## About the School

### *Presidency School of Commerce*

At Presidency School of Commerce, there are high-demand programmes in business analytics, corporate accounting with CMA, and economics. The curriculum is well aligned with the United Nations Sustainable Development Goals (SDGs), ensuring that students are sensitised to global challenges such as sustainability, ethical practices, and responsible innovation.

Additionally, the curriculum is carefully designed to align with emerging trends in Artificial Intelligence (AI). The industry-relevant tools and practical exposure provided by the school effectively meet current industry demands and enhance students' employability.

Our B.Com programmes are curated to prepare future leaders in commerce, with a strong foundation in finance, accounting, taxation, business management, and technology, along with globally recognised certifications such as ACCA, CMA (US), CA Foundation, and CBA.

With expert faculty, hands-on training, and strong industry connections, the programme equips students with the skills needed to thrive in the corporate world. Students also receive guidance from experienced mentors and class coordinators for both academic and non-academic matters. Additionally, the University's professional counselling services ensure holistic development and well-being throughout the academic journey.

Join us at the forefront of business, commerce, and economics education, where graduates are shaped for success in a fast-changing global economy through the convergence of the right knowledge, skills, and attitude.
