

PRESIDENCY
UNIVERSITY

Presidency School of Allied Health Sciences

Aspire. Believe. Become.

ADMISSIONS OPEN 2026 – 2027

Introduction

Presidency School of Allied Health Sciences has been established to cater to the growing need for a health workforce and to facilitate the needs of the ecosystem of health care, which also includes assisting, facilitating and complementing the work of physicians and other health care specialists.

Career Options

Bachelor of Anaesthesia and Operation Theatre Technology (B.AOTT)

Operation Theatre (Assistant/ Team Leader/ Manager)

B.Sc. Cardiac Care Technology (CCT)

- Cardiac Technologist
- Cardiac Sonographer
- Cardiac Rehabilitation Specialist
- Healthcare Administrator
- Clinical Research Assistant

Bachelor of Medical Radiology and Imaging Technology (B.MRIT)

- Radiologic Technologist
- MRI Technologist
- CT Technologist
- Ultrasound Technologist
- Nuclear Medicine Technologist
- Radiation Therapist
- Healthcare Educator

Bachelor of Physiotherapy (B.PT)

- Clinical Psychologist
- Clinical Physiotherapist
- Sports Physiotherapist
- Neurological Physiotherapist

Bachelor of Occupational Therapy (B.OT)

- Multispecialty Hospitals
 - Rehabilitation Centres
 - Non-Governmental Organisations (NGOs)
 - Special Schools and Inclusive Education Centres
 - Old Age Homes and Geriatric Care Facilities
 - Private Clinics
 - Corporate Wellness Programmes
-

Eligibility Criteria

Bachelor of Anaesthesia and Operation Theatre Technology (B.AOTT)

The minimum qualification for eligibility for B.Sc. Operation Theatre & Anaesthesia Technology is a pass in 12th std. in Science stream from CBSE/ISC/PUC or any other recognized Board, with a minimum of 50% in Physics, Chemistry, Mathematics, Biology and a pass in English.

B.Sc. Cardiac Care Technology (CCT)

The minimum qualification for eligibility of B.Sc. Cardiac Care Technology is a pass in 12th std./PUC in science stream from CBSE/ISC or any other equivalent board, with a minimum 50% in PCMB and a pass in English.

Bachelor of Occupational Therapy (B.OT)

- Candidates must have appeared for the National Eligibility cum Entrance Test (NEET).
- Must have passed 10+2 or equivalent examination with Physics, Chemistry, Biology, and English from a recognised board.
- A minimum of 50% aggregate marks in Physics, Chemistry, and Biology is required.
- Candidates from National Open School and equivalent recognized boards are eligible, subject to fulfilling the required subjects and marks criteria.
- Candidates with equivalent qualifications obtained abroad must meet the eligibility norms prescribed by the Association of Indian Universities (AIU).
- Applicants must have completed 17 years of age on or before the date of admission.
- A medical fitness certificate from a registered medical practitioner must be submitted at the time of admission.

Bachelor of Medical Radiology and Imaging Technology (B.MRIT)

The minimum qualification for B.Sc. Medical Imaging Technology is a minimum of 50% in the 10+2 examination from PUC/ICSE/CBSE/ 12th Grade or an equivalent board. With Physics, Chemistry, and Biology as mandatory subjects, along with a passing grade in English.

Bachelor of Physiotherapy (B.PT)

The minimum qualification for eligibility of Bachelor of Physiotherapy (BPT) is a pass with a minimum 50% in physics, chemistry and biology (botany & zoology), mathematics (10+2) or equivalent board recognized by any Indian University.

Why Presidency University?

- **Meeting the Growing Demand:** Established to address the increasing need for a skilled and qualified health workforce.
- **Comprehensive Training:** Designed to support, facilitate, and complement the work of physicians and other healthcare specialists.
- **Ecosystem-Focused Learning:** Tailored to meet the evolving needs of the healthcare ecosystem.
- **Industry-Relevant Curriculum:** Equips students with practical skills and knowledge to thrive in diverse healthcare settings.
- **Career-Ready Graduates:** Prepares students to become essential contributors to multidisciplinary healthcare teams.

Programmes Offered

Bachelor of Anaesthesia and Operation Theatre Technology (B.AOTT)

This is a well-designed four year programme of study that imparts a comprehensive understanding of operation theatre management and anaesthesia techniques. Students acquire expertise in administering anaesthesia, ensuring patient safety, and adeptly managing the complexities of the operation theatre. With a successful band of experienced faculty who enable students to create an immersive learning environment, students gain hands-on experience in surgical procedures, emergency response, and the utilisation of advanced medical technologies. By building a strong sense of professionalism and ethical conduct in the healthcare setting, this programme provides students with a deep and nuanced understanding of anaesthesia techniques and operation theatre protocols. The programme also includes a mandatory one year on the job training

B.Sc. Cardiac Care Technology (CCT)

This four year programme prepares students to support cardiologists in diagnosing and treating heart-related conditions. The curriculum covers ECG, echocardiography, cardiac catheterisation, and monitoring technologies used in intensive cardiac care units. Students learn about the heart's electrical conduction system and its pivotal role in cardiac function. Through practical learning students are equipped with essential skills to operate imaging equipment, capture diagnostic images, and analyse results for effective diagnosis and monitoring.

Bachelor of Medical Radiology and Imaging Technology (B.MRIT)

This well-structured four year programme spans course on anatomy, physiology, radiographic procedures, and imaging techniques, providing students with a holistic understanding of the field. The programme helps students to understand the functioning of medical imaging modalities such as X-ray, computed tomography (CT), magnetic resonance imaging (MRI), ultrasound, and nuclear medicine. Students gain hands-on experience in radiographic positioning, imaging protocols, and radiation safety for accurate diagnostic support.

Bachelor of Physiotherapy (B.PT)

This four year programme encompasses courses in human anatomy and biomechanics, apart from a practical experience that makes graduates ready to face the demands of the healthcare industry. It is a comprehensive health sciences programme that focuses on physical rehabilitation, pain relief, and mobility restoration. Practical training modules include training in exercise therapy, electrotherapy, and manual techniques to help patients recover from injuries and disorders. This programme also includes a six-month internship which equips students with the essential skills and knowledge required to become a physiotherapy practitioner. The programme also includes a mandatory one year clinical internship

Bachelor of Occupational Therapy (B.OT)

The five-year Bachelor of Occupational Therapy (B.OT) programme, comprising four years of academic study and one year of compulsory rotatory internship, prepares students to become skilled rehabilitation professionals dedicated to improving functional independence and quality of life. The programme provides comprehensive training in assessing and managing physical, neurological, developmental, psychological, and emotional challenges through evidence-based therapeutic interventions. With a strong emphasis on academic learning, practical training, and clinical exposure, students develop the clinical competence and therapeutic skills required to support individuals across all age groups in leading independent and meaningful lives.
