	Keyword Research and Content Optimization	Assignment (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Keyword Types – Tools (Google Keyword Planner, Ubersuggest) – Search Volume, Competition, CPC – Mapping Keywords to Buyer Journey – Content Optimization – Writing Meta Tags – Blog and Landing Page Optimization.			
Module 3	On-Page and Technical SEO	Case Study (Participative Learning)	7 L + 4 T = 11 Sessions
Topics: HTML Tags – Title, Header, Alt Attributes – URL Structure – Internal Linking – Schema Markup – Mobile Optimization – Page Speed – Indexing and Crawlability – XML Sitemaps – Robots.txt.			
Module 4	Off-Page SEO and Link Building	Project (Experiential Learning)	7 L + 3 T = 10 Sessions
Topics: Backlinks – Domain Authority and Page Authority – Link Building Strategies – Guest Blogging – Social Signals – Local SEO (Google My Business, NAP Consistency) – Online Reputation Management.			
Targeted Application & Tools that can be used: Google Analytics, SEMrush / Ahrefs, Screaming Frog SEO Spider			
Project work/Assignment:			
Assignment 1: Module 1 - Quiz			
Assignment 2: Module 2 - Written Assignment			
Assignment 3: Module 3 - Case study

Course Code: DMT5119	Course Title Blockchain in Digital Marketing	L	T	P	C
	Type of Course: Specialization Track Elective Theory Only Course	2	1	0	3
Version No.	1.0				
Course Pre-requisites	MKT4111 Marketing Management - Theories and Practices MKT4112 Digital Marketing Strategy, Tools and Trends				
Anti-requisites					
Course Description	This course introduces the fundamentals and applications of blockchain technology in digital marketing. It explores how blockchain enhances transparency, trust, and efficiency across advertising, customer data protection, influencer validation, loyalty programs, and digital payments. The course also examines blockchain's impact on marketing strategy and future trends like NFTs and decentralized marketing platforms.				
Course Outcomes	CO1	Understand the principles and architecture of blockchain and its marketing relevance.			
	CO2	Apply blockchain applications in digital advertising, influencer marketing, and customer loyalty.			
	CO3	Analyze the impact of blockchain on data privacy, targeting, and campaign integrity.			
	CO4	Create blockchain-integrated strategies for secure, transparent, and ethical digital marketing.			
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by				

		using EXPERIENTIAL LEARNING techniques.	
Module 1	Blockchain Fundamentals for Marketers	Quiz (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Basics of Blockchain – Distributed Ledger Technology (DLT) – Smart Contracts – Public vs Private Blockchains – Cryptocurrency Basics – Web3 Overview – Trust and Transparency in Digital Transactions.			
Module 2	Blockchain in Digital Advertising	Assignment using E Library (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Problems in Digital Advertising (Ad Fraud, Transparency) – Blockchain for Ad Verification – Programmatic Advertising with Blockchain – Eliminating Middlemen – Blockchain Ad Networks (e.g., Brave, BitClave).			
Module 3	Influencer Marketing and Customer Loyalty	Case Study (Participative Learning)	7 L + 4 T = 12 Sessions
Topics: Authenticity and Verification of Influencers – Smart Contracts for Brand-Influencer Deals – Blockchain-Driven Loyalty and Rewards Systems – Tokenized Engagement – Gamification and Microtransactions.			
Module 4	Future of Blockchain in Marketing	Project (Experiential Learning)	7 L + 3 T = 12 Sessions
Topics: NFTs in Brand Engagement – Metaverse and Virtual Ownership – DAOs for Marketing Collaboration – Blockchain-based Affiliate Marketing – Case Studies – Industry Use Cases – Challenges to Adoption.			
Targeted Application & Tools that can be used: Brave Browser (Ad reward model), MetaMask Wallet (for demo)			
Project work/Assignment:			
Assignment 1: Module 1 - Quiz Assignment 2: Module 2 - Written Assignment Assignment 3: Module 3 - Case study Assignment 4: Module 4 - Project Work

Course Code: DMT5120	Course Title Online Reputation Management	L	T	P	C
	Type of Course: Specialization Track Elective, Theory Only Course	2	1	0	3
Version No.	1.0				
Course Pre-requisites	MKT4111 Marketing Management - Theories and Practices MKT4112 Digital Marketing Strategy, Tools and Trends				
Anti-requisites					
Course Description	This course explores the strategic role of Online Reputation Management (ORM) in digital marketing. It equips students to monitor, manage, and influence brand perception online using content, engagement strategies, listening tools, and crisis communication techniques. Students will learn how to build, protect, and restore digital brand reputation in competitive and crisis-driven environments.				

