Students without United States citizenship or permanent residence (also called a green card) will require a visa that permits them to study in the United States. Some foreign students already have a visa that allows them to study at an American university. It is important to know whether that visa will also allow you to work, especially if you will pursue a program at Drexel with a co-op requirement (cooperative education).

Please note that only those students who have confirmed their acceptance to Drexel can start the visa application. Drexel can support you in pursuing one of two types of student visas: an F-1 visa or a J-1 visa. If you have any concerns or questions about what type of visa you need in order to pursue your studies at Drexel University, please visit the International Students and Scholars Services Office website (<https://drexel.edu/iss/new-international-students/>) to learn more about different visa types.

Dear Mr. Suresh:

We are pleased to inform you of your admission for graduate study in Computer Engineering beginning with the Fall Semester 2023. All new students must attend the International Student Orientation. Information about orientation will be emailed to you by the International Students and Scholars Office (ISSO), or visit <https://www.isso.iastate.edu/new-student-orientation>.

If you indicated on your application that you would be applying for a student visa, the Certificate of Eligibility (Form I-20 or DS-2019) has been enclosed. Please check it carefully to make sure that the information is accurate and notify us immediately if any corrections are necessary.

If you indicated that you are currently attending another school in the US, a new Iowa State University I-20 Form cannot be issued until AFTER your current institution releases your SEVIS record to Iowa State University (the release date is usually on or after the last day of classes). In addition to requesting your current school to release your SEVIS record, you must also complete the I-20 SEVIS Transfer to ISU e-Form available under the Student Services tab in CyStart at [cystart.its.iastate.edu](http://cystart.its.iastate.edu). You will have to login through the Limited Services link on the right side of the page. Iowa State must have this e-form completed by you and your International Student Advisor at your current school before you begin classes at Iowa State.

Your admission is conditional pending our receipt of official final academic records from your previous institution(s). (Uploaded and e-mailed documents are not official.) Final records must be received by our office before you will be allowed to enroll in classes at Iowa State. If you are a current ISU student, this will be handled internally for you. If you anticipate any difficulties in meeting these requirements, please contact the Office of Admissions for assistance. You can reference information regarding official academic records on the enclosed Official Academic Record Information Sheet.

- If your studies are complete, please contact the Registrar at your previous school(s) and arrange to have official records mailed to the Office of Admissions. They must be received within the next four weeks. If you have already had all official academic records sent, you may skip this step.
- If you are still attending classes, when your present study is complete, please arrange to have your final academic record and degree statement sent to our office. Please contact the Registrar at your institution(s) and arrange to have those official records sent to the Office of Admissions within four weeks of the completion of the final term.

If your primary language is not English, you will be given an English placement test upon your arrival in order to determine your need for a course in English as a second language.

Health documentation requirements for new students are provided on the Thielen Student Health Center website at [www.cyclonehealth.org](http://www.cyclonehealth.org). All new students attending Iowa State University are required to submit proof of two immunizations for measles, and international students will also be given tuberculosis screening and a meningitis vaccination after arriving at Iowa State. You will receive a message on AccessPlus that provides a link to the online Immunization Submission System which allows you to upload scanned copies of your immunization documentation. These must be received no later than one month before the beginning of the semester. A health insurance policy to help defray the costs of health care or unexpected hospitalization is required for all international students and any family members who accompany them. If you have already attended Iowa State University, you can skip this step. Further information on the health insurance program is also available on that website.

Our Department of Residence website (<http://www.housing.iastate.edu>) provides you with information about the various types of housing offered. Preference in housing assignments is based on the dates the housing contract is received, so the earlier you return the contract to the Department of Residence, the more likely you are to obtain your housing preferences.

Please keep this office and your department informed of any change in your plans. We look forward to your joining us at Iowa State.
