f Borrowing Cost Capitalisation

Borrowing costs are interests and other costs incurred by the sponsoring body on behalf of the University in connection with the borrowing of funds. Payment for lease hold land is amortised over the period of lease.

d Retirement benefits

Retirement benefits i.e., gratuity and leave encashment are accounted on cash basis

e Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires managements to make judgements, estimates and assumptions that affect the application of Accounting Policies and reported amounts of assets, liabilities, income and expenditure and disclosure of contingent liabilities on the date of the Balance Sheet. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in current and future periods.

f Borrowing Cost Capitalisation

Borrowing costs are interests and other costs incurred by the sponsoring body on behalf of the University in connection with the borrowing of funds. The funds are used for the purpose of developing infrastructure and purchase of fixed assets for the University and for operating expenses. Borrowing costs directly attributable to construction or acquisition of those fixed assets which essentially take substantial period of time to get ready for their intended use are capitalised. Other borrowing costs are expensed in the period in which these are incurred.

g Provision and Contingencies

A provision is recognized when the Institution has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not recognized but disclosed in the notes to the financial statements.