Course Outcomes	CO1	Understand the foundations and importance of online reputation in the digital era.	
	CO2	Apply ORM tools and techniques to manage brand sentiment across platforms.	
	CO3	Analyze consumer feedback, reviews, and brand mentions for strategic decisions.	
	CO4	Create and execute online reputation strategies, including crisis response plans.	
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by using EXPERIENTIAL LEARNING techniques.		
Module 1	Introduction to Online Reputation Management	Quiz (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Definition and Scope of ORM – ORM vs PR – Evolution of Brand Perception – Components of Online Reputation – Role of ORM in the Digital Funnel – B2C and B2B Perspectives – Benefits and Risks.			
Module 2	ORM Tools and Monitoring Platforms	Assignment using E Library (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Review Management Tools (Google Reviews, Yelp, Trustpilot) – Social Listening Platforms (Brandwatch, Mention, Hootsuite) – Monitoring Brand Mentions – Influencer ORM – Sentiment Tracking – Setting up Dashboards.			
Module 3	Strategy for Building and Managing Reputation	Case Study (Participative Learning)	7 L + 4 T = 12 Sessions
Topics: Creating ORM Policies – Brand Voice and Tone Guidelines – Managing Online Reviews and Ratings – ORM Content Strategy – Response Strategy for Positive/Negative Feedback – Internal vs External Stakeholder Engagement.			
Module 4	Crisis Management and Damage Control	Project (Experiential Learning)	7 L + 3 T = 12 Sessions

Topics: Types of Online Crises – Reputation Recovery Frameworks – Real-time Crisis Communication – Media and Influencer Relations in Crises – Timing and Tone in Response – Case Studies of Reputation Failures and Recoveries.

Targeted Application & Tools that can be used: Google Alerts, Hootsuite / Mention, Trustpilot / MouthShut / Glassdoor, Canva / ChatGPT (for response drafting), Power BI / Google Data Studio (for sentiment dashboards).

Course Code: DMT5121	Course Title Affiliate and Influencer Marketing	L	T	P	C
	Type of Course: Specialization Track	2	1	0	3

	Elective, Theory Only Course				
Version No.	1.0				
Course Pre-requisites	MKT4111 Marketing Management - Theories and Practices MKT4112 Digital Marketing Strategy, Tools and Trends				
Anti-requisites					
Course Description	This course provides an in-depth understanding of affiliate and influencer marketing strategies. Students will learn how to identify, recruit, and manage affiliates and influencers, structure partnership programs, measure performance, and ensure compliance with digital advertising regulations. Emphasis is placed on ROI, campaign management, and real-world tools used in modern digital ecosystems.				
Course Outcomes	CO1	Understand the foundations, business models, and strategies of affiliate and influencer marketing.			
	CO2	Apply methods for recruiting, onboarding, and managing affiliates and influencers.			
	CO3	Analyze campaign performance and ROI using analytical tools and KPIs.			
	CO4	Create compliant and effective marketing plans using affiliate and influencer channels.			
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by using EXPERIENTIAL LEARNING techniques.				
Module 1	Introduction to Affiliate and Influencer Marketing	Quiz (Participative Learning)	8 L + 4 T = 12 Sessions		

Topics: Definition and Evolution – Affiliate vs Influencer Marketing – Market Size and Trends – Key Stakeholders (Merchants, Affiliates, Networks, Influencers) – Business Models (CPS, CPA, CPL) – Ethics and Trust.			
Module 2	Affiliate Marketing Framework and Campaign Setup	Assignment using E Library (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Affiliate Networks (CJ Affiliate, ShareASale, Amazon Associates) – Program Structuring – Tracking and Cookies – Offer Creation – Commission Models – Attribution Challenges – Compliance and Disclosure Guidelines.			
Module 3	Influencer Marketing Strategy and Execution	Case Study (Participative Learning)	7 L + 4 T = 12 Sessions
Topics: Types of Influencers (Nano to Mega) – Selection and Vetting – Outreach and Relationship Management – Influencer Briefs and Contracts – Content Collaboration – Campaign Timeline and Delivery.			
Module 4	Performance Analytics and ROI Measurement	Project (Experiential Learning)	7 L + 3 T = 12 Sessions
Topics: KPIs: Reach, Engagement, Conversions, Earned Media Value – Platform Analytics (Instagram, YouTube, Blog) – UTM Tracking – A/B Testing for Creatives – Reporting Tools – Budget Optimization.			
Targeted Application & Tools that can be used: Amazon Associates, Impact, Refersion, Instagram Insights, YouTube Studio, Canva for content briefs, AspireIQ, Upfluence, Influencity.

