Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires managements to make judgements, estimates and assumptions that affect the application of a Accounting Policiels and reported amounts of assets, liabilities, income and expenditure and disclosure of contingent liabilites on the date of the Balance Sheet. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in current and future periods.

Borrowing costs are interests and other costs incurred by the sponsoring body on behalf of the University in connection with the **Borrowing Cost Capitalisation** borrowing of funds. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not recognized but disclosed in the notes to the financial statements.
