

SCHOOL OF ENGINEERING Department of Physics

Ref. No: PU/SOE/PHY/ATR/BOS-02/2018-19 Date: 17th Jan 2019

Action taken Report on Curriculum Feedback

Report on Student Feedback Analyzed and Action Taken: 2018-2019

SOE-PHYSICS

Sl No.	Feedback	Action Taken
1	Include Physics concepts that are aligned with computer science and related branches	Suggestion is considered and related concepts are introduced in the revised syllabus.
2	Some units can be replaced and some applicable concepts/areas can be added.	The unit is replaced and included.
3	Few Concepts can be taught in terms of experiential learning	To experience the concepts activity sessions are conducted and student will do hand on experiment on the different concepts.
4	More visibility should be given to the students on open electives floated by basic science department	Has conveyed to the Engineering Heads to canvas about the electives floated by science departments
5	It is good if few concepts are taught with more depth.	Will be incorporated in our lecturing sessions
6	More prescribed books for references must be included.	Suggestion is considered and will be included in the next AY
7	My advice is to reduce the no. of units/merge the relevant units and make as modules.	Suggestion is considered and module system is made by merging two or more units.
8	Discuss the concepts in more depth, increase problem solving content	Suggestion is considered and problem solving content is included.
9	Application oriented/industry based syllabus to be included	The revised syllabus is more of application oriented

Pursuant to feedback received from stakeholders, new courses have been added to curriculum as shown in Annexure I and revised courses are shown in Annexure II

Action taken Report on Curriculum Feedback

Feedback from Faculty members and action taken report: 2018-2019

Sl. No.	Feedback Received	Action Taken
1	Introduce more field based activities and practical sessions as part of courses	Separate slots have been assigned for active learning classes on Saturday to accommodate field based activities and practical sessions to link theory with lab
2	Need to allot more teaching/tutorial hours for design based courses/numerical based courses	The course contents are planned according to the lecture and tutorial hours available. However, there might have been a need felt to engage more tutorial hours only for slow learners. Remedial classes are being arranged for slow learners after regular working hours.

Pursuant to feedback received from stakeholders, new courses have been added to curriculum as shown in Annexure I and revised courses are shown in Annexure II