Version No.	1.0				
Course Pre-requisites	MKT4111 Marketing Management - Theories and Practices MKT4112 Digital Marketing Strategy, Tools and Trends				
Anti-requisites					
Course Description	This course introduces the application of Google Analytics (GA4) and Google Data Studio (Looker Studio) in digital marketing measurement and reporting. Students will learn to track, interpret, and visualize user data from websites and apps, enabling actionable insights for marketing performance, user behavior, and campaign optimization.				
Course Outcomes	CO1	Understand the structure, tracking mechanisms, and reporting features of Google Analytics.			

	CO2	Apply Google Analytics to measure and interpret website/app performance.	
	CO3	Analyze marketing KPIs and user behavior using built-in and custom reports.	
	CO4	Create interactive dashboards using Google Data Studio for marketing decision-making.	
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by using EXPERIENTIAL LEARNING techniques.		
Module 1	Fundamentals of Google Analytics (GA4)	Quiz (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Understanding Google Analytics 4 – Data Streams and Events – Page Views, Sessions, and Users – Cookies and User Tracking – Real-time Reporting – Exploring the GA4 Interface – Comparison with Universal Analytics.			
Module 2	Key Metrics, Dimensions, and Reports	Assignment using E Library (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Primary Metrics and Dimensions – Engagement Metrics (Bounce Rate, Scrolls, Events) – Acquisition, Behavior, and Conversion Reports – Traffic Channels – Source/Medium – Campaign Tracking – Internal Site Search Tracking.			
Module 3	Goals, Events, and Conversion Tracking	Case Study (Participative Learning)	7 L + 4 T = 11 Sessions
Topics: Creating Events and Conversions – Enhanced Measurement Settings – Setting Up Goals – Event Parameters – Tagging with Google Tag Manager – E-commerce Tracking – Funnel Analysis and Attribution.			
Module 4	Campaign Reporting and Decision-Making	Project (Experiential Learning)	7 L + 3 T = 10 Sessions
Topics: Building Marketing Dashboards – Custom Report Creation – Connecting Google Ads and Search Console – Client and Management Reporting – Case Examples in E-commerce, Education, B2B – Dashboard Interpretation for Business Insights.			
Targeted Application & Tools that can be used: Google Analytics (GA4), Google Tag Manager, Google Data Studio / Looker Studio, Google Ads Integration, Google			

Search Console.

	Type of Course: Specialization Track Elective Theory Only Course	2	1	0	3
Version No.	1.0				
Course Pre-requisites	MKT4111 Marketing Management - Theories and Practices MKT4112 Digital Marketing Strategy, Tools and Trends				

Anti-requisites			
Course Description	This course provides students with a strategic and hands-on understanding of video marketing. It covers video planning, content creation, platform-specific optimization (YouTube, Instagram, LinkedIn), storytelling, audience targeting, analytics, and advertising. Emphasis is placed on video as a tool for brand engagement, lead generation, and ROI.		
Course Outcomes	CO1	Understand the role of video in digital marketing strategy and consumer engagement.	
	CO2	Apply techniques to plan, create, and distribute marketing videos across platforms.	
	CO3	Analyze the performance of video content using platform-specific and third-party analytics.	
	CO4	Create a video marketing plan aligned with branding, storytelling, and conversion objectives.	
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by using EXPERIENTIAL LEARNING techniques.		
Module 1	Fundamentals of Video Marketing	Quiz (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Introduction to Video Marketing – Evolution and Importance – Video in the Marketing Funnel – Types of Videos (Explainers, Testimonials, How-To, Ads, Webinars) – Video Trends – Consumer Behavior and Attention Spans.			
Module 2	Video Planning and Storyboarding	Assignment using E Library (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Audience Research – Brand Messaging – Scripting – Storyboarding – Shot Planning – Production Basics – Tools for Planning and Writing (Canva, ChatGPT for Scriptwriting) – Video Brief Templates.			
Module 3	Video Creation and Editing	Case Study (Participative)	7 L + 4 T = 11

	Tools	Learning)	Sessions
Topics: Recording Tools (Smartphones, DSLR) – Editing Tools (Canva Video, InVideo, CapCut, Adobe Premiere Rush) – Captions, Transitions, Music Licensing – Aspect Ratios and Resolution – Video Compression – Thumbnails.			
Module 4	Publishing, SEO, and Platform Optimization	Project (Experiential Learning)	7 L + 3 T = 10 Sessions
Topics: YouTube SEO – Metadata (Title, Tags, Descriptions) – YouTube Shorts and Instagram Reels – Video Scheduling – Cross-platform Sharing – Embedding – CTA and End Screens – YouTube Studio Dashboard.			
Targeted Application & Tools that can be used: Canva Video, CapCut, InVideo, YouTube Studio, Google Ads (Video Campaigns), Instagram Insights / Facebook Creator Studio, ChatGPT / Jasper for Scripting.

Version No.	1.0				
Course Pre-requisites	MKT4111 Marketing Management - Theories and Practices				

	MKT4112 Digital Marketing Strategy, Tools and Trends		
Anti-requisites			
Course Description	This course introduces students to the principles of User Experience (UX) and User Interface (UI) design in the context of digital marketing. It emphasizes the importance of designing customer-centric digital assets (websites, apps, landing pages) that improve usability, engagement, and conversions. Students will learn how to wireframe, prototype, test, and optimize digital experiences.		
Course Outcomes	CO1	Understand UX/UI principles and their role in enhancing digital marketing performance.	
	CO2	Apply design thinking to plan and structure intuitive digital interfaces.	
	CO3	Analyze user behavior to optimize journeys, reduce friction, and increase engagement.	
	CO4	Create prototypes and test UX solutions using industry-standard tools.	
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by using EXPERIENTIAL LEARNING techniques.		
Module 1	Introduction to UX/UI in Marketing	Quiz (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: What is UX vs UI? – Role in Marketing – Customer Experience (CX) and Journey Mapping – UX Psychology – Touchpoints in the Digital Funnel – UX Metrics (Usability, Satisfaction, Task Success).			
Module 2	Design Thinking and UX Strategy	Assignment using E Library (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Design Thinking Process – Empathize, Define, Ideate, Prototype, Test – Stakeholder Mapping – Personas – Empathy Maps – Competitive UX Audit – UX Writing Basics – Storytelling in UX.			
Module 3	Wireframing and Prototyping	Case Study (Participative Learning)	7 L + 4 T = 11 Sessions
Topics: Low- and High-Fidelity Wireframes – Page Structure – UI Components – Hierarchy and Navigation – Prototyping with Figma/Adobe XD – Mobile-First Design – CTA Placement and User Flow.			
Module 4	Visual Design and	Project	7 L + 3 T

	Accessibility	(Experiential Learning)	= 10 Sessions
Topics: Color Theory, Typography, spacing – Consistency and Branding – UI Style Guides – Accessibility Guidelines (WCAG) – Contrast Ratios – Responsive Design – Designing for Diverse User Needs.			
Targeted Application & Tools that can be used: Figma, Canva (UI templates), Miro (Journey Mapping), Hotjar

Course Code: DMT5127	Course Title Luxury and Fashion Digital Marketing	L	T	P	C
	Type of Course: Specialization Track Elective Theory Only Course	2	1	0	3
Version No.	1.0				
Course Pre-requisites	MKT4111 Marketing Management - Theories and Practices MKT4112 Digital Marketing Strategy, Tools and Trends				
Anti-requisites					
Course Description	This course introduces learners to the unique principles, challenges, and opportunities of digital marketing in the luxury and fashion sectors. The course explores how premium brands use digital tools for storytelling, influencer collaborations, customer experience, e-commerce, and global brand building—while maintaining exclusivity and heritage.				
Course Outcomes	CO1	Understand the dynamics of digital marketing within the luxury and fashion industries.			
	CO2	Apply brand storytelling, influencer, and content strategies for premium positioning online.			
	CO3	Analyze consumer behavior and trends influencing luxury/fashion digital campaigns.			

	CO4	Create a digital marketing strategy tailored to luxury or fashion brand goals.	
Course Objective	This course is designed to improve the learners' EMPLOYABILITY SKILLS by using EXPERIENTIAL LEARNING techniques.		
Module 1	Introduction to Luxury and Fashion Marketing	Quiz (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Defining Luxury vs. Premium vs. Mass Market – History and Evolution – Core Values of Luxury Brands – Fashion Branding and Market Cycles – The Shift from Print to Digital in Luxury – Consumer Psychology in Affluent Markets.			
Module 2	Digital Presence and Storytelling in Fashion & Luxury	Assignment using E Library (Participative Learning)	8 L + 4 T = 12 Sessions
Topics: Digital Brand Identity – Storytelling Frameworks – Brand Heritage and Modernity Balance – Website and App Experience – Visual Merchandising Online – Editorial Style Content – Emotional Branding through Social Media.			
Module 3	Social media, Influencers & Community Building	Case Study (Participative Learning)	7 L + 4 T = 11 Sessions
Topics: Platform Strategies (Instagram, Pinterest, TikTok, WeChat) – Fashion Influencer Ecosystem – Campaign Co-Creation – Micro vs. Macro Influencers – Community Aesthetics – Virtual Influencers and AI Styling.			
Module 4	Omnichannel and E-Commerce in Fashion & Luxury	Project (Experiential Learning)	7 L + 3 T = 10 Sessions
Topics: Digital Flagship Stores – Luxury E-commerce Platforms (Farfetch, Net-a-Porter) – Seamless Brand Experience – AR/VR in Fashion Retail – Mobile and Social Commerce – CRM and Personalization in Online Luxury.			
Targeted Application & Tools that can be used: Instagram, Whatsapp, X, Shopify, Amazon, Canva & Adobe Express (fashion creatives), Google Analytics, Trend platforms: Vogue Business, WGSN (for trend analysis).			
Project work/Assignment:			
Assignment 1: Module 1 - Quiz Assignment 2: Module 2 - Written Assignment Assignment 3: Module 3 - Case study Assignment 4: Module 4 - Project Work

PPS Courses

Course Code: PPS4010	Course Title: Corporate Readiness Program – I	L- T - P- C	0	0	2	0
Type of Course: Practical Only Course						
Version No.	1.0					
Course Pre-requisites	Students are expected to understand Basic English. Students should have inclination and enthusiasm to involve, participate and learn.					
Anti-requisites	Nil					
Course Description	This course is designed to enable students to develop strong behavioural, emotional, and career-readiness capabilities through a structured four-phase journey—Reflect, Innovate, Stimulate, and Elevate. The course focuses on building self-awareness, emotional intelligence, behavioural excellence, career clarity, and professional readiness through experiential learning, self-diagnostic tools (e.g., FIRO-B), simulations, and reflective practices, thereby preparing learners for effective workplace integration and placement success. As a semester-integrated initiative, it bridges academic learning with industry expectations, introducing structured self-awareness early, translating insights into observable behaviours, enabling evidence-based career mapping, and preparing for professional conduct and interviews.					
Course Outcomes	On successful completion of the course the students shall be able to: CO1: Identify career goals using self-diagnostic evidence CO2: Present a professional brand aligned to industry expectations CO3: Demonstrate behavioural excellence in teams, communication, and ethical decision-making					
Course objective	The objective of the course is to familiarize the learners with the concepts of "Corporate Readiness Program I course" and attain SKILL DEVELOPMENT through PARTICIPATIVE LEARNING techniques, including flipped classroom, activity-based simulations, and real-world applications.					
Course Content:						
Module 1	Reflect					8 Sessions
Topics: Topics: Strong self-awareness foundation using FIRO-B, Psychological safety and interpersonal needs, Personality, values, and work identity, Emotional intelligence and self-regulation, Resilience, stress management, and professional maturity Activity: Self-assessments, guided reflection, facilitated discussions, activities, journaling						
Module 2	Innovate					8 Sessions
Topics: Topics: Behavioural effectiveness at the workplace, Leadership mind-sets and decision-making, Collaboration, conflict management, and influence skills, Professional ethics and behavioural role modelling Activity: Case studies, role plays, group tasks, behavioural simulations						
Module 3	Stimulate					8

				Sessions
<p>Topics: Topics: Career awareness and industry expectations, Career mapping and role targeting, Skill gap analysis and employability alignment, Career action planning</p> <p>Activity: Career diagnostics, mapping exercises, mentoring discussions, individual planning</p>				
Module 4	Elevate			6 Sessions
<p>Topics: Topics: Resume structuring and personal branding, Mock interviews and assessment simulations, Final review, career strategy, and professional closure.</p> <p>Activity: Resume labs, mock interviews, assessment center simulations, expert feedback</p>				
<p>Targeted Application & Tools that can be used:</p> <p>Interactive Quiz TED Talks You Tube Links Activities FIRO-B Diagnostic Tool Reflection Journals Career Mapping Templates Resume Builders STAR Method Guides</p>				
<p>Project work/Assignment: Mention the Type of Project /Assignment proposed for this course:</p> <p><u>Assignment 1:</u> Profile Presentation (e.g., present self-insights from FIRO-B and personal values aligned to career goals).</p> <p><u>Assignment 2:</u> Career Roadmap and Professional Portfolio (e.g., 3-Year Career Map, Skill Action Plan, Updated Resume, and Brand Statement).</p>				
<p>The topics related to skill development:</p> <p>The topics related to soft skills, behavioral skills, emotional intelligence, career readiness, and employability skills for Skill Development through Participative Learning Techniques. This is attained through assessment Component mentioned in course handout.</p>
